**TITLE 312 NATURAL RESOURCES COMMISSION**

**Notice of Additional Public Comment Period**

LSA Document #24-49

**DEER HUNTING SEASON AMENDMENTS**

**PURPOSE OF NOTICE**

The Natural Resources Commission (commission) is soliciting additional public comment on adding and amending rules at [312 IAC 9](#) that regulate deer hunting and wild turkey hunting. The commission seeks comment on the affected citations listed and any other provisions of Title 312 that may be affected by this rulemaking.

Regulatory Analysis: [20240724-IR-312240049RAA](#)  
Notice of Public Hearing: [20240724-IR-312240049PHA](#)

**CITATIONS AFFECTED:** [312 IAC 9-1-17](#); [312 IAC 9-2-15](#); [312 IAC 9-3-2](#); [312 IAC 9-3-3](#); [312 IAC 9-3-4](#); [312 IAC 9-4-11](#)

**AUTHORITY:** [IC 14-10-2-4](#); [IC 14-22-2-6](#)

**OVERVIEW**

**Basic Purpose and Background**

The proposed amendments and additions to [312 IAC 9](#) are as follows: Adds [312 IAC 9-1-17](#) to define "youth". Amends [312 IAC 9-2-15](#) to make a technical and conforming change. Amends [312 IAC 9-3-2](#) regarding a license to hunt a deer to: (1) remove the crossbow license; (2) establish a multiple season antlerless deer hunting license; (3) prohibit taking an antlerless deer with a firearm on certain department of natural resources (department) properties; (4) set a new statewide limit on taking an antlerless deer to six (6) antlerless deer per year; and (5) authorize the department to allow an individual to take an antlerless deer if a harvested deer is unfit for human consumption. Amends [312 IAC 9-3-3](#) to: (1) remove the reference to the special antlerless season; (2) describe a cartridge that is legal to use to hunt a deer; (3) change the caliber for a muzzleloading long gun to .40 caliber; (4) change the dates on which a portable tree or ground blind may be placed on certain department properties; and (5) remove the restriction on using an infrared detector to retrieve a deer. Amends [312 IAC 9-3-4](#) to: (1) establish the number of antlerless deer a youth hunter may take during the youth hunting season on certain department properties; (2) provide that one (1) antlered deer may be taken statewide; (3) set deer reduction zones; (4) set the antlerless bag limit per county; and (5) eliminate the special antlerless firearm season. Amends [312 IAC 9-4-11](#) to make technical and conforming changes.

For purposes of [IC 4-22-2-28.1](#), the Small Business Regulatory Coordinator for this rule is:

Linnea Petercheff  
Licensing and Permits Supervisor  
Division of Fish and Wildlife  
Department of Natural Resources

Resources available to regulated entities through the small business ombudsman include the ombudsman's duties stated in [IC 5-28-17-6](#), specifically [IC 5-28-17-6\(9\)](#), investigating and attempting to resolve any matter regarding compliance by a small business with a law, rule, or policy administered by a state agency, either as a party to a proceeding or as a mediator.

### **SUMMARY/RESPONSE TO COMMENTS**

The commission requested public comment beginning February 6, 2024, through March 20, 2024, and during the first public hearing on March 20, 2024. The commission requested public comment during a second public comment period beginning April 17, 2024, through May 20, 2024, and during a second public hearing on May 20, 2024. Technical changes were made to the proposed rule language, and additional approvals were required as a result of those changes. The comments received during both the first and second public comment period, as well as the first and second public hearing, and the department's responses to the comments, are summarized as follows:

The agency received several comments that were supportive of all the proposed rule amendments. Additional comments were received in opposition to the proposed amendments as follows:

*Comments on the use of crossbows under [312 IAC 9-3-2\(g\)](#) and [312 IAC 9-3-3\(b\)](#):* Comments opposed using a crossbow throughout the entire archery season and opposed allowing crossbows to be used under an archery license.

