Why Prevent Injuries?

- Injuries can be devastating
- Injuries can be deadly
- Injuries are costly
- Injuries are preventable

“Prevention is the vaccine for the disease of injury” – American College of Surgeons-Committee on Trauma
Primary Goals of Project

1. Create a document that can provide easily accessible and understandable data and information on the size and scope of specific injury problems in Indiana.

2. Highlight evidence-based solutions to the problem of injury
Secondary Goals of Project

1. Enhance the skills, knowledge, and resources of the injury prevention workforce
2. Bring attention to the burden of injury in Indiana
3. Generate energy around the available resources
4. Add a personal story to make problem seem more realistic
5. Promote injury as a priority for the Division of Trauma and Injury Prevention
