COMMUNITY SELF-ASSESSMENT TOOL

For over 40 years, Main Street programs across the country have used the Main Street Approach™ to support revitalization and catalyze positive transformation of their downtowns and neighborhood commercial corridors. Through grassroots leadership, partnership building, community engagement, and a commitment to holistic preservation-based economic development, thousands of Affiliate and Accredited Main Street programs have created lasting impact for their local economies and communities as a whole.

Indiana Main Street Overview

Since 1985, the Indiana Main Street Program (IMS) has been helping communities revitalize the economy, appearance, and image of their downtown commercial districts using the National Main Street Center's successful Main Street Approach. Main Street is a comprehensive, incremental approach to revitalization built around a community's unique heritage and attributes. Using local resources and initiative, the state program helps communities develop and provides support for the implementation of their own strategies to stimulate long-term economic growth and pride in the heart of the communities' downtown or commercial core.

In 2005, the IMS Program transitioned to the Indiana Office of Community and Rural Affairs (OCRA), where it is currently managed. IMS provides access to information, help getting focused, and community support and guidance to individuals and organizations interested in downtown revitalization. It also serves as a general clearinghouse for the latest tools and techniques in downtown development. General information, project development assistance information, and other resource materials are also available. The state program is a partner, but true revitalization success is built squarely on local commitment, initiative, and follow-through.

In 2019, the Indiana Office of Community and Rural Affairs partnered with National Main Street and the Indiana Main Street Council to evaluate the IMS program, per Main Street America accreditation standards. In November 2020, OCRA announced updates to the program that add additional value to new and existing Main Street organizations alike. At the core of this improvement process is the development and implementation of the new Levels System.

HOW GRADING WORKS

Within each Standard in the new Self-Assessment Tool, score yourself on the Indicators listed based on a scale of 1-5. Each number represents the following:

1	2	3	4	5
Not being addressed	Minimal work but needs more effort	Evidence of satisfactory progress	Has achieved success within this indicator	Outstanding achievement. One that other programs could replicate.

For each Indicator, we encourage communities to explore areas of strength and opportunities for growth by discussing:

- What actions and next steps can you take to strengthen your efforts?
- How can you build upon your work or take it to the next level?

The Self-Assessment Tool provides examples of how Main Street programs can meet each Standard. These example activities are not an exhaustive or prescriptive list, rather are included to provide guidance and inspiration. Programs are invited to count these and other related activities towards each Indicator.

After you complete your self-assessment, your coordinator will review and provide their own score and feedback. **Communities will need to average at least three (3) points per Standard to achieve Accreditation.**

BASELINE REQUIREMENTS

As detailed within the tool, some indicators are required as important foundational starting points for a program to qualify for Accreditation. **The current Baseline Requirements are:**

- Active non-profit tax filing status.
- A Board of Directors formed by a representative base of the district stakeholders and community members, dedicated to leading the district's Main Street program.
- Detailed work plans aligned with the selected Transformation Strategy that outline programming across the Main Street Four Points. Work plans include: the project, expected (measurable) outcomes, specific tasks needed to accomplish the project, assignments of those tasks showing volunteer and staff responsibilities, timelines, and budgets.
- A dedicated budget for the district's revitalization programming and the Main Street program's operations.
- Demonstrated support from municipality for the Main Street program. This can include leadership participation, funding, in-kind donations, and philosophical support.
- Reinvestment statistics reported as required by Coordinating Program (monthly, quarterly, or annually).

Local Programs that do not meet these baseline requirements are not eligible for the Aspiring-IAMS and IAMS, Indiana Main Street levels.
