Review action items and update statuses			
1	Open Meeting	Meredith Edwards	The charter was approved to generate HIP cap for the 18 year old members who turn 19 during their initial HIP month.

Agenda Items

Item	Topic	Facilitator	Notes (conclusions, discussions, decisions, and next steps)
			CR 60981 TPL file to MCE (brand new) still in analysis phase.
2	Project Updates	Ginger and Joyce	CR61058 gateway to work assignment CR. impact to MCE, there will be a new stop reason code on the 834 file, and the companion guide will be updated. Implementation date scheduled for end of November. CR 61100 for MCEs and DSNPs to receive 270/271 transactions. This project is in the start-up phase still.
3	Originating and destination address	Ginger/Joyce	Anthem requested information on CR 60534 from Ginger or Joyce Joe Welch is the project manager, This CR was implemented September 29 th and is in production. FOLLOW UP: Ginger will follow up and send additional information to the MCEs.
4	\$0 Billed Lines	Meredith Edwards	Anthem requested an update on the charter that would allow MCEs to indicate paid or denied on \$0 billed lines (Kathy Leonard has the charter and we are awaiting the approval). Charter is with OMPP now
5	ESSR report	Harsha/Optum	Anthem requested update from Optum about including 277 and flush report claims on ESSR report (from last meeting). Will these claims be added and what is the timeframe? Only 40% of the lines on the flush files have an MCE ID. The state does not want to add the flush claims to the ESSR report because it will only add some of the flush claims, and MCEs may think they are seeing the full picture of flush claims when they are not.
6	277U	Rebecca Young	Anthem needs to know if the 277U validation and financial cycle runs automatically and at what interval in Model Office? It runs daily (M-F), and the full financial cycle runs every Friday.
7	835 Supplemental CR 58213	Ginger/Joyce	Anthem requested an update on when 835 supplemental file will begin being sent to plans David Murphy is the project manager and the CR is in the early stages.
8	Edit 233 and dental	Rebecca Young	Anthem requested an update from DXC on edit 233 and impact on dental claims. Rebecca Young emailed the State with the option to amend the 837D companion guide or remove the edit. More detail is needed from Rebecca on the impact of removing the edit.
9	Encounter adjustments	Rebecca Young	Update needed from DXC on when MCEs will receive the list of encounters to be adjusted after CORE error. (follow up from 6/18 and 9/16 meetings) DXC added the submitted IDs. The file was placed on the file exchange the evening of 10/21/19.

Agenda Items

Item	Topic	Facilitator	Notes (conclusions, discussions, decisions, and next steps)
10	CE to FE	Nonis & Tara	<p>MHS is reporting delays in members moving from conditional to fully eligible, and potential plus to plus after a supplemental file is sent.</p> <p>This may be a delay in DFR processing, Nonis's team is researching to see if it is related to conversion. MDwise will also send examples.</p>
11	Pregnancy and Frail members moving to state plan	Nonis & Tara	<p>MHS is reporting delays in members moving to state plan after supplemental file is sent.</p> <p>MDwise requested an update on IEDSS automating the move to state plan for frail members</p> <p>About 70% of the members being converted can be done automatically, the other 30% are being hand touched during the conversion which causes a delay.</p> <p>Pregnant members moving to state plan is not automated IEDSS, but Nonis is working on a solution to automate.</p>
12	Reseeds	Lisa Hogarth	<p>Update on historical reseed work and delivery of final file to each MCE</p> <p>Files were sent to the respective MCEs for members that were impacted by capitation. DXC also corrected assignments that were effective before 2014, but these weren't broken out and reported since capitation was not affected.</p> <p>The MCEs requested DXC provide the full list of impacted members.</p>
13	Potential plus	Holly/Beth	<p>Anthem received potential plus records with old effective dates. It appears plans are receiving new records with old dates. This impacts calculation of member's timeframe to make an initial payment.</p> <p>Nonis asked for Anthem's examples, with the potential plus effective date highlighted. These may be restore type situations.</p>
14	Pregnancy term date	Tara	<p>Open ended pregnancies, issue from past meeting</p> <p>OMPP went through and found pregnancies that were over 10 months in length and found 4,500 records. A correction will be run to fix the records – end date the pregnancy status at 10 months. Tara will provide a list before the fix is run. MCEs asked if they should zero out the PAC contributions since the members would have had their PAC frozen and suddenly opened back up. The HIP team will provide further instruction.</p>
15	Next meeting		Monday, November 18th
