

Chemical Economy Company

SP 6
Ca. 1920
1 Folder

Manuscript Section, Indiana Division
Indiana State Library

Processed by: Amy C. Belcher, February 2004

Organizational Note:

The Chemical Economy Company did some work with removing metal deposits, especially silver, from slag during the 1920s. Not much can be found on this company; its origins, or its location. The Chemical Economy Company was most likely in Indiana.

Scope and Content Note:

This collection contains eight photographs showing the production processes related to removing metal deposits from slag at the Chemical Economy Company. These photographs were taken circa 1920s.
