ARTICLE 24. OPTOMETRISTS

IC 25-24-1

Chapter 1. Regulation of Optometrists . Creation of Board

IC 25-24-1-1 Indiana optometry board; organization; powers and duties

Sec. 1. (a) There is created the Indiana optometry board (referred to in this chapter as the board), whose duty it shall be to carry out this chapter. The board shall consist of six (6) members appointed by the governor. Five (5) of these members must have been resident optometrists, licensed under this chapter, engaged in the actual practice of optometry in Indiana for a period of five (5) years prior to their appointment, and not more than three (3) of the optometrist members may belong to the same political party. The sixth member of the board, to represent the general public, shall be a resident of this state who has never been associated with optometry in any way other than as a consumer. The appointed members shall serve for a term of three (3) years each, and each shall hold his office until his successor is appointed. Appointment to fill vacancies from any cause shall be made by the governor for the residue of the term. The members of the board, before entering on their duties, shall each take and subscribe to the oath required to be taken by other state officers, which shall be administered by the secretary of state and filed in his office; and the board shall have a common seal. The board:

(1) shall administer oaths and take affidavits as required by this chapter, certified under the hand and the seal of the board;

(2) shall require the attendance of witnesses and the production of books, records, and papers pertinent to any matters coming before the board; and

(3) for that purpose may issue a subpoena for any witness or a subpoena duces tecum to compel the production of any books, records, papers, or documents, directed to the sheriff of the county where the witness resides or is to be found, which shall be served and returned in the same manner as subpoenas in civil actions in the circuit court are served and returned.

(b) The board shall adopt rules, and do any and all things not inconsistent with this chapter which may be necessary or expedient for the effective enforcement of this chapter, for the full and efficient performance of its duties under this chapter, and for the reasonable regulation of the profession and practice thereof by persons licensed under this chapter.

(c) The board shall adopt rules, not inconsistent with this chapter, governing applicants and applications for license under this chapter and governing the examination of applicants before beginning the practice of optometry in this state, and shall establish a schedule of qualifications of applicants, and a schedule of the minimum requirements with which applicants for examination must comply before they can be examined or receive a license, which schedules of qualifications of applicants and of minimum requirements shall be kept in a record for that purpose by the board.

(d) The board shall establish and record, in a record kept for that purpose, a schedule of
the minimum requirements and rules for the recognition of schools of optometry, so as to keep the requirements of proficiency up to the average standard of other states.

(e) The board shall adopt rules establishing standards for the competent practice of optometry.

(f) The board shall assist in the prosecution of any violation of this chapter and assist in the enforcement of this chapter.

(g) The board shall utilize, when expedient, an agent whose title shall be inspector of the board, who shall hold office during the pleasure of the board and who shall, while in office, serve and execute any process or order issued by the board under this chapter. Such agents may enter any optometrist's establishment or any place where the optometrist is located for the purpose of practising the optometry profession to inspect the premises and the licenses of all optometrists operating therein, and the inspector may inspect all instruments and patient records used in the conduct of the profession and all ophthalmic materials which are to be delivered to the public.

(h) The board shall utilize the services of attorneys and other necessary assistants in carrying out this chapter.

(i) The board may:
   (1) grant or refuse to grant licenses as provided in this chapter;
   (2) place any licensee on probation; and
   (3) revoke or suspend the license, as provided in this chapter, of any optometrist for any violation of this chapter or for a violation of any rule of the board.

(j) The board has such other powers and duties as may be provided in this chapter.

IC 25-24-1-2 Meetings; quorum; record

Sec. 2. The board shall annually elect from its members a president and secretary. The board shall meet at least once each year, at Indianapolis, Indiana, and in addition thereto whenever and wherever the president and secretary thereof shall call a meeting; a majority of the board shall at all times constitute a quorum. The secretary provided for the board shall keep a full record of the proceedings of the board, which record shall at all reasonable times be open to public inspection.

IC 25-24-1-3 Examination; issuance of license; applicant licensed in other state; fees

Sec. 3. (a) Every person, except those exempted under this chapter, or those excepted from the taking of an examination under this chapter, before beginning the practice of optometry in this state, must pass an examination which shall be given or approved by the board.

(b) Any person desiring to be licensed by the board must fill out an application furnished by the board, which application must be verified by the applicant, and the applicant must file the verified application with the board. The applicant shall pay an application fee set by the board under section 1 of this chapter. If the applicant meets the requirements for licensure the applicant shall pay a further sum set by the board under
section 1 of this chapter before the board may issue a license to the applicant.

