Note: Sales tax revenues attributable to $1 \%$ rate increase effective April 1, 2008 have been deposited in the General Fund beginning May 2008. Additional revenue attributable to revenue measures contained in HEA 1001-2008 and HEA 1835-2007 were not deposited in the General Fund until calendar year 2009. These revenues were incorporated into this revenue report starting January 2009.

Note: The December 2007 and December 2008 revenue forecasts projected that local income tax collections would exceed distributions in FY 2009. As a result, $\$ 1,999,678$ was transferred from individual income tax revenues to the local income tax reserve account each month from July - November and $\$ 7,581,239$ was transferred to the reserve account each month from December through March. The April revenue forecast projected that local income tax distributions will exceed collections in FY 2009 and that the transfers to the local income tax reserve account should not have occurred. The transfers to the reserve account totaling $\$ 40,323,346$ have been reversed and the individual income tax revenues by month have been restated in this report to reflect when the revenues were first received by the State
