BT201929

- IHCP to modify coverage of certain mental health services

MDwise Behavioral Health

IOT – Program Standards

- Services require Prior Authorization
- Can be used for behavioral health and SUD treatment service components.
- Components: individual/family therapy, group therapy, skills training, medication training and support, peer recovery services, and care coordination.
- IOT must be provided in an age-appropriate setting for members less than 21 years of age.

MDwise Behavioral Health

IOT – Program Standards

- Access to additional support services must be provided as needed.
- The member is the focus of the service.
- Documentation must support how the service benefits the member.
- Up to 20 minutes of break time is allowed during each session of 3 consecutive hours.
- IOT is available to members of all ages.

MDwise Behavioral Health

IOT Limitations

- Members in psychiatric IOT are not allowed to receive substance abuse IOT on same date of service.
- Procedure codes are not allowed when billing revenue codes 905 or 906.
- Peer recovery services (H0038) may not be billed by the same provider when performed on the same date of service as IOT.

IOT Exclusion

- Any service that is less than 3 hours may not be billed as IOT

MDwise Behavioral Health

IOT Billing Guidelines

- IOT facility providers may bill on an institutional claim. Must bill with one of the following revenue codes, based on the type of service rendered:
 - 905
 - 906
 - *If eligible for hospital assessment fee (HAF) payments, will receive the HAF add-on payment.*
- Professional providers should continue to bill as follows:
 - *S9480*

Partial Hospitalization Program (PHP)

MDwise Behavioral Health

PHP

- Admission criteria for PHP are essentially the same as the inpatient level of care.
- To qualify, members must have a mental health diagnosis, and one of the following:
 - Short-term deficit in daily functioning
 - High probability of serious deterioration of the member's medical or mental health
 - Meet the criteria for acute inpatient admission

MDwise Behavioral Health

QUALIFIED PHP ELEMENTS

- Services must be ordered and authorized by a psychiatrist
- A face-to-face evaluation and assignment of a mental health diagnosis must take place within 24 hours
- Must include 4-6 hours of active treatment per day and be provided at least four (4) days per week.
- The program has a high degree of structure and scheduling and does not mix PHP patients with other outpatients.

MDwise Behavioral Health

QUALIFIED PHP ELEMENTS

- Evidence of active oversight and monitoring of progress by a qualified behavioral health professional.
- At least one psychotherapy service must be delivered daily by a licensed behavioral health provider
- For children, there must be evidence of active therapy, including, but not limited to occupational therapy and coordination with school.

MDwise Behavioral Health

PHP Billing Guidelines

- Facility providers must file a *UB-04* claim and bill H0035:
 - 912
 - 913
- Professional billers must file a *CMS-1500* claim using H0035.
- Reimbursement for the above codes are limited to one unit per member per day.

Behavioral Health Quality Measures

Holli Mahoney, LMHC, Supervisor Care Management

Providing health coverage to Indiana families since 1994

Mental Health and America

Mental Health and America

- Mental illness impacted over 51.5 million adults in the United States in 2019
- Over 13 million had a serious mental illness (SMI) in 2019, which is an increase of just over 5% since 2008.
- There are over 2 million hospitalizations each year due to mental illness.
- Research suggests that follow-up care for people with mental illness is linked to fewer repeat ED visits, improved physical and mental function and increased compliance with follow-up instructions.
- Follow up after a hospitalization helps stabilize and is critical for mental health.