(c) All persons successfully passing the examination and meeting the requirements of the board shall be registered in a record and shall also receive a license to be signed by the president and secretary of the board.

(d) Any applicant may, at the discretion of the board, be licensed if the applicant presents evidence that the applicant has been issued a license by any other state where the requirements for licensure are, in the opinion of the board, equivalent to the requirements for licensure in this state, provided that the applicant has not previously failed an examination given or approved by the board. The fee for licensing such applicant shall be set by the board under section 1 of this chapter.

(e) A license issued under this section is valid for the remainder of the renewal period in effect on the date of issuance.

(b) A limited license issued under this section is valid for two (2) years.

The application shall be mailed to the last known address of the optometrist.

(b) The payment of the renewal fee must be made on or before the date established by the licensing agency under IC 25-1-5-4. Subject to IC 25-1-2-6(e), the applicant's license expires and becomes invalid if the applicant has not paid the renewal fee by the date established by the licensing agency.

(c) The license shall be reinstated by the board not later than three (3) years after its expiration if the applicant for reinstatement meets the requirements under IC 25-1-8-6(c).

(d) Reinstatement of an expired license after the expiration of the three (3) year period provided in subsection (c) is dependent upon the applicant satisfying the requirements for reinstatement under IC 25-1-8-6(d).

The renewal fee for an inactive license is one-half (1/2) the license renewal fee set by the board under section 1 of this chapter.

(f) The holder of an inactive license is not required to fulfill continuing education requirements set by the board. The board may issue a license to the holder of an inactive license if the applicant:

(2) pays the reinstatement fee set by the board under section 1 of this chapter; and
(3) subject to IC 25-1-4-3, attests that the applicant obtained the continuing education required by the board under section 1 of this chapter for each year, or portion of a year during which the applicant's license has been classified as inactive.

315.1 Scope of regulations in this part.

This part, which shall be called the "Contact Lens Rule," implements the Fairness to Contact Lens Consumers Act, codified at 15 U.S.C. 7601–7610, which requires that rules be issued to address the release, verification, and sale of contact lens prescriptions. This part specifically governs contact lens prescriptions and related issues. Part 456 of Title 16 governs the availability of eyeglass prescriptions and related issues (the Ophthalmic Practice Rules (Eyeglass Rule)).

315.2 Definitions.

For purposes of this part, the following definitions shall apply:

Business hour means an hour between 9 a.m. and 5 p.m., during a weekday (Monday through Friday), excluding Federal holidays. “Business hour” also may include, at the seller's option, a prescriber's regular business hours on Saturdays, provided that the seller has actual knowledge of these hours. “Business hour” shall be determined based on the time zone of the prescriber.

“Eight (8) business hours” shall be calculated from the time the prescriber receives the prescription verification information from the seller, and shall conclude when eight (8) business hours have elapsed. For verification requests received by a prescriber during non-business hours, the calculation of “eight (8) business hours” shall begin at 9 a.m. on
the next weekday that is not a Federal holiday or, if applicable, on Saturday at the
beginning of the prescriber's actual business hours.

**Commission** means the Federal Trade Commission.

**Contact lens** means any contact lens for which State or Federal law requires a
prescription.

**Contact lens fitting** means the process that begins after an initial eye examination for
contact lenses and ends when a successful fit has been achieved or, in the case of a
renewal prescription, ends when the prescriber determines that no change in the existing
prescription is required, and such term may include:

1. An examination to determine lens specifications;
2. Except in the case of a renewal of a contact lens prescription, an initial evaluation
   of the fit of the contact lens on the eye; and
3. Medically necessary follow-up examinations.

**Contact lens prescription** means a prescription, issued in accordance with State and
Federal law, that contains sufficient information for the complete and accurate filling of
a prescription for contact lenses, including the following:

1. The name of the patient;
2. The date of examination;
3. The issue date and expiration date of prescription;
4. The name, postal address, telephone number, and facsimile telephone number of
   prescriber;
5. The power, material or manufacturer or both of the prescribed contact lens;
6. The base curve or appropriate designation of the prescribed contact lens;
7. The diameter, when appropriate, of the prescribed contact lens; and
8. In the case of a private label contact lens, the name of the manufacturer, trade
   name of the private label brand, and, if applicable, trade name of equivalent brand
   name.

