State Health Commissioner

DATE: November 15, 2010
TO: All Local Health Departments
Attn: Chief Food Inspection Officer
FROM: A. Scott Gilliam, MBA, CP-FS
Director, Food Protection Program
SUBJECT: New Braunfels Smokehouse Recall

SUGGESTED

ACTION: Class I Recall; fully cooked, ready-to-eat smoked turkey breast products that may be contaminated with *Listeria monocytogenes*; Recommend notification of affected stores via phone, fax or e-mail.

From the information provided by USDA, the fully cooked, ready-to-eat smoked turkey breast products were produced on August 4, 2010, and distributed nationwide, including catalog and internet sales. Detail information is not available at this time. In addition, if any recalled product is found, please notify this office at 317-233-7360.

Texas Firm Recalls Fully Cooked Ready-To-Eat Turkey Breast Products for Possible *Listeria* Contamination

Recall Release
FSIS-RC-060-2010

CLASS I RECALL
HEALTH RISK: HIGH

WASHINGTON, November 14, 2010 - New Braunfels Smokehouse, a New Braunfels, Texas, establishment, is recalling approximately 2,609 pounds of fully cooked, ready-to-eat smoked turkey breast products that may be contaminated with *Listeria monocytogenes* (*Lm*), the U.S. Department of Agriculture's Food Safety and Inspection Service (FSIS) announced today.

The products subject to recall include: [Labels] (PDF Only)

- 1-pound packages of "New Braunfels Smokehouse Sliced Smoked Turkey" with package code "2210" on the label;
- 4 to 6 lb. packages of "New Braunfels Honey-Glazed Spiral Sliced Smokehouse Hickory Smoked Boneless

- Breast of Turkey" with package code "2180" on the label;
- 4 to 6 lb. whole breast packages of "Stegall Boneless Hickory Smoked Turkey Breast" with package code "2210" on the label;
- 4 to 6 lb. whole breast packages of "Stegall Spiral Sliced Hickory Smoked Turkey Breast" with package codes "2180" or "2210" on the label.

Each package bears the USDA mark of inspection and the number "P-975" inside the mark of inspection. The fully cooked, ready-to-eat smoked turkey breast products were produced on August 4, 2010, and distributed nationwide, including catalog and internet sales. When available, the retail distribution list(s) will be posted on FSIS' website at www.fsis.usda.gov/FSIS_Recalls/Open_Federal_Cases/index.asp.

The problem was discovered through microbiological sampling by FSIS. FSIS routinely conducts recall effectiveness checks to verify recalling firms notify their customers of the recall and that steps are taken to make certain that the product is no longer available to consumers.

Consumption of food contaminated with *Listeria monocytogenes* can cause listeriosis, an uncommon but potentially fatal disease. Healthy people rarely contract listeriosis. However, listeriosis can cause high fever, severe headache, neck stiffness and nausea. Listeriosis can also cause miscarriages and stillbirths, as well as serious and sometimes fatal infections in those with weakened immune systems, such as infants, the elderly and persons with HIV infection or undergoing chemotherapy. Individuals concerned about an illness should contact a health care provider.

Consumers with questions about the recall should contact company Customer Service Representative, Susan Owens, at (800) 537-6932. Media inquiries should be directed to company Vice President and General Manager, Mike Dietert, at the same phone number. Consumers with food safety questions can "Ask Karen," the FSIS virtual representative available 24 hours a day at www.AskKaren.gov. "Ask Karen" live chat services are available Monday through Friday from 10 a.m. to 4 p.m. ET. The toll-free USDA Meat and Poultry Hotline 1-888-MPHotline (1-888-674-6854) is available in English and Spanish and can be reached from 10 a.m. to 4 p.m. ET Monday through Friday. Recorded food safety messages are available 24 hours a day.