*Response:* Crossbows became legal equipment to use throughout the entire archery season in 2011 and there is no amendment proposed by the department to remove their use during the entire archery season. The department is proposing to eliminate only the requirement of the crossbow license by allowing individuals who use either a bow and an arrow or a crossbow to purchase an archery license and use either equipment. The change will help reduce confusion among deer hunters and give an individual an additional equipment option with the one (1) multiple season license. These licenses are both currently allowed during the entire deer archery season, so there is no change to the timeframe in which the licenses may be used. A recent survey showed that most hunters were supportive of this change, although some do not consider crossbows to be "traditional" archery equipment. The change should not impact revenue for the department because an individual is still required to purchase a license, and most individuals use either a bow and an arrow or a crossbow to hunt, but not both.

*Comments on the limit of six (6) antlerless deer:* Comments were received regarding a concern for a potential overharvest of antlerless deer in certain counties as well as concerns regarding limiting hunters to only six (6) antlerless deer statewide if the deer are harvested legally.

*Response:* The proposed rule sets a statewide bag limit of six (6) deer in addition to the county antlerless limit because the current county bonus antlerless quota system may be perceived to allow individuals to shoot excessive numbers of antlerless deer across multiple counties if individuals in each county were to take the maximum number of antlerless deer available in each county. The proposed change does not remove the limit of antlerless deer that may be taken per county under [312 IAC 9-3-4\(g\)](#). For example, an individual may take three (3) antlerless deer in Elkhart County and three (3) antlered deer in Fulton County but may not take additional antlerless deer during the regular deer seasons that year because the individual took six (6) deer, the statewide bag limit. There are only a few individuals who take the permitted six (6) antlerless deer under the current rules. Only thirty-one (31) individuals during the 2022-2023 season took more than six (6) antlerless deer, twenty-four (24) individuals took more than six (6) antlerless deer during the 2021-2022 season, and thirty-seven (37) individuals took more than six (6) antlerless deer during the 2020-2021 season. The department asked a question regarding limiting the total number of antlerless deer that each hunter may harvest in the state to six (6) antlerless deer in the 2022 Deer Management Survey. Of the seventeen thousand one hundred ninety-five (17,195) responses, seventy-four percent (74%) supported the bag limit to some degree with forty-eight percent (48%) of the responses strongly supporting the bag limit. Twelve percent (12%) of the responses were neutral to the statewide bag limit, while fourteen percent (14%) opposed the bag limit.

*Comments on repealing the special antlerless season under [312 IAC 9-3-4\(h\)](#):* Comments were received both in support and in opposition to keeping the special antlerless only season that was open from December 26 through the first Sunday in January in counties with an antlerless quota of at least four (4).

*Response:* The purpose of the special antlerless season was to try to significantly increase the harvest of antlerless deer, but research found that individuals harvest antlerless deer later in the season in counties where

the special antlerless season occurs. A survey of individuals in 2021 found that twenty-four percent (24%) of individuals hunted during the special antlerless season in the previous year and thirty-eight percent (38%) of individuals hunted during the special antlerless season during the previous five (5) years (see the 2020 Deer Report). When asked what the general level of opposition or support was for the special antlerless season, the department found that forty-three percent (43%) of individuals support the special antlerless season to some degree, and twenty-seven percent (27%) opposed the special antlerless season to some degree. Therefore, because of the split interest by individuals for the special antlerless season, the low turnout of individuals during the special antlerless season, the ineffectiveness of the special antlerless season to change the deer harvest, and the conflict with individuals who participate in the special antlerless season, the department proposes the removal of this season.

*Comments on muzzleloaders under [312 IAC 9-3-3\(d\)](#):* Comment was received both in support of and in opposition to the change in the muzzleloader caliber. Comments were also received requesting that the department allow muzzleloaders that would allow both the powder and bullet to be loaded from the breech end during the muzzleloader season.

*Response:* The proposed rules allow the use of a .40 caliber muzzleloader, which will allow more individuals to use equipment they currently use to hunt deer. The deer program has received requests from individuals who hunt during the muzzleloader season for this change. The department examined the muzzle velocity and energy and found that an example of a .40 caliber muzzleloader (CVA Paramount HTR) loaded to the recommended powder specifications with a 225-grain bullet is capable of a muzzle velocity of greater than two thousand six hundred (2,600) feet per second with an energy of greater than three thousand five hundred (3,500) foot-pounds of kinetic energy remaining. At two hundred (200) yards, the velocity is still greater than two thousand two hundred (2,200) feet per second with approximately two thousand three hundred (2,300) foot-pounds of kinetic energy remaining. This is more than enough velocity and energy to kill a deer effectively at more than two hundred (200) yards with an expanding bullet. The department did not propose a change to allow the use of the NitroFire™ Firestick™ muzzleloader during the muzzleloader season, which allows both the powder and bullet to be loaded from the breech end and is not proposing to do so under this rule package.

