## **River's Edge Utility Acquisition and Rates: State utility consumer advocate accepting public comments**

The Indiana Office of Utility Consumer Counselor (OUCC) is inviting public comments as it reviews the request of Wastewater One, LLC to purchase the assets of River's Edge Utility, Inc., and to increase rates for River's Edge customers.

The OUCC – the state agency representing consumer interests in cases before the Indiana Utility Regulatory Commission (IURC) – has not yet taken a position on Wastewater One's request. Currently, the OUCC anticipates completing its technical and legal review in this case and filing testimony with the Commission on August 10, 2009.

River's Edge is a for-profit utility providing water and wastewater service to customers within the River's Edge subdivision in Clark County, Indiana. The utility, its business practices and questions regarding its authority to provide sewer utility service have been under investigation in IURC Cause No. 43115 since September 2006. Current rates for River's Edge were approved in 2003.

Wastewater One – a for-profit entity based in Jeffersonville – intervened in this case in June 2009 and is seeking to purchase the assets of River's Edge and to increase rates. In its testimony and exhibits, Wastewater One states that the majority of the requested increase would cover proposed operating and maintenance costs. For a metered residential customer using 5,000 gallons per month, the monthly combined water and sewer bill would rise from \$45.10 to \$157.00.

Wastewater One is also seeking pre-approval of a series of planned infrastructure improvements, the costs of which would be recovered in a separate, future rate case.