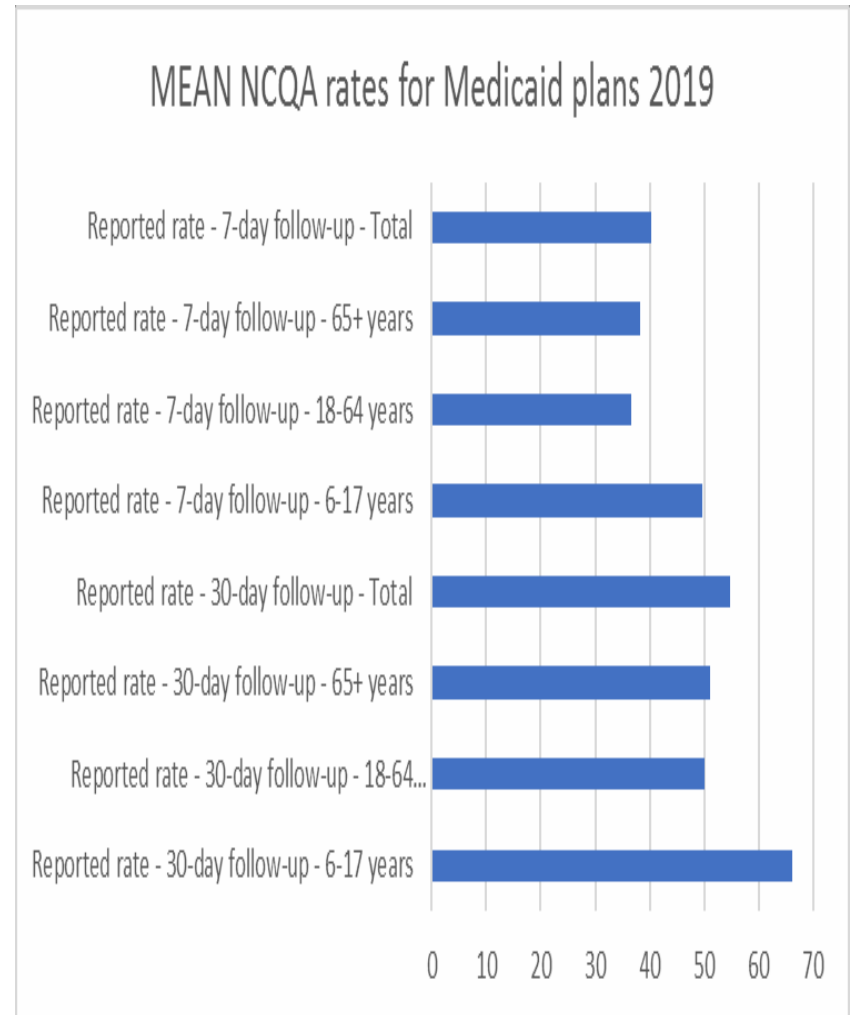

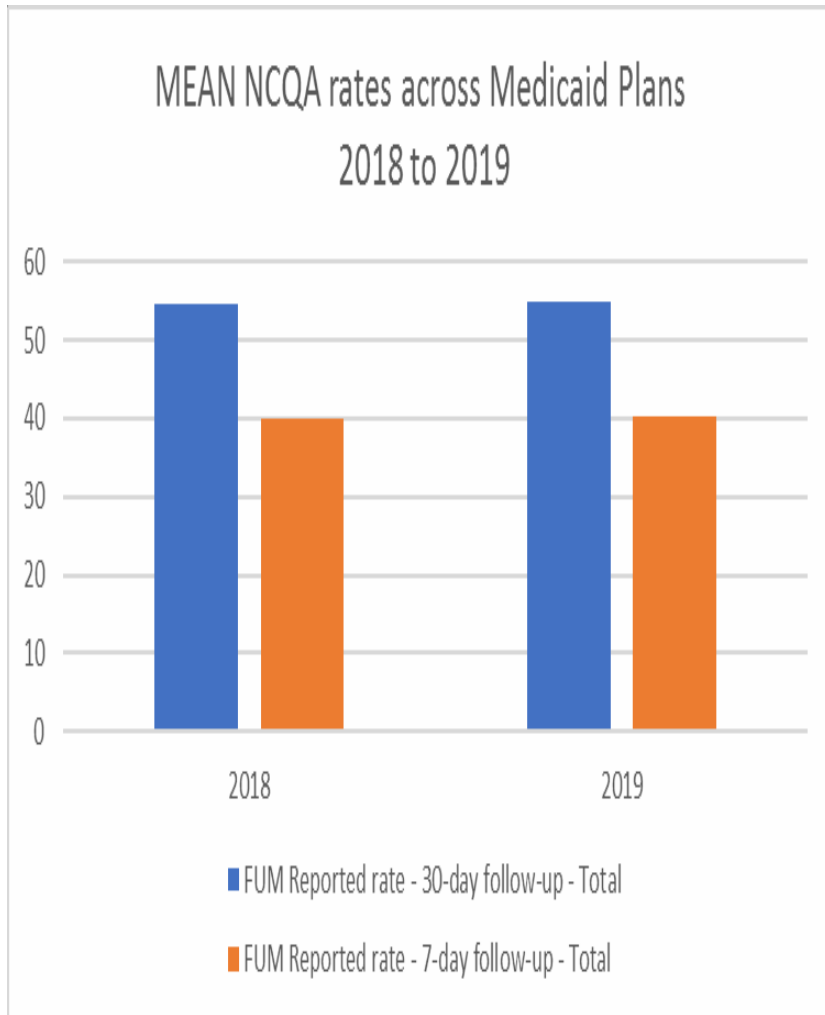

Follow-up After Emergency Department Visit for Mental Illness (FUM)

Follow-up After Emergency Department Visit for Mental Illness

Follow-up After Emergency Department Visit for Mental Illness (FUM)

- The percentage of members 6 years of age and older that had an ED visit with principal diagnosis of mental illness and had a follow-up appointment with any practitioner (within 7 days of discharge and within 30 days of being seen in the emergency department).