**Direct communication** means completed communication by telephone, facsimile, or
electronic mail.

**Issue date** means the date on which the patient receives a copy of the prescription at the
completion of a contact lens fitting.

**Ophthalmic goods** are contact lenses, eyeglasses, or any component of eyeglasses.

**Ophthalmic services** are the measuring, fitting, and adjusting of ophthalmic goods
subsequent to an eye examination.

**Prescriber** means, with respect to contact lens prescriptions, an ophthalmologist,
optometrist, or other person permitted under State law to issue prescriptions for contact
lenses in compliance with any applicable requirements established by the Food and
Drug Administration.

“Other person,” for purposes of this definition, includes a dispensing optician who is
permitted under State law to issue prescriptions and who is authorized or permitted
under State law to perform contact lens fitting services.

**Private label contact lenses** mean contact lenses that are sold under the label of a seller
where the contact lenses are identical to lenses made by the same manufacturer but sold
under the labels of other sellers.

### 315.3 Availability of contact lens prescriptions to patients.

(a) **In general.** When a prescriber completes a contact lens fitting, the prescriber:
(1) Whether or not requested by the patient, shall provide to the patient a copy of the contact lens prescription; and
(2) Shall, as directed by any person designated to act on behalf of the patient, provide or verify the contact lens prescription by electronic or other means.

(b) Limitations. A prescriber may not:
(1) Require the purchase of contact lenses from the prescriber or from another person as a condition of providing a copy of a prescription under paragraph (a)(1) or (a)(2) of this section or as a condition of verification of a prescription under paragraph (a)(2) of this section;
(2) Require payment in addition to, or as part of, the fee for an eye examination, fitting, and evaluation as a condition of providing a copy of a prescription under paragraph (a)(1) or (a)(2) of this section or as a condition of verification of a prescription under paragraph (a)(2) of this section; or
(3) Require the patient to sign a waiver or release as a condition of releasing or verifying a prescription under paragraph (a)(1) or (a)(2) of this section.

315.4 Limits on requiring immediate payment.
A prescriber may require payment of fees for an eye examination, fitting, and evaluation before the release of a contact lens prescription, but only if the prescriber requires immediate payment in the case of an examination that reveals no requirement for ophthalmic goods. For purposes of the preceding sentence, presentation of proof of insurance coverage for that service shall be deemed to be a payment.

315.5 Prescriber verification.
(a) Prescription requirement. A seller may sell contact lenses only in accordance with a contact lens prescription for the patient that is:
(1) Presented to the seller by the patient or prescriber directly or by facsimile; or
(2) Verified by direct communication.
(b) Information for verification. When seeking verification of a contact lens prescription, a seller shall provide the prescriber with the following information through direct communication:
(1) The patient's full name and address;
(2) The contact lens power, manufacturer, base curve or appropriate designation, and diameter when appropriate;
(3) The quantity of lenses ordered;
(4) The date of patient request;
(5) The date and time of verification request;
(6) The name of a contact person at the seller's company, including facsimile and telephone numbers; and
(7) If the seller opts to include the prescriber's regular business hours on Saturdays as “business hours” for purposes of paragraph (c)(3) of this section, a clear statement of the prescriber's regular Saturday business hours.
(c) Verification events. A prescription is verified under paragraph (a)(2) of this section only if one of the following occurs:
(1) The prescriber confirms the prescription is accurate by direct communication with the seller;
(2) The prescriber informs the seller through direct communication that the prescription is inaccurate and provides the accurate prescription; or

(3) The prescriber fails to communicate with the seller within eight (8) business hours after receiving from the seller the information described in paragraph (b) of this section. During these eight (8) business hours, the seller shall provide a reasonable opportunity for the prescriber to communicate with the seller concerning the verification request.

(d) **Invalid prescription.** If a prescriber informs a seller before the deadline under paragraph (c)(3) of this section that the contact lens prescription is inaccurate, expired, or otherwise invalid, the seller shall not fill the prescription. The prescriber shall specify the basis for the inaccuracy or invalidity of the prescription. If the prescription communicated by the seller to the prescriber is inaccurate, the prescriber shall correct it, and the prescription shall then be deemed verified under paragraph (c)(2) of this section.

(e) **No alteration of prescription.** A seller may not alter a contact lens prescription. Notwithstanding the preceding sentence, a seller may substitute for private label contact lenses specified on a prescription identical contact lenses that the same company manufactures and sells under different labels.

