Indiana Code citations 6-3.5-1.1-9, 6-3.5-6-17, and 6-3.5-7-11 require the State Budget Agency to publish estimates of statewide total local income tax certified distributions. In every even-numbered year the State Budget Agency is required to publish an estimate of the statewide total amount of certified distributions to be made under each provision during the following calendar year.

Estimates are listed below and were derived using statewide income tax growth estimated in the income tax model from the December 17, 2015 revenue forecast. The estimated 2017 certified distribution amounts are based on estimated collections and any rate changes will impact the final 2017 certified distribution amounts. These amounts should not be taken into account for financial planning or reporting purposes.
