Medical Prior Authorization (PA)

Prior Authorization

Prior Authorization (Medical Services):

Prior Authorization (PA) is an approval from MHS to provide services designated as needing authorization before treatment and/or payment.

- Inpatient (IP) authorizations = IP + 10 digits
- Outpatient (OP) authorizations = OP + 10 digits
- ER Visits suggesting imminent, life-threatening condition no PA required, but notification requested within **two business days.**
- Urgent concurrent = Emergent inpatient admission. Determination timeline within **24 hours** of receipt of request.
- Pre-service non-urgent = Elective scheduled procedures. Determination within **five business days.** Benefit limitations apply (dependent on product).

Prior Authorization

MHS Medical Management will review state guidelines and clinical documentation. Medical Director input will be available if needed.

- PA for observation level of care **(up to 72 hours for Medicaid)**, diagnostic services do not require an authorization.
- If the provider requests an inpatient level of care for a covered/eligible condition, but procedure and documentation supports an outpatient/observation level of care, MHS will send the case for Medical Director review.

Prior Authorization

Outpatient Services:

- All elective procedures that require PA must be submitted to MHS at least **two business days** prior to the date of service.
- All ER services do not require PA, but admission must be called into MHS Prior Authorization Department within **two business days** following the admit.
- Members **must** be Medicaid Eligible on the date of service.
- PAs are not a guarantee of payment.

Failure to obtain PA for non-urgent and emergent services will result in a denial for related claims.

Prior Authorization

Transfers:

- MHS requires **notification and approval** for all transfers from one facility to another at least two business days in advance.
- MHS requires **notification** within two business days following all emergent transfers. Transfers include, but are not limited to:
  - Facility-to-facility
  - Higher level of care changes require PA, and it is the responsibility of the transferring facility to obtain.

Prior Authorization

- MHS aligned our utilization management with all Managed Care Entities (MCEs) to build a more comprehensive medical criteria hierarchy for any PAs reviewed.
- MCEs must follow IHCP Policy (fee-for-service criteria) exactly for the following items:
  - ABA Therapy
  - Drug Testing
  - EndoPredict-Breast Cancer
  - Hysterectomies
  - ReliZorb (in-line cartridge containing digestive enzymes for enteral feeding)
  - Speech-Generating Devices
  - Spinal Stenosis
  - Transplants
  - Bariatric Procedures
  - Oxygen Usage

A Preadmission Screening and Resident Review (PASRR) is required before admission and must be submitted with the admission request and when updated according to IAC requirements.
