30-Day Filing ID No.: 50487

Date Filed: February 18, 2022

Filed Pursuant To: Commission Order Nos. 44472 & 44774

Request: A revision to Wholesale Power Cost Adjustment Tracking Factors, to be applied with the April 2022 billing cycle.

In its most recent rate case (Cause No. 44472, Order issued December 17, 2014), Auburn was authorized to implement a two-part tracking mechanism for some rate classes to distinguish demand and energy costs. After approval, a consultant for Auburn found the tracking mechanism did not work as intended. Cause No. 44774 (Order issued July 18, 2016) was filed to remedy the problems in the original mechanism. This is the tenth filing since that Order clarifying the tracking mechanism.

The calculation of the adjustments includes the projected cost of wholesale power for April 2022 through August 2022 and the reconciliation of wholesale power purchased from January 2021 through May 2021.

Customer Impact: See below.
