https://www.eventbrite.com/e/rural-trauma-team-development-course-tickets-33095234738

Hosted by the
District 1 Trauma Advisory Council

RTTDC emphasizes a team approach to the initial assessment, resuscitation and transfer of the trauma patient in a systemized, concise manner.

The course targets individuals who are involved in the care of the injured patient at hospitals who transfer to a higher level of care and includes physicians, nurse practitioners, physician assistants, nurses, prehospital providers, technicians, and administrative support personnel.

8.25 AMA Category 1 CME provided per the American Collage of Surgeons
