The City of Indianapolis' comments are below in red.

### 170 IAC 5-5-1.2 Location and description of underground facilities

**(1) A written description on the ground near the underground facility or in another manner that ensures the party performing the excavation or demolition receives the description**

The City of Indianapolis objects to additional 'written description' markings on the ground as it constitutes graffiti within the public right-of-way, especially on trails, historic bricks and decorative pavers.

### 170 IAC 5-5-2.1 Notice of inability to provide locate information

**(2) A signed, written agreement between the operator and the person responsible for the excavation or demolition agreeing to a rescheduled deadline by which an operator will provide the location information as required under IC 8-1-26-18.**

Need further clarification. Will there be a legal agreement form created by the IURC or will an email satisfy this requirement?

### **Additional Comment(s):**

City of Indianapolis would like markings and/or flags removed after projects are completed. This comment is requested almost daily from property owners.