*Comments on not allowing a firearm to be used on department properties under [312 IAC 9-3-2\(v\)](#) and allowing a youth hunter to take one (1) antlerless deer in the youth deer season under [312 IAC 9-3-4\(b\)](#):* One comment was opposed to the proposed restriction for youth hunters during the special youth deer season and additional comments were received which opposed the restriction for other hunters. Another comment asked for clarification about the properties for which the restriction would apply.

*Response:* The department has historically prohibited the use of taking "bonus antlerless" deer at Fish and Wildlife Areas, as well as Salamonie Lake, Mississinewa Lake, and Patoka Lake (the properties) under emergency rules prior to the removal of emergency rules under HEA 1623-2023. The restrictions are still needed to allow for quality deer hunting opportunities on the properties due to the number of individuals hunting the properties by prohibiting the take of antlerless deer with a firearm. Individuals who hunt deer may still harvest antlerless deer on the properties with archery equipment (including crossbows) and muzzleloaders during those seasons. In a survey of individuals who hunted deer in 2022, individuals were asked their opinion regarding prohibiting taking antlerless deer at Fish and Wildlife Areas with a firearm. Out of sixteen thousand four hundred seventy-eight (16,478) responses, fifty-four percent (54%) supported the proposed change with thirty-three percent (33%) strongly supporting and twenty-one percent (21%) somewhat supporting. Twenty-nine percent (29%) of the responses were neutral, and seventeen percent (17%) of the responses opposed the proposed change with nine percent (9%) strongly opposing and eight percent (8%) somewhat opposed. In response to the comment seeking clarification on the rule prohibiting taking an antlerless deer with a firearm on properties managed by the division of fish and wildlife, the department did not list each property because of the number of properties, and potential for changes that would require an amendment to the rule. Listing the properties would require every fish and wildlife area, wildlife management area, conservation area, and any other property where deer hunting is authorized to be listed. If a new property is acquired or the name of a property is changed, the rule would have to be amended. Therefore, the department proposed to keep the language the same as is currently written; the list of properties managed by the Division of Fish and Wildlife can be found on the website at [wildlife.in.gov](http://wildlife.in.gov)

*Comment opposed to the department allowing a replacement deer to be taken if a deer harvested is determined to be unfit for human consumption under [312 IAC 9-3-2\(cc\)](#).*

*Response:* An individual taking a deer that is unfit for human consumption occurs often during deer season, with a peak during firearms season. Currently, department staff examines photographs, evaluates the meat condition

based on observations by biologists and conservation officers, or both. A decision is made whether to allow a person to take another deer if the staff determines the deer is unfit for human consumption based on department guidelines. If an individual is concerned with the condition of an antlerless deer, and there is evidence of systemic infection, department staff allows the individual to take another antlerless deer on the current license used to hunt deer. The only issue determined by the department is the usability of the meat to the individual. However, when an individual calls with a buck that is judged to be unfit for human consumption, currently the antlers must be turned into the department so the individual can comply with the rule regarding taking one (1) antlered deer. Because only the meat is affected by the disease, allowing an individual to keep the deer's antlers while offering to replace the meat with an antlerless deer privilege, makes the solution more equitable. The proposed change does not apply to deer that are harvested and not handled properly resulting in spoilage. If the department suspects a disease, such as bovine tuberculosis, department staff confiscates the deer and allows the individual to take another deer on the same license. This process is different from the current process and will remain in place for a deer the department confiscates due to disease.

