Chapter 16

Grant Sources

There are numerous sources of grants for libraries. The following list is a sampling of available sources and includes both public and private sources for funding.

Please notify us of any new grant opportunities that may be of interest to Indiana Libraries by contacting Jennifer Clifton at jclifton@library.in.gov or (317) 234-6550.

LSTA Grants

in.gov/library/lsta.htm
The first source you consider as a library in Indiana should be LSTA sub-grants. LSTA funding is made possible by the Institute of Museum and Library Services (IMLS) who distributes federal funds to states annually under the provision of the Library Services and Technology Act (LSTA). The Indiana State Library reserves a portion of these funds for competitive sub-grant opportunities. Grant programs vary, but generally include technology and digitization initiatives. Please check our website for current grant opportunities.

Grant Writing Tips

1. Ask for advice. Start on the application well before the deadline. Solicit help from the granting organization program officer. Ask colleagues to review the application and offer suggestions.

2. Identify projects that would be of benefit to your organization before looking for grants. Ways to do this include conducting a meeting of stakeholders and brainstorming, creating a file of ideas submitted by staff and patrons, and soliciting ideas from the public. Determine what ideas would be most suitable for grant funding. Be ready when
funding opportunities arise instead of reacting to announcements of available grants.

3. Locate grant-making organizations with goals that match your project. Using various tools listed above, identify grantors who fund projects similar to your proposed project.

4. Research the grant opportunity. Read the guidelines to determine if the project fits with the mission of the granting organization and if there are any restrictions that may prohibit you from accepting the funds. Learn about previous grants awarded by the organization. Determine the funding limits and whether the amount of money being offered will realistically cover the costs for your project.

5. Follow the instructions provided by the grantmaker. Check deadlines. Answer all the questions and include all the necessary parts of the proposal or application when submitting it. If any part of the application is confusing, contact the grant program officer for help.

6. Don't give up if an application isn't funded. If possible, ask for feedback as to why your grant application was denied. Ask about any opportunities for resubmitting the grant. Consider other funding sources.

7. New applicants make two common mistakes. One is including too little detail about the proposed project and giving insufficient justification for the significance of the need. Another is proposing more work than can be reasonably done during the grant period.

8. Think like a reviewer. One of the best ways to learn how to write a grant is to participate on a grant review committee. Organizations that offer publicly-funded grants are always looking for individuals willing to assist in grant review.
