Melissa Gresham, Compliance Officer testified as follows:
She has conducted three (3) inspections of this facility. The first was in 2016 and at that time they were placed on a corrective action plan (CAP). The reason for the CAP was she found collective dust on shelves; log book was not complete; found beyond use dates on medications; nine (9) active medications return to shelf expired.

In 2016, when a CAP was issued the Compliance Officer did not necessarily go back to

see if the items listed on the CAP were corrected. Melissa indicated she did not return for a second inspection.

On August 1, 2019 Melissa completed an inspection at CVS #6713 and failed them. The failure was based partially on dirty floors, individual pills found on the floor, filthy shelves, food on the counter, bugs, unidentified medication waiting in several baskets to be destroyed in which they found a controlled substance, Acetaminophen with Codeine liquid – 1 pint in one of these baskets. Melissa took many pictures of all the issues.

Melissa also indicated that when speaking with Patricia Brant, the pharmacist in charge she didn't know what was in some of the boxes, didn't know where or how to access reports as she has her technician do all of that. She eventually got the report from the technician after he found it.

After a failure, the compliance officers do not return to the store, but they do file a complaint with the Attorney General's Office. At the request of Ryan Eldridge and Tim Weber both Deputy Attorney General's, Melissa Gresham and Ashley Crawford both Compliance Officers went back to CVS #6713 on August 30, 2019 for another inspection.

Melissa indicated that again they found expired medications and mislabeled medications on the shelf, shelves were still filthy.

Ashley Crawford testified that on the August 30, 2019 inspection the pictures in exhibit F were how they found the store to be. She verified they found pills on the floor, floor was dirty, a HIPPA form indicated that a prescription was given to the wrong person. She also stated she witnessed a box of Suboxone in view and within reach of customers. She said that a technician had set the box on the counter of the pharmacy.

Ms. Crawford also indicated that the door was not closed and secure. Pictures were taken of all the issues found.

Ms. Brant testified that she has been the PIC for this store since 1993. She stated that the dirty selves were due to a remodel that has been going on in the store (not the pharmacy) for some time, but also admitted it had been at least six (6) months since the shelves had been wiped down.

She said she was on vacation with the inspection was done on August 1, 2019. When she returned she immediately did a corrective action plan and submitted it to CVS Corporate who she assumed would send it to Ms. Nunnally.

She also indicated that on August 31, 2019 all the shelves in the store were cleaned and new carpet has since been installed.

She indicated they fill an average of twenty-eight hundred (2,800) prescriptions a week at this facility.

After the August 1, 2019 inspection Ms. Brant stated she contacted Corporate for

additional help to work on the issues documented on the inspection. She stated she was told to handle it herself.

After reporting to Corporate about the August 30, 2019 inspection, they immediately sent her help to get things in order. She stated they sent about four (4) people to assist her in getting things in order.

After having considered the evidence, testimony of the witnesses and taking official, judicial notice of the pleadings, evidence and orders in the matter the Board moved find that Patricia Brant, R.Ph. is not an immediate danger to the public and therefore DISMISSED the Summary Suspension Order.

Ms. Slusser reached out to Appriss for an estimated cost and it will be one hundred twenty (\$120) to one hundred twenty-five (\$125) thousand to connect for the first (1st) year and approximately \$22 thousand a year thereafter.
