A November field hearing was held in Valparaiso.

The OUCC and intervening parties are scheduled to file testimony on Dec. 19 with an order expected next summer. Natural gas rates are not at issue in this case.

Data Center Settlement

As data centers are built in Indiana and nationwide, utilities are preparing to meet the demands for additional electricity.

Indiana Michigan Power (I&M) is the first Indiana utility to request approval of new tariff language for these new, large volume customers. The OUCC, Google, Amazon Data Services, Microsoft, the Data Center Coalition, Citizens Action Coalition, and I&M have reached a [settlement agreement](#) that will result in protections for existing customers as data centers connect to the grid and go online.

The settlement is pending before the IURC.
