STATE OF INDIANA
INDIANA UTILITY REGULATORY COMMISSION

IN THE MATTER OF AN ORDER)
APPROVING UTILITY ARTICLES)
PURSUANT TO 170 IAC 1-6.)

APPROVED:

JUL 18 2012

ORDER OF THE COMMISSION

The Indiana Administrative Code provides for Thirty-Day Administrative Filing Procedures and Guidelines pursuant to the authority of Ind. Code 8-1-1-3 and Ind. Code 8-1-2-42. The thirty-day filing process is available for certain routine and non-controversial requests to facilitate expedited consideration of these matters by the Commission. The rule sets forth the requirements for the thirty-day administrative filings.

The thirty-day filings received pursuant to 170 IAC 1-6 and ripe for Commission action are attached hereto and collectively referred to as the Utility Articles. There are no controversial filings in the Utility Articles approved today.

Pursuant to the rule, the Commission Technical Divisions have submitted their recommendations to the Commission. Therefore, the Commission finds that the requirements of 170 IAC 1-6 have been met and that the Utility Articles attached are hereby approved.

IT IS SO ORDERED.

ATTERHOLT, BENNETT, LANDIS, MAYS AND ZIEGNER CONCUR:

APPROVED: JUL 18 2012

I hereby certify that the above is a true and correct copy of the Order as approved.

MEMORANDUM

TO: Chairman James D. Atterholt
 Commissioners Ziegner, Landis, Mays, and Bennett

FROM: Commission Technical Divisions

DATE: July 13, 2012

RE: 30-Day Utility Articles for Conference on Wednesday, July 18, 2012 @ 2:00 P.M.

The following thirty-day filings have been submitted to the Commission. Each item was reviewed by the appropriate Commission Technical Divisions and all regulations were met in accordance with 170 IAC 1-6 Thirty-Day Administrative Filing Procedures and Guidelines. Therefore, the following filings listed below and attached hereto are recommended to be considered by the Commission at the next conference:

<u>Attachment Number</u>	<u>30-Day Filing No.</u>	<u>Name of Utility Company</u>	<u>Type of Request</u>	<u>Date Received</u>

6	3034	Sprint Communications Company L.P.	Intrastate Access Service Request	06/12/2012

Submitted By: Pamela D. Taber 
Director, Communications Division

Filing Party: United Tel. Co. of Indiana, Inc. (United), d/b/a CenturyLink

30-Day Filing ID No.: 3027

Date Filed: June 12, 2012

Filed Pursuant To: Cause No. 39369 (April 30 and June 2, 1993); Cause No. 44004 (July 13, 2011); 170 IAC 1-6-3; various FCC orders.

Request: This filing revises certain language in United's intrastate access tariff concerning identification, rating, and measurement of Toll¹ VoIP-PSTN² Traffic that is required to be compensated at access rates, unless the parties have agreed otherwise, by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90, et al. (FCC 11-161, released Nov. 18, 2011) ("USF/ICC Transformation Order"). Toll VoIP-PSTN Traffic is defined as traffic exchanged between an end user local telephone subscriber and an interexchange carrier (IXC) in Time Division Multiplexing ("TDM") format (a non-IP format) that originates and/or terminates in Internet Protocol ("IP") format.

Specifically this section of United's intrastate access tariff establishes the method of separating Toll VoIP-PSTN Traffic from the interexchange carrier's traditional intrastate access traffic through the use of a "PVU factor" (Percent VoIP Usage), so that Toll VoIP-PSTN Traffic can be billed in accordance with the USF/ICC Transformation Order and other applicable FCC orders.³ Upon receipt, validation and acceptance of the PVU factor, originating Toll VoIP-PSTN Traffic will be compensated at the applicable CenturyLink interstate or intrastate access rates, as described in the tariff and consistent with FCC orders.

Retail Customer Impact: N/A. These tariff changes only affect United's interexchange carrier (IXC) or long distance carrier customers. There is no impact on United's retail customers.

Tariff Page(s) Affected: I.U.R.C. No. T-3: Various pages.

Staff Recommendations: Requirements met. Recommend approval.

¹ "Toll traffic" is also referred to as interexchange traffic or long distance traffic.

² "PSTN" is an acronym that stands for Public Switched Telephone Network.

³ The FCC released its Second Order of Reconsideration in WC Docket No. 10-90, et al., on April 25, 2012 (FCC 12-47), which temporarily modified the compensation of originating Toll VoIP-PSTN Traffic on a prospective basis.

30-Day Filing ID No.: 3032
Date Filed: June 11, 2012
Filed Pursuant To: FCC “USF-ICC Transformation Order” and related FCC rules¹; IURC staff guidance letter (May 24, 2012); Cause Nos. 44004 and 39369; 170 IAC 1-6-3(5).
Request: The purpose of this 30-Day Filing is to implement certain intrastate (IURC) access revenue reductions for the Transitional Intrastate Access Service, as mandated by the FCC in the November 18, 2011 “USF-ICC Transformation Order.” The FCC Order adopts a transitional intercarrier compensation framework that reduces terminating intrastate access rates to parity with interstate access rates by July 2013. The instant filing represents the first step in this transitional process and reduces terminating intrastate access rates effective July 3, 2012, to achieve an aggregate decrease in intrastate access revenue of at least one half of the difference between the interstate and intrastate revenues received in 2011. These rate reductions apply only to rates charged to interexchange (long distance) carriers; they do not affect retail rates.
