Indiana Utility Regulatory Commission
101 W. Washington St.
Suite 1500 East
Indianapolis, IN 46204-3407

Dear Secretary:

Duke Energy Indiana, Inc. (Company) hereby submits, in compliance with the Settlement Agreement and Indiana Utility Regulatory Commission ("Commission") Order in Cause No. 42873, as approved by the Commission on March 15, 2006, its adjustment to rates to remove the amortization of the costs associated with the Cinergy Corp. merger. Attached is Standard Contract Rider No. 67 ("Rider 67") – Credits to Remove Annual Amortization of Cinergy Merger Costs. These costs were included in base rates pursuant to the Company's Retail Electric Rate Case – Cause No. 42359.

The Company is submitting this filing under Section 3 of the Thirty-Day Administrative Filing Procedures and Guidelines (170 IAC 1-6). Section 3 (5) (B) allows changes to rates and charges so long as the change results in an overall decrease in revenue of the utility and is done for all classes of customers. Rider 67 accomplishes this by reducing the Company revenue by \$11,552,000 each year (adjusted by the "true-up" from the prior year) by Retail Rate Group.

Attached are the work papers that show the development of the Rider rates, by Retail Rate Group, that will go into effect with the June 2010 cycle 1 billing on an as billed basis. The Company plans to file an updated Rider 67 each year in April for implementation by June 1, commencing with June's cycle 1 billing. This will continue until the effective date of the setting of new rates and charges in the Company's next retail base rate case.

The calculation of the Rider 67 rates for June 2010 through May 2011 is done by allocating the annual amortization amount (\$11,552,000) by the Operation and Maintenance ("O&M") Expense Excluding Fuel and Purchased Power from Cause No. 42359, by Retail Rate Group. These credits are then adjusted by an annual reconciliation amount to "true-up" the prior year. The reconciliation amounts are calculated by comparing the actual amounts credited in the prior calendar year to the allowed annual amortization amount by Retail Rate Group. The difference, by Retail Rate Group, will then be added to, or subtracted from, the current year

annual amortization amount, by Retail Rate Group, to find the total credit amounts. The total credit amounts are divided by the prior calendar year's kWh Sales to determine the per kWh credit rate for each Retail Rate Group.

We are filing this rider and the associated worksheets, including the Company's verified statement that we have provided notice to our customers as required under Section 6 of the thirty-day filing rules, electronically. We would appreciate the return of a file-stamped copy for our files.

If there are any questions concerning this filing, please contact me at 317.838.2824.

Sincerely,

Bradley J. Beagle

Credits to Remove Annual Amortization of
Cinergy Merger Costs**

Availability

The applicable energy charges for service to the Company's retail electric customers shall be decreased monthly to remove the annual amortization of the 1994 Cinergy merger costs as approved by the Commission in Cause No. 42873. The application of this rider shall begin with billing cycle 1 for June 2008 and shall remain in effect until the effective date of the setting of new rates and charges in the Company's next retail base rate case.

Rate

The following are the monthly credit rider rates:

SDI RTP kWh is not used in the calculation of the Rider Factor and it will not receive the credit.
