Preston Black
Director
Office of Legal Affairs
Indiana State Department of Health
2 North Meridian Street
Indianapolis, IN 46204

Dear Mr. Black:

Pursuant to IC 4-22-2-23, the Indiana Economic Development Corporation ("IEDC") has reviewed the economic impact analysis for small business associated with rule changes contained in LSA Document 13-351 and proposed by the Indiana State Department of Health ("ISDH"). The proposed rule adds LSA #13-351 amends 410 IAC 6-10.1 concerning the requirement for ownership of a temporary sewage holding tank, amends the separation distance an on-site sewage system and a lake or reservoir used as a public water supply, amends the requirement for the construction of septic tank baffles, clarifies the daily flow rating for septic tank outlet filters, amends the discharge rate for flood dosed systems, corrects the volume of a dosing tank under certain conditions, and amends the requirement for removal of abandoned buried electric lines.

The economic impact statement prepared by the ISDH indicates that there is no economic impact on small businesses subject to this rule, since no small businesses will incur any additional cost to comply with this rule other than federally-mandated reported and billing requirements. The IEDC does not object to the economic impact to small business associated with the proposed rule. If you have any questions about the comments contained herein please contact me at 234-3997 or eshields@iedc.in.gov.

Regards,
