RE: Utility Article for Next Conference

The following Final Article "A" is submitted to each of you to acquaint you with the tariff eligible for action or acceptance on or after September 17, 2008.

ECG/ld

"A" Final

The following miscellaneous item(s) will be eligible for final consideration at the next Commission Conference and based upon review by staff members of the Commission, I recommend approval.

1. Ramsey Water Company, Inc.

The utility is proposing to increase its Coin-Operated Sales rate from \$0.53 per 200 gallons to \$0.99 per 200 gallons. Coin-Operated Sales is used for customers who fill up tankers to supply a large volume of water (e.g., fill swimming pools). This change is to correct an error in the tariff dating back many years. The resultant change in total revenues due to the rate increase is de minimus in terms of total company revenues. Workpapers showing the effect on revenues were provided.

The utility is also proposing to modify language relating to several non-recurring charges. Specifically, the utility is adding Automated Clearing House payments to its Insufficient Funds Charge, adding holidays to its General Service Surcharge, and changing the time to 4:00 p.m. from 5:00 p.m. for when the General Service Surcharge applies.

The tariff pages affected by this filing are:

- 2 of 4 and 3 of 4.

Please indicate your consideration and action of the preceding items on the appropriate lines provided below.

Handwritten initials and signatures: a large scribble, 'JLG', a signature, and another signature.

E. Curtis Gassert, Assistant Director,
Water/Sewer Division
