DISCUSSION

INSPECT Report – Kara Slusser, Inspect Director:

Participating Members: Donna Wall, R.Ph., Del Fanning, R.Ph., Winnie Landis, R.Ph., John Wilson, J.D., Steve Anderson, R.Ph., Matt Balla, R.Ph.

Conference Update

- Last week, I traveled to Madison, WI to attend the resource group meeting for the National Alliance for Model State Drug Laws (NAMSDL). The agenda covered the following topics:
 - National Policy & Education
 - The National Association of State Controlled Substances Authorities (NASCSA) PMP Model Act
 - Emerging IT Capabilities and Needs
 - Recommendations for consistency in State PDMP laws
- One recommendation from the resource group was that prescriptions are written and dispensed to patients using their name as it appears on their Government issued identification. PMP systems like AWARxE have a patient matching algorithm that is designed to match patients based on a number of different factors, including variations in names as they appear in pharmacy management systems.

Federal Grants

- IPLA will be submitting an application for the upcoming BJA grant in Category 5, the Harold Rogers Prescription Drug Monitoring Program (PDMP). We are proposing two PDMP enhancements:
 - An application program interface that links INSPECT with the professional licensing data so that our PDMP can automatically verify professional licenses of practitioners using the system.
 - The development and implementation of a program called Controlled Substance pick-up Identification (CSID). CSID would offer pharmacies the ability to collect and report the Government issued identification number of

any individual picking up a controlled substance prescription from a retail pharmacy. The goal of CSID is to help identify individuals who are diverting drugs.

INSPECT Integration Initiative

- Saint Joseph (Trinity Health) – Waiting on OH facilities. Targeting go-live within the next month

- Parkview – Go-live scheduled for today 6/11
- Columbus Regional Hospital – Targeting go-live on 7/1
- Three (3) Deaconess Affiliate hospitals are in progress
- CVS – Resolving technical issues – Planning to resume roll out in mid-June
- Walmart- Reviewing the end user license agreement. Targeting June 18th-25th
 - INSPECT's new integration registration process is now online. We have created smart forms that will automatically send integration documents to the INSPECT staff and our vendor.
 - The second round of email notifications about the integration initiative will be sent out this week to all practitioners registered with INSPECT.

The Board thanked Kara for her report.

Tim indicated they need to upgrade their system.

They will return in August to do a new inventory.