*Comments were received both in support of and against the proposed change to allow hunters to retrieve deer using thermal or infrared detectors under [312 IAC 9-3-3](#).*

*Response:* Over the past several years, individuals asked if the department will allow the use of thermal and infrared detectors to locate and retrieve dead deer. The department examined this issue and found the current language is inconsistent in that it is the only state law or rule that places a prohibition on equipment, or methods used to retrieve a dead deer. [312 IAC 9-3-3](#) allows methods such as dogs and horses to be used to track or trail a dead deer. This is also consistent with [IC 14-22-6-16](#), which prohibits the use of unmanned aerial vehicles to aid in hunting but allows their use to retrieve a dead wild animal. In addition, SEA 189-2024 authorizes the use of unmanned aerial vehicles with infrared sensors to be used to retrieve deer that are legally harvested. Therefore, the department proposes to change this rule to allow the use of thermal or infrared detectors to retrieve dead deer, but not used when hunting deer, under the law.

*Comment opposed to changing the deer bundle license to allow only one (1) antlered deer and two (2) antlerless deer to be taken under [312 IAC 9-3-2\(b\)](#).*

*Response:* The rule to change the bundle license to allow individuals to take one (1) buck and two (2) antlerless deer was supported by sixty-two percent (62%) of respondents, opposed by eighteen percent (18%) of respondents, and found neutral by nineteen percent (19%) of respondents of the sixteen thousand three hundred seventy-four (16,374) respondents to a 2022 survey. The department believes that this change makes the license easier to understand and helps simplify regulations for hunters. Landowners and tenants of farmland who are exempt from needing a license to hunt deer on their own farmland would not be affected by this change, as well as resident youth license holders and lifetime license holders. The deer license bundle can continue to be used for all deer hunting seasons, except for the deer reduction zone season.

*Comments opposed to the current deer firearm season dates:* Two (2) comments were received which suggested changing the start date of the deer firearm season in [312 IAC 9-3-4\(e\)](#).

*Response:* The department did not propose a change to the dates when the firearm season starts and ends and is not proposing to change these dates at this time.

*Comments opposed to allowing a second antlered deer to be taken under the deer reduction zone bag limit under [312 IAC 9-3-4\(d\)](#):* A comment was received to not allow an additional antlered deer buck to be taken in the deer reduction zone, formerly called the urban deer zone, as well as to shorten the reduction zone season.

*Response:* The proposed rules do not change the reduction zone season dates, when firearms are allowed during this season, or the number and type of deer that may be taken during the season. The department is not proposing to change the season dates at this time. A deer reduction zone provides individuals with additional opportunities to take a deer in that area and the possibility of harvesting an additional antlered deer provides an incentive for individuals to hunt in these areas. Allowing firearms during the limited time also provides an additional opportunity for deer hunters to take deer in these zones. The goal is to reduce conflict between deer and humans, not to eliminate the deer population. Incorporating or increasing hunting in these areas helps manage deer populations and increases deer wariness of humans, which can also reduce conflict.

*Comment requesting a limit of three (3) deer for nonresident hunters.*

*Response:* The department did not propose a rule changing the number of deer a resident or nonresident can

take and is not proposing to do so. The limit to the number of antlered and antlerless deer under this rule includes both residents and nonresidents.

*Comments regarding the cost of license fees and bringing back the lifetime hunting license.*

*Response:* Comments were received requesting to lower deer hunting license fees and bring back the lifetime license, but the department may not establish fees for licenses or establish lifetime licenses under this rule.

*Comment requesting that only veterans be allowed to hunt on state land.*

*Response:* The department did not propose a change regarding limiting who can hunt on state property and is not proposing to do so under this rule.

*Comment regarding bag limits on antlerless deer.*

*Response:* The department is required to manage the white-tailed deer resource for future generations. This requires the department to balance ecological, recreational and economic benefits. Proper management of the deer resource requires the cooperative actions of the department and the citizens of Indiana to produce healthy deer in a healthy environment as an indefinitely renewable resource. Within the above constraints, the department is committed to maximizing the public's range of choices for both consumptive (hunting) and nonconsumptive (viewing, photographing, aesthetic appreciation of presence) recreation. The goal of the division's deer management program is to maintain a healthy deer herd at a level that provides satisfactory hunting and viewing opportunities while minimizing vehicle accidents involving deer, agricultural crop damage, and other conflicts between deer and humans.

*Comment about deer limits per license.*

*Response:* [IC 14-22-12-1](#) requires a deer hunting license to take one (1) deer. Therefore, the department's deer licenses can only allow one deer to be taken per license, with the exception for the deer license bundle that is a combination of deer licenses permitted by law.

