

## STATE CDBG RADON APPLICABILITY CHECKLIST (CRaC)

<b>SECTION 1: Project Information</b>			
1. Grantee	2. State Project Identifier	3. Date of Review	
4. Grant Administrator	5. Grant Administrator Email	6. Grant Administrator Phone #	
7. Project Location Street Address	8. Project Location City	9. State	10. Zip Code
11. Description of Project Activities			

<b>SECTION 2: Applicability Determination</b>			
<p>Pursuant to Notice CPD 23-103, radon must be considered in the review required at 24 CFR §58.5(i)(2)(i)(ii). Projects may be exempted from considering radon in the contamination analysis under certain conditions set forth in Section III of CDP 23-103. Use the checklist below to determine if an exemption applies. If any exemption applies, provide the request documentation with this completed checklist.</p>			
Exemption Condition	Check if Applicable	Document Checklist if Exemption Applies	
The building has no enclosed area beneath it having ground contact (i.e., building on piers). Does not include crawl spaces, tunnels, garages.	<input type="checkbox"/>	<input type="checkbox"/> Photos of the building exterior from all sides showing and the space beneath the building.	
The building is not residential and will not be occupied for more than 4 continuous hours per day.	<input type="checkbox"/>	<input type="checkbox"/> Photos of the building exterior from all sides <input type="checkbox"/> Completed and signed form From Radon-002 CDBG Radon Exemption for Limited Duration of Occupancy	
The building has an existing radon mitigation system and radon levels are below 4 pCi/L.	<input type="checkbox"/>	<input type="checkbox"/> Photos of the radon mitigation system in the building <input type="checkbox"/> Current (within last 2 years) test results showing average level is below 4 pCi/L	
The building has been tested for radon within the last five years and radon levels are below 4 pCi/L.	<input type="checkbox"/>	<input type="checkbox"/> Recent (within last 5 years) test results showing average level is below 4 pCi/L and photos of testing location(s)	
The costs associated with testing are prohibitively high compared to the low cost of the project. Testing is infeasible or impracticable for this project.	<input type="checkbox"/>	<input type="checkbox"/> Copies of quotes for radon testing from at least three (3) licensed radon professionals <input type="checkbox"/> Completed and signed Form Radon-003 Certificate of Prohibitively High Testing Costs	
The project is new construction, so pre-construction testing is not possible. Grantee will still complete CDBG-ER-RA4, Mitigation Plan Section.	<input type="checkbox"/>	<input type="checkbox"/> Affirmative statement the project only includes new construction and not renovation of existing structures.	
An exemption condition exists. Radon testing is not required. <input type="checkbox"/>	No exemption condition exists. Radon testing is required. <input type="checkbox"/>	12a. Engineer Signature	12b. Date
