7	List of IEDSS Defects Affecting Eligibility	Michelle Okeson	<p>Could these be shared with MCEs? We run into issues with eligibility and are told that they are due to known IEDSS issues. It would be helpful to know what to look for. (An example is mid-month terms due to IEDSS only sending the future segment to Gainwell. It causes a gap in eligibility for the member.)</p> <p>June Meeting:</p> <ul style="list-style-type: none"> • Ginger: We do still occasionally get this example were IEDSS where IEDSS doesn't send the current eligibility segment with future or retro; causes Core to close down the BP. Then a few days later will get a new current segment, but BP doesn't always reopen. • Keena: IEDSS is working on this, put in a fix last week or today; two more fixes to go into effect in September to fix this; we are fixing as found in the interim. • Raeann: Can this be shared before we discover these independently? • Keena: I can get with IEDSS and Nonis and we can get to you. <p>July Meeting:</p> <ul style="list-style-type: none"> • Nonis: we are tracking the defects monthly. • Keena: 217895- no gender is being indicated. Currently working to fix the gender. • 218783 – Working to change the file. • 216854 – Talked with Angie about this defect last week. The conformation date should be the date to act on. • 219171 – The date of death is being corrected. • 219126 – their acting on the record • 219216 – Because of the Public Health Emergency, Keena is looking into this with IEDSS. • Ginger: the CDE files are not in the proper format, as a result the files are not processing correct. I will provide examples. <p>August Meeting Update:</p> <ul style="list-style-type: none"> • 217895- this is the defect regarding gender. This could cause issues for MCEs regarding billing if they have no gender listed for member in file they receive from CORE. • 218783-zipcode update. if members zip code is updated and changed in our system it may not automatically transfer to MCE's databases. • 216854 - This one may affect the MCE's it is when a medically frail and no pay come over on the same day. It was causing people to close for the no pay. • It probably won't affect us until the PHE is over and no pay's start again. • 219171 - Date of Death defect, erroring out dates of death due to trailing spaces in names • 219126 - Inserting frail for people not disabled • 219216 - Pregnancy end date issues. Not a pregnancy issue this is for processing an MA D application. So, this one should be removed from this list. • 217216 - EO4 Response file issue. Currently even though the end dates are in sync we also check for the due dates and if they have a mismatch EO4 is sent on the response file. • 216150 / 216151 / 216148 – these are the three defects for the mid-month closure issues...they are scheduled to be released 9/11/21 • 219215 – This is to fix the EO3 Response file that the MCE's are receiving when they update the NOP for a member. • Michelle: There was a comment made that the two defects referenced in the June meeting (for implementation in September) were not on the list provided by Keena. She was going to provide information on those as well. <p>August Meeting:</p> <ul style="list-style-type: none"> • Keena: 219216 should be removed <p>September Meeting:</p> <ul style="list-style-type: none"> • Keena: There were two recently, gave information to Ginger because was issue between IEDSS and Gainwell (220652: Pregnancy end dates not in correct format) and one other (214516: When suspended member comes out of jail

Is it working correctly on your end? • Keena: 214516 – This one went into effect also but we are still catching some of these errors and reporting them to IEDSS to research further. <p>November Meeting:</p> <ul style="list-style-type: none"> • Keena: 22065 – there are no additional findings from this defect. • 214516 – Ginger – there have been no additional findings. • 222624 – PHE edits are in place that are not retaining the SO Flag. COVID-19 Rollback Projects

MMIS COVID19 Rollback - Prior Authorization Phase 2 (GT-8947) - To date, PA PHE measures remain in place. They were rolled back in Sept 2021 and then reinstated. The State sponsor has informed the team to hold on this change. The State is now not sure if the rollback will need to happen at this time.

Other Reference Rollback (GT-5962) – Significant reference updates were required to address COVID-19 and this CR is to roll back the updates. To date none have been rolled back.

Provider Enrollment Part 2 – Revalidation, Recertification, Risk Levels (GT-8025) This project includes the resetting of dates for Revalidation, Recertification and updating Risk Levels. The system changes were implemented on Oct 20, 2021. This project continues post implementation of the system changes, as the Provider Enrollment team works through the pent-up revalidations and recertifications from the related PHE period.

COVID-19 PHE Efforts Continuing Include

Premium Vendor - Halt Premium Payment – This project prevents accounts closing for members who are unable to make their premium payment during COVID19. Gainwell continues to apply payments daily for incoming conditional members for CHIP and MED Works. Credits will be given for January monthly vouchers after the Adverse Action day (12/16). This project will complete at the direction of the State.

Eligibility Re-Opens/CoPay/CostShare - We continue to identify and extend Medicaid Eligibility as requested by the State.

COVID Response: Provide nursing facility enhanced reimbursement for COVID positive members (GT-8730)

This project implemented on Dec 1, 2021 implementation. This allows for a \$230 addition to the daily rate for qualifying nursing facilities (specialty 030), limited to 21 days, through Oct 31, 2021. This change is retroactive to Sept 22nd, and the Claims business unit is scheduling the claims adjustments.
