

**Report to the Natural Resources Commission on Citizens Petition for a season on bobcats;
Administrative Cause No. 23-FW-023**

Senate Enrolled Act 241 was passed by the Indiana General Assembly this year, requiring the Indiana DNR to establish a season to take bobcats no later than July 1, 2025. Therefore, the Indiana DNR will be proposing a new rule to the Natural Resources Commission for preliminary adoption later this year that would establish a season to take bobcats starting sometime in the year 2025.
