State Epidemiologist

RE: Final Adoption of Disease Reporting and Control Rule, 410 IAC 1-2.5 (LSA Document #15-39)

The Indiana State Department of Health requests that the Executive Board, at the Board's September 30, 2015 meeting, finally adopt the Disease Reporting and Control Rule at 410 IAC 1-2.5.

The proposed rule adds 410 IAC 1-2.5 to add definitions, reporting requirements, dangerous communicable diseases, disease intervention measures, general and specific control measures, and documents incorporated by reference. The rule adds and modifies control measures for schools, daycare facilities, preschools, health care facilities, and food handlers and adds reporting requirements for physicians, hospital administrators, and laboratories. It repeals 410 IAC 1-2.3.

The Notice of Intent to Adopt a Rule was published in the Indiana Register on February 11, 2015, starting the one year period to adopt this rule. The proposed rule was preliminarily adopted by the Executive Board at the March 11, 2015, meeting. Although minor changes have been made based on public comment, the rule has not substantively changed.
