Results

- General Fund revenues for February totaled \$1,423.1 million, which is \$63.6 million (4.7%) above the revenue estimate and \$115.6 million (8.8%) above revenue in February 2025.

Monthly fluctuations are expected in the context of timing of economic activity and tax planning from month to month. Revenues must be interpreted within the full fiscal year outlook and the balance of risks from FY 2026 through FY 2027.

Changes to law, which include changes to cigarette related tax revenues, impact year-over-year differences. Differences relative to budget plan monthly estimates and prior year actuals will be influenced by various factors including seasonality, evolving economic and financial market dynamics, timing of payments and refunds, federal policy actions, tax rates and other changes to law.