FUM Rates Across Medicaid Plans

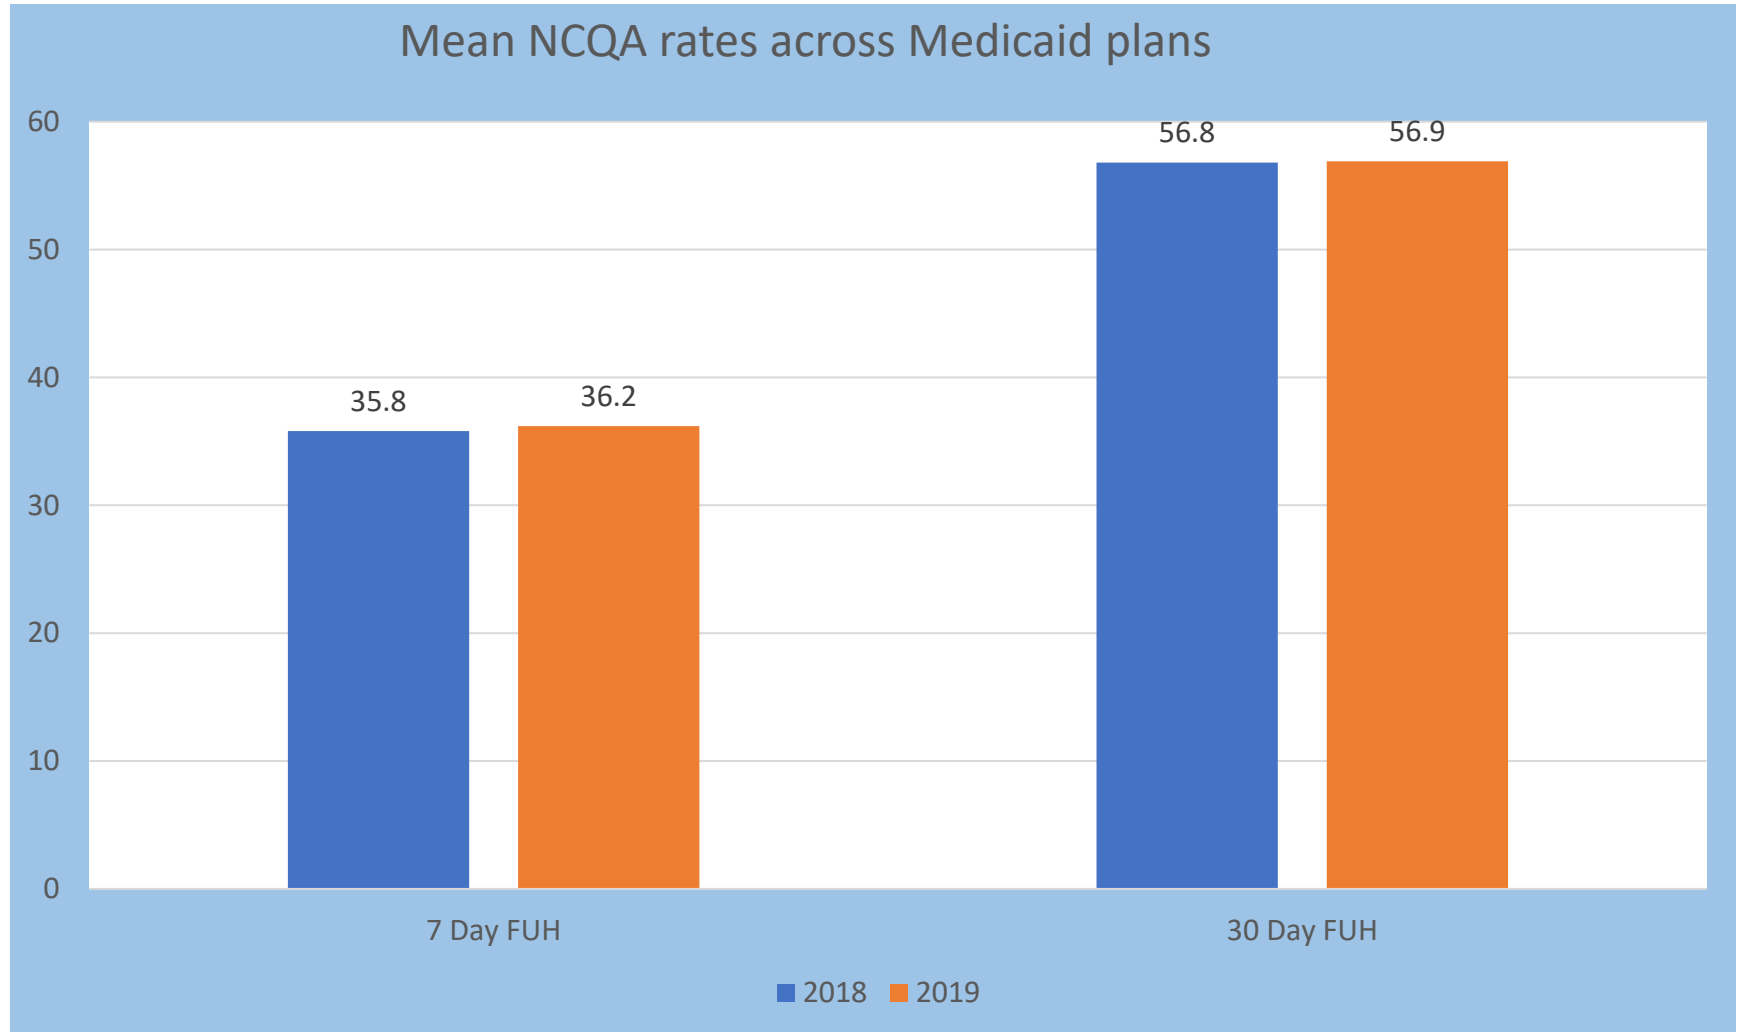

Follow-Up After Hospitalization Mental Illness (FUH)

Follow-Up After Hospitalization Mental Illness

Follow-Up After Hospitalization Mental Illness (FUH)

- The percentage of discharges for patients 6 years of age and older who were hospitalized for treatment of selected mental illness or intentional self-harm diagnoses and who had a follow-up visit with a mental health practitioner (within 7 days of discharge and within 30 days of discharge).

