# STATE OF INDIANA

OFFICE OF MANAGEMENT & BUDGET 200 W. Washington St., Room 212 Indianapolis, IN 46204 317-232-5617 Christopher A. Ruhl Director

To: Indiana State Board of Education, Governor Daniels, and the Indiana General Assembly

From: Christopher A. Ruhl, OMB Director

Date: March 25, 2011

Re: Student Instructional Expenditure Report for 2009-10 School Year

Attached is the 2009-10 Student Instructional Expenditure report as required by IC 20-42.5-3-5. Student Instructional Expenditures are defined as the sum of two categories: *1-Student academic achievement* and *2-Student instructional support*. Non-Instructional Expenditures are the remaining two categories: *3-Overhead and operational* and *4-Non-operational*. The computations herein are based upon financial data submitted by each school corporation.

The statewide Student Instructional Expenditures ratio (also known as the "Dollars to the Classroom" percentage) in 2009-10 was **58.7%**. This figure is lower than that of the baseline year of 2005-06 (*59.6%*), but is an increase from the previous year of 2008-09 (*57.8%*). Data from ten years prior (1999-2000) is also included within this report.

Out of 341 school corporations and charter schools, 220 increased their percentage of dollars to the classroom from 2008-09 to 2009-10. Out of nine Educational Service Center areas, seven increased their percentage.

The definitions of the four categories of expenditures are as follows:

- <u>Student Academic Achievement</u>: Defined as the activity between teachers and students. This category includes those direct expenditures related to instruction, providing instruction, instructional materials, and instructional supervision. Activities dealing directly with the teaching of pupils, including teachers (salaries and related fringe benefits), teacher aides, educational media services, textbooks, and instructional technology are included.
- <u>Student Instructional Support</u>: This category includes other expenditures for those services that-support student academic achievement within the school building. Pupil support services included in these expenditures are attendance, social work, guidance, health, psychology, speech pathology, audiology, and school administration.
- <u>Overhead and Operational</u>: This category includes expenditures for non-instructional operating costs. Areas included are corporation administration, fiscal services (budgeting, payroll, and accounting), operation and maintenance of facilities, security, pupil transportation, food services, purchasing, and administrative technology.

• <u>Non-operational</u>: This category includes expenditures that are not related to the day-to-day operation of public elementary and secondary education. Expenditures included in this category are facilities acquisition and construction, purchase of non-instructional equipment, and debt service obligations.

The final section of this report presents the Indiana K-12 chart of accounts showing which category each type of expenditure falls into.

In addition to calculating the ratio of student instructional expenditures to all other expenditures as outlined in statute, we have provided an additional "operational" measure to allow for more meaningful corporation-to-corporation comparisons. The operational measure excludes category 4 (non-operational) as well as adult education and property expenditures. The approach is consistent with the National Center for Education Statistics (NCES) analysis of elementary and secondary current expenditures by function.

(Note that NCES classifies school administration as non-instructional, whereas Indiana considers it as instructional support. Thus, school administration and corporation administration have been delineated separately for those wanting to compare to national statistics.)

Every percentage point improvement in the statewide Student Instructional Expenditures ratio equates to \$117 million of additional dollars to Indiana classrooms, the equivalent of over 2,000 teachers earning \$50,000 each. OMB is ready and willing to assist the Indiana Department of Education and local school districts to drive the percentage of K-12 dollars spent in the classroom higher.
