Gabapentin:

- Effective 7/1/19 anything over a 72 hour supply must be reported to INSPECT.
- Hospitals has seen a lot of diversion of Gabapentin and most treat it like a controlled substance and have it locked up
- Ohio and Kentucky have both scheduled Gabapentin

They are doing a massive cleanup - they sent notices to all controlled substances registration (CSR) holders that do not have an INSPECT account.

Ms. Slusser met with Apriss Health in Kentucky on July 11th and discussed several issues.

Ms. Slusser is going to NABP Headquarters for the Steering Committee – Florida wants to connect with us but they do not require the DEA number. The meeting is July 16 – 17.