*Comments about the number of bullets or cartridges an individual can carry while deer hunting.*

*Response:* [IC 14-22-2-8](#) limits the number of rifle cartridges that an individual can carry while hunting deer with a rifle on private land. Therefore, the department and the natural resources commission do not have the ability to change this.

*Additional comments about rule language for which no changes are proposed:* The department received several comments outside the scope of this rule, including comments about deer hunting in general, the draw weight of bows, rifle cartridges, and deer control (depredation) permits.

*Response:* The proposed rule changes do not deal with these topics. At this time, the department is only moving forward with the proposed rule changes in the rule package.

## **REQUEST FOR PUBLIC COMMENT**

The commission is soliciting additional public comment on the amendments and additions to rules at [312 IAC 9](#) that regulate deer hunting and wild turkey hunting. The commission is requesting an additional public comment period to ensure compliance with all rulemaking provisions under [IC 4-22](#). Comments may be submitted in one of the following ways:

(1) By the commission's rulemaking docket at <https://www.in.gov/nrc/rules/rulemaking-docket/>.

(2) By mail or common carrier to the following address:

## COMMENT PERIOD DEADLINE

All comments must be postmarked or time stamped not later than August 26, 2024.

The rule, Regulatory Analysis, appendices referenced in the Regulatory Analysis, and materials incorporated by reference (if applicable) are on file at the Natural Resources Commission, Indiana Government Center North, 100 North Senate Avenue, Room N103, Indianapolis, Indiana and are available for public inspection. Copies of the rule, Regulatory Analysis, and appendices referenced in the Regulatory Analysis are available at the Natural Resources Commission office.

This notice is an additional thirty (30) day period in which the public may comment on the proposed rule. Following this public comment period, the commission may adopt a version of the proposed rule that is the same as or does not substantially differ from the text of the proposed rule published during this public comment period.

## EXPLANATION OF DIFFERENCES IN PROPOSED RULE

No substantive changes were made to the rule in response to the comments received during both the first and second public comment period. All changes made to the proposed rule published during the public comment periods are technical and conforming changes.

Sec. 2. (a) This section and sections 3, 4, 8, 9, and 10 of this rule govern: ~~the:~~

- (1) hunting;
- (2) ~~transportation~~; **transporting**; and
- (3) ~~disposal~~; **disposing of**;

of **white-tailed deer (*Odocoileus virginianus*)**.

(b) Species of deer other than white-tailed deer (*Odocoileus virginianus*) are exempted from the following:

- (1) This section.
- (2) Sections 3, 4, 8, 9, and 10 of this rule.

**(b) "Deer license bundle" means a deer hunting license that replaces a valid deer hunting license and allows an individual to take one (1) antlered deer and two (2) antlerless deer, under this section and sections 3 and 4 of this rule, during the following seasons combined during one (1) license year:**

- (1) Special youth season.**
- (2) Archery season.**
- (3) Firearms season.**
- (4) Muzzleloader season.**

**(c) "Multiple season antlerless deer license" means a deer hunting license that allows an individual to take one (1) antlerless deer using the equipment authorized for that season under section 3 of this rule.**

**(d) An individual who claims the exemption provided under this subsection must a deer taken is not a white-tailed deer (*Odocoileus virginianus*) shall prove the deer is other than not a white-tailed deer.**

~~(e) The licenses identified in this section are nonexclusive.~~ **(e) An individual may apply for one (1) or more of these multiple licenses to hunt deer under this section.**

~~(f) Except as provided under [IC 14-22-11-1](#) and [IC 14-22-11-11](#), an individual must~~ **may not hunt a deer:**

- (1) unless the individual possesses a valid ~~completed, and signed~~ license **authorized to hunt a deer** under this section bearing the individual's name **of the individual**; or
- (2) with a deer license **to hunt a deer under this section** issued to another individual.

~~(g) A youth hunter may take a deer during the youth deer season established in~~ **under section 4(b) 4 of this rule only if the youth hunter:**

**(1) is issued a license to hunt deer with: under:**

- (A) a resident youth consolidated hunting, trapping, and fishing license under [IC 14-22-11-10\(b\)](#) or [IC 14-22-12-1\(a\)\(24\)](#);

(2) With a bow and arrows ~~from~~: **beginning**:

- (A) October 1 to the end of the fall turkey season with firearms as established in subdivision (1); and
- (B) the first Saturday after the closing day of deer firearms season as established in [312 IAC 9-3-4](#) ~~(e)~~ through [312 IAC 9-3-4](#) and **ending** the first Sunday in January.

