If possible, I would appreciate receiving the information about the 3 step renewal process--I tried to write it down as it was being described to others, but may have missed some details. I will say, it is frustrating to just be finding this out now... why was I allowed to pay the renewal fee (which I assume I'll be reimbursed for), instructed to go for fingerprinting, and then attend a 2+ hr meeting just to be told there is a set process in place for someone in my position? This seems like basic info that could have been provided before I started the renewal process. Thank you.” Based on the applicant’s license having expired in 2011, PLA will provide the information for Garvey to do the NCLEX review, take NCLEX, and complete the refresher course with clinical component.
