Submitted By: Jane Steinhauer
Director, Energy Division

Filing Party: Northern Indiana Public Service Company LLC's ("NIPSCO")

30-Day Filing ID No.: 50857

Date Filed: September 12, 2025

Filed Pursuant To: 170 IAC 1-6-1

Request: NIPSCO is proposing revisions to its Rule 18 – Gas Quality Standards to reflect NIPSCO's current gas standards. The revisions generally fall into three categories. The first category includes proposals that should encourage and facilitate the development of RNG by relaxing or eliminating certain standards, based on evolving science or actual operating experience. The second category consists of clarifications of certain provisions of the rule to avoid confusion concerning their interpretation and application. The final category consists of changes to the existing standards concerning siloxanes and gas temperatures. These changes are needed to prevent harm to the Company's pipeline system and the gas-burning equipment of its customers.

Customer Impact: This revision will not affect any rates or charges for any customer taking gas service under the Company's Rates, Rules, and Regulations for Gas Service.

Tariff Page(s) Affected: IURC Gas Service Tariff, Original Volume No. 10, Original Sheet Nos. 48 – 59.

Staff Recommendations: NIPSCO has met all requirements for its request. Staff recommends approval of the proposed revision to the tariff language.
