New Program Integrity provider training – *Vision Services Documentation and Billing Requirements*

The Indiana Health Coverage Programs (IHCP) is making web-based Program Integrity provider education training available to all IHCP providers. These training presentations are intended to supplement the provider reference modules and other IHCP-published provider reference materials.

The latest Program Integrity provider education training titled, [Vision Services Documentation and Billing Requirements](#), is now available. The purpose of this training is to explain how to properly document and bill for medically necessary fee-for-service (FFS) vision services, as outlined in the [Vision Services](#) provider reference module at in.gov/medicaid/providers, and in [Indiana Administrative Code 405 IAC 5-23](#).

By the end of the course, providers should be able to:

- Identify documentation and billing requirements for vision services
- Understand benefit limitations for vision services

The new training, as well as the others listed below that were announced in past articles, are also available from the [Program Integrity Provider Education Training](#) page at in.gov/medicaid/providers.
