Final Hearing

DAG: Autumn Murphy
Respondent: Barclay Wong
Exhibit(s): None
Witness(es): None

Andrew Meador recused himself. The State asked that the Board accept the Proposed Settlement Agreement. The Respondent asked that the Board accept the Proposed Settlement Agreement and that the fine amount will never be changed. The Respondent stated that there was evidence that none of the medication diverted went beyond Mr. Knoth. The State concurred with Respondent's statement. The Board asked what changes occurred. The State directed the Board to pages 39 and 40 of the Proposed Settlement Agreement. The Board asked if that was the only change. The State directed the Board to page 41. The length of probation and the time that the fine is to be paid were the changes. The Board believes from a public standpoint that the agreement is reprehensible. The Respondent reminded the court reporter that there is a motion to continue recording. The Board believes that this is the best that can result in this case. The Board asked about the status of Mr. Knoth's license. The license will be placed in Valid to Practice and Mr. Knoth will be requested to personally appear before the board.

After having considered the evidence presented and taking official, judicial notice of the pleadings, evidence and orders in this matter the Board moved to APPROVE the Proposed Settlement Agreement.

Final Hearing

DAG: Carah Rochester
Respondent: Kennedy Bunch, Brent Wolford
Exhibit(s): None
Witness(es): None

The State gave an opening statement and referenced the amended Proposed Settlement Agreement. The State believes the letter of Reprimand is appropriate given the mitigating factors and asked that the Board accept the Proposed Settlement Agreement. The Board asked what steps Kroger put in place to prevent the miss fills

that occurred in this case. Every store completes a CQI. There's an additional safety component at the national level. Described what occurred related to this incident. Currently, there is a regular review. The Board asked what steps the central fill follows to verify an order as entered is correct. The Board asked what happens if the order is entered locally in error? The Board asked if it's possible to see the original order where a refill is filled. The Board asked if the technicians in question were nationally certified. They were not nationally certified. Kroger strongly encourages that pharmacy technicians obtain national certification. The Board asked if the new fine amount can be imposed. Board Counsel advised that fines cannot be imposed retroactively for cases that have already been brought before the Board.

After having considered the evidence presented and taking official, judicial notice of the pleadings, evidence and orders in this matter the Board moved to APPROVE the Proposed Settlement Agreement.
