Re: German Township Water District, Inc.
Wholesale Water Cost Tracking Application

Following is a copy of a Verified Statement In Support of Change in Schedule of Rates, together with supporting schedules for filing on behalf of German Township Water District, Inc. In addition, a copy of a proposed Appendix A to the Company's rate tariff and a copy of the water bills from the Evansville Municipal Water Utility are included. A copy of the legal notice which is to be published in the Evansville Courier Press and the Posey County News as well as posted on the Company website (germantownshipwaterdistrict.org) and at the Company's office has also been included along with the proofs of publication from the newspapers. Finally, a copy of the minutes of the October 2012 Board meeting which show the authorization to make this filing have been provided.

The Company is requesting approval via the thirty day filing procedures to increase its existing wholesale cost tracking factor by \$0.34 per 1,000 gallons to a total of \$0.46 per 1,000 gallons for all customers through the thirty-day filing procedure. These changes are requested to pass through increases in the cost of water being purchased from the Evansville Municipal Water Utility which were approved by the Commission since the filing of the Company last tracking factor request. This filing is allowable under the rule as the Commission has already approved and accepted procedures for such filings pursuant to 170 IAC 6-5-1. This change will impact customers differently based on their level of usage.

Please forward a stamped approved tariff to our office at your earliest convenience. If you or members of your staff have any questions or comments, please do not hesitate to contact me at the number listed above or via email at miller@umbaugh.com.

Very truly yours