(f) **Recordkeeping requirement—verification requests.** A seller shall maintain a record of all direct communications referred to in paragraph (a) of this section. Such record shall consist of the following:

1. For prescriptions presented to the seller: the prescription itself, or the facsimile version thereof (including an email containing a digital image of the prescription), that was presented to the seller by the patient or prescriber.
2. For verification requests by the seller:
   (i) If the communication occurs via facsimile or e-mail, a copy of the verification request, including the information provided to the prescriber pursuant to paragraph (b) of this section, and confirmation of the completed transmission thereof, including a record of the date and time the request was made;
   (ii) If the communication occurs via telephone, a log:
      (A) Describing the information provided pursuant to paragraph (b) of this section,
      (B) Setting forth the date and time the request was made,
      (C) Indicating how the call was completed, and
      (D) Listing the names of the individuals who participated in the call.
3. For communications from the prescriber, including prescription verifications:
   (i) If the communication occurs via facsimile or e-mail, a copy of the communication and a record of the time and date it was received;
   (ii) If the communication occurs via telephone, a log describing the information communicated, the date and time that the information was received, and the names of the individuals who participated in the call.
4. The records required to be maintained under this section shall be maintained for a period of not less than three years, and these records must be available for inspection by the Federal Trade Commission, its employees, and its representatives.

(g) **Recordkeeping requirement—Saturday business hours.** A seller that exercises its option to include a prescriber's regular Saturday business hours in the time period for verification specified in §315.5(c)(3) shall maintain a record of the prescriber's regular Saturday business hours and the basis for the seller's actual knowledge thereof. Such
records shall be maintained for a period of not less than three years, and these records must be available for inspection by the Federal Trade Commission, its employees, and its representatives.

315.6 Expiration of contact lens prescriptions.
(a) In general. A contact lens prescription shall expire:
   (1) On the date specified by the law of the State in which the prescription was written, if that date is one year or more after the issue date of the prescription;
   (2) Not less than one year after the issue date of the prescription if such State law specifies no date or specifies a date that is less than one year after the issue date of the prescription; or
   (3) Notwithstanding paragraphs (a)(1) and (a)(2) of this section, on the date specified by the prescriber, if that date is based on the medical judgment of the prescriber with respect to the ocular health of the patient.
(b) Special rules for prescriptions of less than one year.
   (1) If a prescription expires in less than one year, the specific reasons for the medical judgment referred to in paragraph (a)(3) of this section shall be documented in the patient's medical record with sufficient detail to allow for review by a qualified professional in the field.
   (2) The documentation described in the paragraph above shall be maintained for a period of not less than three years, and it must be available for inspection by the Federal Trade Commission, its employees, and its representatives.
   (3) No prescriber shall include an expiration date on a prescription that is less than the period of time that he or she recommends for a reexamination of the patient that is medically necessary.

315.7 Content of advertisements and other representations.
Any person who engages in the manufacture, processing, assembly, sale, offering for sale, or distribution of contact lenses may not represent, by advertisement, sales presentation, or otherwise, that contact lenses may be obtained without a prescription.

315.8 Prohibition of certain waivers.
A prescriber may not place on a prescription, or require the patient to sign, or deliver to the patient, a form or notice waiving or disclaiming the liability or responsibility of the prescriber for the accuracy of the eye examination. The preceding sentence does not impose liability on a prescriber for the ophthalmic goods and services dispensed by another seller pursuant to the prescriber's correctly verified prescription.

315.9 Enforcement.
Any violation of this Rule shall be treated as a violation of a rule under section 18 of the Federal Trade Commission Act, 15 U.S.C. 57a, regarding unfair or deceptive acts or practices, and the Commission will enforce this Rule in the same manner, by the same means, and with the same jurisdiction, powers, and duties as are available to it pursuant to the Federal Trade Commission Act, 15 U.S.C. 41 et seq.

315.10 Severability.
The provisions of this part are separate and severable from one another. If any provision is stayed or determined to be invalid, it is the Commission's intention that the remaining provisions shall continue in effect.

315.11 Effect on state and local laws.
(a) State and local laws and regulations that establish a prescription expiration date of less than one year or that restrict prescription release or require active verification are preempted.
(b) Any other State or local laws or regulations that are inconsistent with the Act or this part are preempted to the extent of the inconsistency.