(c) The spring and fall seasons for hunting and possessing wild turkeys on Camp Atterbury shall be determined by the director on an annual basis to prevent interference with military training exercises.

(d) An individual may take one (1):

- (1) bearded or male wild turkey during the spring season; and
- (2) wild turkey of either sex during the fall season.

(e) An individual must not do the following:

- (1) Hunt wild turkeys except between one-half (1/2) hour before sunrise and sunset.
- (2) Take a wild turkey except ~~with the use of~~ **by using** any of the following:
  - (A) A shotgun or muzzleloading shotgun with a barrel length of **at least** 18 inches (forty-six (46) cm):
    - (i) of 28, 20, 16, 12, and 10 gauge; or
    - (ii) .410 caliber;

loaded only with shot of size 4, 5, 6, 7, 7 1/2, or smaller. Shot size smaller than size 7 1/2 must be comprised of tungsten super shot or equivalent pellet density only. Shot sizes of equal or greater diameter than six (6) shot (diameter equal to eleven-hundredths (0.11) inch) up through and including four (4) shot (diameter equal ~~thirteen-hundredths~~ **to thirteen-hundredths** (0.13) inch) must have a density composition equal to or less than fifteen (15) grams per cubic centimeter.

(B) A bow and arrows, including crossbows as defined in [312 IAC 9-1-5.3](#), with the following restrictions:

(i) An individual must not use a:

(AA) long bow; or

(BB) compound bow;

(ii) Arrows must be equipped with metal or metal-edged, or flint, chert, or obsidian napped broadheads.

(iii) An individual must not use:

(AA) a crossbow of less than one hundred twenty-five (125) pounds pull;

(BB) a crossbow without a mechanical safety; or

(CC) a poisoned or an explosive arrow.

(iv) No portion of a bow's riser (handle) or:

(AA) track;

(BB) trough;

(CC) channel;

(DD) arrow rest; or

(EE) other device;

that attaches to the bow's riser shall contact, support, or guide the arrow from a point rearward of the bow's brace height.

(3) Hunt wild turkeys in the fall season that takes place during the deer muzzleloader season as established in [312 IAC 9-3-4\(f\)](#) or during the deer special late antlerless season in a location where authorized as established in [312 IAC 9-3-4\(h\)](#) [312 IAC 9-3-4](#) unless that individual wears hunter orange.

(4) Call wild turkeys for another individual unless licensed in accordance with **under** subsection (j) or (k). The individual who calls the wild turkey may have already harvested a wild turkey.

(f) The special youth season for hunting wild turkeys under this subsection is two (2) consecutive days beginning on the Saturday immediately before the **start beginning** of the spring turkey season established in subsection (a). ~~As used in this subsection, "youth" means an individual who is less than eighteen (18) years of age on the date of the hunt.~~ A youth who hunts a wild turkey under this section must be accompanied by an adult ~~who is~~ at least eighteen (18) years of age. An adult accompanying a youth hunter must not possess a firearm, bow and arrow, or crossbow while in the field. The seasonal limit for hunting wild turkeys under this subsection is one (1) bearded or male wild turkey. A youth hunter who takes a wild turkey under this subsection must not take another wild turkey during the spring turkey season in the same year.

(g) An individual must not use or possess:

(1) a dog;

(2) another domesticated animal;

(3) a live decoy;

(4) a recorded call;

(5) an electronically powered or controlled decoy; or

(6) bait;

while hunting a wild turkey. An area is considered baited for ten (10) days after the removal of the bait, but an area is not considered to be baited that is attractive to wild turkeys resulting from normal agricultural practices.

(h) An individual may possess a handgun while hunting wild turkeys ~~in accordance with~~ **under** [IC 35-47](#).

(i) Except as provided under [IC 14-22-11-1](#) and [IC 14-22-11-11](#), an individual must not hunt:

(1) wild turkeys unless possessing a completed and signed license bearing the individual's name; or

(2) with a wild turkey license issued to another individual.

