## **COURSE DESCRIPTION**

Our 15<sup>th</sup> Annual Trauma Symposium continues the tradition of exploring successful and innovative trauma care within the context of an organized trauma system. Our dynamic speakers will present recommendations for care based on current evidence. The symposium is designed for trauma/general surgeons, neurosurgeons, orthopedic surgeons, emergency physicians, anesthesiologists, intensivists, nurses, therapists, allied health and EMS personnel involved in providing trauma care.

## **COURSE OBJECTIVES**

- Identify approaches to management of difficult problems in trauma patients
- Explore the use of novel blood products in traumatic hemorrhage control
- Discuss challenges in providing emergency care as a volunteer in global disasters
- Outline the trauma team response to an external disaster
- Select appropriate interventions in given case scenarios
- Discuss evidence-based interventions to improve outcomes in geriatric orthopedic trauma patients
- Identify key elements in coordinating a multi-agency response to a mass casualty event
- Describe essential aspects in management of common pediatric injuries
- Discuss multimodal strategies for management of acute pain in trauma patients
- Explore how multidisciplinary collaboration contributes to positive outcomes in trauma

## FACULTY

### FEATURING:

**KEYNOTE SPEAKER:  
DAVID FELICIANO,  
M.D., FACS**

Dr. Feliciano received his undergraduate and medical school education at Georgetown University. He completed a residency

in general surgery at the Mayo Graduate School of Medicine in Rochester, Minnesota, and in trauma surgery at Detroit Receiving Hospital/Wayne State University. He then completed a fellowship in vascular surgery at Baylor College of Medicine in Houston, Texas.

In 1991 Dr. Feliciano moved to Atlanta where he served as Professor of Surgery, Emory University School of Medicine and Chief of Surgery at Grady Memorial Hospital. In 2013, he was named J. Stanley Battersby Professor of Surgery and Chief of Surgery at Indiana University Medical Center. Board-certified in Surgery and in Surgical Critical Care, he has strong interests in trauma, endocrine surgery, surgical oncology and vascular surgery. Dr. Feliciano has held leadership positions in numerous professional organizations including the Western Trauma Association, the American College of Surgeons, and the American Association for the Surgery of Trauma. He has over 400 publications and is co-editor of the textbook TRAUMA (7<sup>th</sup> edition, 2013).

**SAMIR MEHTA, M.D.**

Dr. Mehta graduated from Northwestern University before attending medical school at Temple University School of Medicine. He completed a residency in Orthopaedic Surgery at The University of

Pennsylvania and a fellowship in Orthopaedic Trauma at Harborview Medical Center in Seattle, WA. Currently, Dr. Mehta serves as Assistant Professor and Chief of Orthopaedic Trauma at the Hospital of the University of Pennsylvania. He is an accomplished author with over 100 manuscripts/book chapters and serves as a reviewer and editor for several peer-reviewed orthopaedic journals. Dr. Mehta is an active member with committee and faculty responsibilities in the Orthopaedic Trauma Association, the American Academy of Orthopaedic Surgeons, the American Orthopaedic Association and AO Trauma North America. With a commitment to continuing education, he has received various teaching accolades including the AO North America Howard Rosen Orthopaedic Trauma Teaching Award.

**MARTIN SCHREIBER,  
M.D., FACS**

Dr. Schreiber received his medical degree from Case Western Reserve University in Cleveland, OH. He completed an internship at Madigan Army Medical Center (Fort

Lewis, WA) and his residency at the University of Washington in Seattle. He is Chief of Trauma, Critical Care and Acute Care Surgery at Oregon Health & Science University. He is also the director of the Trauma Research Institute of Oregon, a pioneering research organization with work in resuscitation, hemorrhage control, novel blood products, rib fractures and outcomes from trauma.
