RE: Filing for a change in the fuel adjustment factor

Dear Mr. Borum:

On October 1, 2009, Hoosier Energy will start billing a wholesale power cost tracker of \$ 0.011720 per kWh to Jackson County REMC, as shown on the enclosed Hoosier Energy REC, Inc. Power Cost Tracker.

Accordingly, Jackson County REMC would like to set its purchased power fuel cost adjustment to \$0.012384 per kWh effective October 1, 2009.

Yours truly,

A handwritten signature in black ink, appearing to read "Mark A. McKinney".

INDIANA UTILITY REGULATORY COMMISSION

VERIFIED APPLICATION AND AFFIDAVIT) CAUSE NO. _____
FOR CHANGE IN FUEL COST ADJUSTMENT)

TO THE INDIANA UTILITY REGULATORY COMMISSION:

Jackson County Rural Electric Membership Corporation (hereinafter called

“Applicant”) respectfully represents and shows unto this Commission:

1. Applicant is distributing electric utility organized and existing under the laws of the State of Indiana, and has its principal office at **Brownstown**, Indiana. It is engaged in rendering electric utility service in the State of Indiana, and owns, operates, manages, and controls, among other things, equipment within the State of Indiana used for the transmission, delivery and furnishing of such service to the public. Applicant is subject to the jurisdiction of this Commission in the manner and to the extent provided by the Indiana Regulatory Commission Act and other laws of the State of Indiana.
2. The name and address of Applicant’s attorney in this matter is **Andrew H. Wright**, **31 Public Square, Salem**, Indiana. Said attorney is duly authorized to accept service papers in this cause on behalf of Applicant.
3. This application is filed, pursuant to provisions of the Indiana Utility Regulatory Commission Act, IC 1971, 8-1-2-42 (b) for the purpose of securing authorization for an approval of the change in the fuel cost adjustment charges of Applicant.
4. Applicant’s fuel charges for purchased electricity during the past month warrant the altered fuel cost adjustment multiplier as shown in the proposed Appendix “FC” attached hereto and made a part hereof the same as if incorporated herein.

AUG 18 2009

INDIANA UTILITY
REGULATORY COMMISSION

5. Such altered fuel cost adjustment multiplier is calculated in accordance with the fuel cost adjustment clause formula previously filed with and approved by this Commission.
6. The cost data supporting the increase (or decrease) is shown on Exhibit "A" attached hereto and made a part hereof the same as incorporated herein.
7. The books and records of Applicant supporting such data and calculation are available for inspection and review by the Public Counselor and this Commission. WHEREFORE, Applicant respectfully prays that the Indiana Utility Regulatory Commission of Indiana accept this application for filing and approve the requested change.
 - i) authorizing and approving the increase (or decrease) in its existing fuel cost adjustment charges based upon the costs of fuel shown by said Appendix "FC" hereto applicable to Applicant's rate schedules which Applicant has filed with or which have been approved by the Commission:
 - ii) authorizing such increase (or decrease) to be effective on all bills rendered by Applicant for electricity subsequent to the date of the Commission's approval; and
 - iii) making such other and further orders in the premises as the Commission may deem appropriate and proper.

Base Cost per MWh	\$ 0.18	\$ 1.60	\$ 26.44	\$ 28.22		
Power Cost Tracker before reconciliation adjustment per MWh	\$ 0.35	\$ 0.64	\$ 8.91	\$ 9.90		
Reconciliation Adjustment per MWh				\$ (0.18)		
Power Cost Tracker before defeased lease transaction				\$ 9.72		
Differs to defeased lease transaction*				\$ 2.00		
Power Cost Tracker per MWh to be billed October 1, 2009 - December 31, 2009				\$ 11.72		

Environmental Compliance Costs include fixed operations, maintenance and capital costs for environmental assets placed in service and under construction (interest only for CWIP) less demand revenue received from non-members directly related to such costs.

MISO Transmission Costs include transmission service; regional market expenses; scheduling, system control and dispatching services; reliability planning and standards development services which are provided primarily by or through the MISO.

Variable Production Costs include purchase power, fuel, net costs of emission credits, and variable operations and maintenance costs at Hoosier Energy's generating facilities less energy revenue received from non-member sales.

Reconciliation Adjustment represents the under or (over) collected balance outstanding which will be recovered from or (returned to) members during the next 12-month period.

*Approved by the Board of Directors November 10, 2008.

Watt High Light News Letter:

Jackson County REMC has asked the Indiana Utility Regulatory Commission to approve a decrease in its metered rates that is based upon the cost of purchased electricity that is being charged by Jackson's power supplier, Hoosier Energy, Inc., headquartered in Bloomington, Indiana.

The request of a \$0.50 per 1,000 kWh decrease stems from a pending October 1, 2009 quarterly adjustment in Hoosier's power cost tracker that matches its net change in costs for energy fuels, market power purchases, and other highly fluctuating expenses.

The request would lower a typical Jackson REMC bill of 1,000 kWh from \$106.08 to \$105.58, a decrease of \$0.50, or 0.47% percent.

As submitted, the new rates will become effective on October 1, 2009, and should first appear on bills mailed on November 30, 2009, due and payable by December 17, 2009.
