INDIANA UTILITY
REGULATORY COMMISSION

RE: NIPSCO 30 Day Filing Pursuant to 170 IAC 1-6-1 et seq.

Dear Ms. Howe:

The Indiana Utility Regulatory Commission (“Commission”) approved a gas energy efficiency program for Northern Indiana Public Service Company (“NIPSCO”) in its May 9, 2007 Order in Cause No. 43051 (the “2007 Order”) and extended in its November 4, 2010 Order in Cause No. 43894 (the “2010 Order”) NIPSCO’s approved energy efficiency program is funded by a Gas Efficiency Factor recovered from NIPSCO’s residential rates served under Rate 411 and certain associated riders and appendices to Rate 411. The 2007 Order and 2010 Order approved the Gas Efficiency Rider (now called the Gas Efficiency Factor), to be recovered on a per therm basis, at a level designed to recover \$4 million each year through November 9, 2012.

Because the Gas Efficiency Factor is recovered on a per therm basis, it is necessary to annually adjust the Factor to achieve the targeted \$4 million recovery. The 2007 Order approved using a portion of any revenues generated as a result of the 2007 Order’s approved revisions to NIPSCO’s residential gas tariffs (“Rate Simplification”) to reduce the Gas Efficiency Factor. Both the first \$1 million of any such incremental revenues from the Rate Simplification and fifty percent of such incremental revenues that exceeded \$6 million were to be used to offset the \$4 million targeted revenue from the Gas Efficiency Factor. The 2010 Order eliminated the Rate Simplification, therefore no Rate Simplification revenues will be included in the calculation of the revised Gas Efficiency Factor in this 30 Day Filing. Pursuant to the 2010 Order, NIPSCO contributed \$1,000,000 to year four of the program.

The Gas Efficiency Factor has been in place since May 10, 2007. NIPSCO has evaluated necessary adjustments to the Gas Efficiency Factor and finalized data necessary to implement an adjustment to the Gas Efficiency Factor. The purpose of this filing is to effectuate a new, decreased Gas Efficiency Factor. Attached to this letter is a proposed tariff sheet reflecting a decrease to the Gas Efficiency Factor and workpapers documenting the amounts collected

through the Factor from May 2010 through April 2011 and those supporting the calculation of the revised Gas Efficiency Factor in compliance with 170 IAC 1-6-5 (3) and (4). The filing is permitted by 170 IAC 1-6-3 and the September 19, 2008 Docket Entry in Cause No. 43051.

In accordance with 170 IAC 1-6-6, NIPSCO provided notice to its customers of which proof is attached to this letter. NIPSCO has posted notice of this change in its local customer service offices and has placed the new tariff on its website under pending tariffs (see http://www.nipSCO.com/about-us/Rates-Tariffs/gas_tariffs.aspx). Shawn M. Kelly has verified this letter as to these representations in compliance with 170 IAC 1-6-5(5).

RE: Revised NIPSCO 30 Day Filing Pursuant to 170 IAC 1-6-1 et seq.

Dear Ms. Howe:

On May 25, 2011, NIPSCO submitted a 30 day filing to update the Gas Efficiency Factor under tracking number 2860. On May 31, 2011, the Commission approved the merger between NIPSCO, NIFL, and Kokomo in Consolidated Cause Nos. 43941, 43942 and 43943. This 30 day filing is being revised to update the proposed Gas Efficiency Factor for program year 5 to include approved funding and forecasted sales for the former NIFL and Kokomo territories. This change results in a \$0.00007 per therm increase to the factor currently in effect. Attached to this letter are a revised proposed tariff sheet and revised workpapers documenting the amounts collected through the Factor from May 2010 through April 2011 and those supporting the calculation of the revised Gas Efficiency Factor.

The revised tariff has been placed on NIPSCO's website under pending tariffs (see http://www.nipSCO.com/about-us/Rates-Tariffs/gas_tariffs.aspx).