FUH Rates Across Medicaid Plans

Substance Use Disorder in America

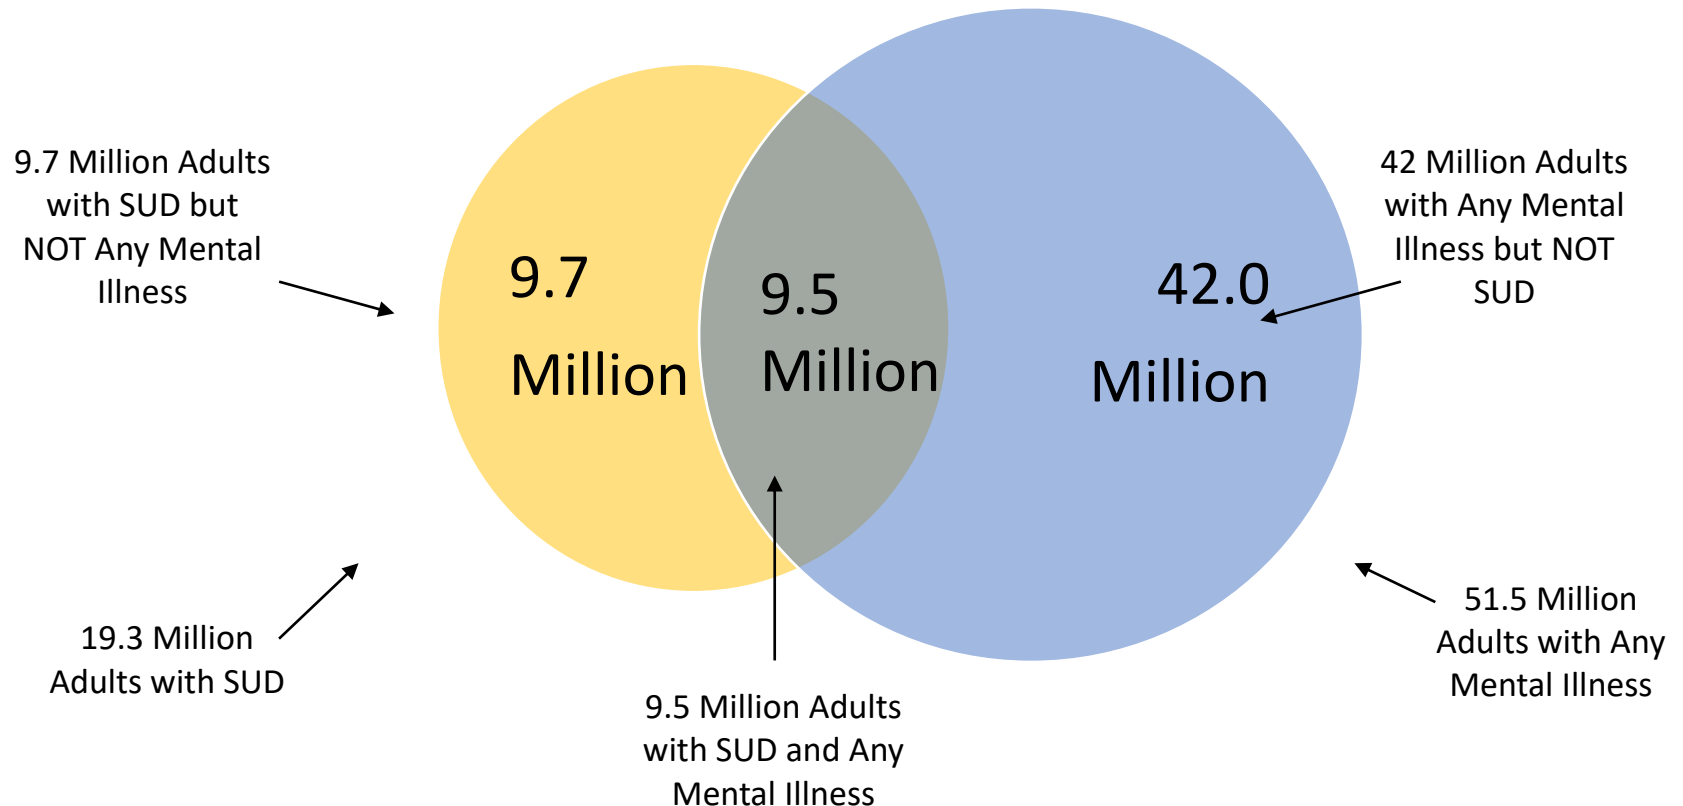

Substance use Disorder in America

- In 2019, 57.2 million Americans used illicit drugs.
- 20.4 million people aged 12 or older were classified as having a substance use disorder.
- One in every 8 adults struggled with both alcohol and drug use disorders at the same time.
- High ED use for individuals with alcohol and other drug use (AOD) may signal a lack of access to care or issues with continuity of care.
- Timely follow-up care for individuals with AOD who were seen in the ED is associated with a reduction in substance use, future ED use, hospital admissions and bed days.