(j) An individual may take a wild turkey during the spring season established under subsection (a) only if:

(1) issued a license to hunt wild turkeys with:

(A) a resident youth consolidated hunting license under [IC 14-22-11-10\(b\)](#);

(B) a resident spring turkey license under [IC 14-22-11-10\(a\)](#) or [IC 14-22-12-1\(a\)\(20\)](#);

(C) a nonresident spring turkey license under [IC 14-22-12-1\(a\)\(21\)](#);

- (D) a resident youth consolidated hunting license under [IC 14-22-12-1\(a\)\(24\)](#);
- (E) a nonresident youth spring turkey license under [IC 14-22-12-1\(a\)\(27\)](#);
- (F) a lifetime comprehensive hunting license under [IC 14-22-12-7\(a\)\(4\)](#) before its repeal;
- (G) a lifetime comprehensive hunting and fishing license under [IC 14-22-12-7\(a\)\(5\)](#) before its repeal; or
- (H) an apprentice spring turkey hunting license under [IC 14-22-12-1.7](#); or

(2) hunting under [IC 14-22-11-1](#).

(k) An individual may take a wild turkey during the fall season established under subsection (b) only if:

(1) issued a license to hunt wild turkeys with:

- (A) a resident youth consolidated hunting license under [IC 14-22-11-10\(b\)](#);
- (B) a resident fall turkey license under [IC 14-22-11-10\(a\)](#) or [IC 14-22-12-1\(a\)\(22\)](#);
- (C) a nonresident fall turkey license under [IC 14-22-12-1\(a\)\(23\)](#);
- (D) a resident youth consolidated hunting license under [IC 14-22-12-1\(a\)\(24\)](#);
- (E) a nonresident youth fall turkey license under [IC 14-22-12-1\(a\)\(28\)](#);
- (F) a lifetime comprehensive hunting license under [IC 14-22-12-7\(a\)\(4\)](#) before its repeal;
- (G) a lifetime comprehensive hunting and fishing license under [IC 14-22-12-7\(a\)\(5\)](#) before its repeal; or
- (H) an apprentice fall turkey hunting license under [IC 14-22-12-1.7](#); or

(2) hunting under [IC 14-22-11-1](#).

(l) Immediately after taking a wild turkey, an individual must attach a piece of paper to a leg of the turkey directly above the spur stating the following:

- (1) The name and address of the individual who took the turkey.
- (2) The license number (~~if applicable~~) of the **hunting license issued to the individual who took the turkey, if applicable**.
- (3) The date the wild turkey was taken.
- (4) The sex of the wild turkey taken.

(m) An individual who takes a wild turkey must do one (1) of the following:

(1) ~~Cause delivery of~~ **Ensure** the wild turkey **is delivered** to an official turkey checking station within forty-eight (48) hours of taking as follows:

- (A) Register the wild turkey in the name of the individual who took the wild turkey.
- (B) Provide the check station with true and accurate information that includes the information on the piece of paper described in subsection (l).
- (C) Record the confirmation number provided by the department's electronic harvest reporting system on the piece of paper described in subsection (l).

(2) ~~Cause the reporting of~~ **Ensure** the take **is reported** by providing true and accurate information required on the department's electronic harvest reporting system within forty-eight (48) hours of taking. The individual who took the wild turkey or the individual reporting the take ~~of the turkey~~ must record the department's electronic harvest confirmation number on the piece of paper described in subsection (l). This confirmation number must be maintained with the turkey until processing of the turkey begins.

(n) The department's electronic harvest confirmation number must be maintained with a wild turkey ~~that is~~ gifted to another individual until processing of the wild turkey begins.

(o) The official wild turkey checking station operator shall accurately report the taking of ~~the a~~ wild turkey on the department's electronic harvest reporting system and give the individual the confirmation number.

(p) The feathers and beard of a wild turkey must remain attached while the wild turkey is in transit from the site where taken.

(q) As used in this section, "bait" means to:

- (1) place;
- (2) expose;
- (3) deposit;
- (4) distribute; or
- (5) scatter;

grain, salt, or other feed to lure, attract, or entice a wild turkey to an area where a person may take the wild turkey.
