

PART 6

CLASSIFICATION AND DEFINITION OF EXPENDITURE ACCOUNTS

EXPENDITURE ACCOUNTS

Each expenditure account can be identified with the fund from which it may be disbursed by reviewing the master chart of expenditure accounts in this part. Proper accounting for disbursements on prescribed School Form No. 512, Ledger of Appropriations, Allotments, Encumbrances, Disbursements and Balances, may be attained by following the procedures in this Part.

PREPARATION OF LEDGER

Prepare a ledger account on Form No. 512 for each item of appropriation in the approved budget; also, a ledger account for each item allotment by the School Board within each appropriation. Arrange the ledger accounts so the Instruction-Regular Programs Appropriation of the Education Fund will appear first. This will be followed by Expenditure Account Number 11100 and all other expenditure accounts within this program in numerical sequence. Follow the last expenditure account of the Instruction-Regular Programs appropriation with the Instruction-Special Programs appropriation of the Education Fund and all expenditure accounts within the Instruction-Special Programs appropriation of the Education Fund. Continue with all expenditure accounts within each of the other appropriations of the Education Fund until all appropriation and expenditure accounts have been included for that fund. Follow the last expenditure account of the Education Fund with the first appropriation account of the next Fund utilized. Continue to arrange the expenditure accounts by fund and appropriation (program) until the ledger is complete.

APPROPRIATIONS AND ALLOTMENTS

Post the amount of the budgeted appropriation for each program to that program account in the ledger and the amount of the allotment by the school board for each expenditure account to that expenditure account in the ledger. This posting will be the opening entry for these accounts each calendar year unless an encumbered amount of an appropriation is brought forward from the program account for the preceding calendar year. The encumbered amount brought forward and added to the appropriation in the program account must also be entered in the proper expenditure accounts and added to the allotment balances of the expenditure accounts. In this manner the proof of expenditure accounts, within any program, to the program account will not be disturbed. When this is done, the amounts brought forward must be entered in the "Encumbered" column and included in the balance showing in the "Outstanding" column of the ledger accounts.

Total and balance all expenditure and program (appropriation) accounts at the close of the school year on June 30. The appropriation and allotment balances are to be carried forward to July 1, the beginning of the new school year. Total and close the expenditure and program ledger accounts for the budget year on December 31. Open new accounts as of January 1 with the appropriations which are itemized in the approved budget for the new calendar year.

REQUISITIONS, PURCHASE ORDERS AND CLAIMS

When a requisition is received in the business office and the purchase order written, the purchase order must indicate to which Expenditure Account it is to be charged. If more than one Expenditure Account is to be charged, for items ordered on any one purchase order, all necessary Expenditure Account numbers should be indicated. When the purchase order is posted it will be entered in the columns under the heading "Value of Purchase Orders" to properly encumber the allotment of each Expenditure Account. Post the total of the purchase orders to the program concerned to properly encumber the appropriation. If an amount already appears in the "Outstanding" column of the account, any additional encumbrances will be added to the amount already entered. This will update the total outstanding.

After merchandise ordered on encumbered purchase orders has been received and claims filed, the claims must be grouped by Funds from which they are to be paid and arranged numerically by program and Expenditure Account within each fund. Arranging the claims in this manner will greatly reduce the time and effort required to post the accounts after the checks are written. It will also facilitate future reference to the disbursements and the post-audit of the records. The arranging of claims must be done prior to numbering and entry on the Register of Claims prior to the allowance by the Board of School Trustees and the writing of checks.

RECORDING DISBURSEMENTS

To post a check written to a vendor for payment of a claim for which a purchase order was written and encumbered, determine the Expenditure Account on which the purchase order was encumbered. Turn to that account in the Ledger of Appropriations, Allotments, Encumbrances, Disbursements and Balances and liquidate the purchase order in the "Value of Purchase Orders Liquidated" column in the same amount as it was encumbered. Reduce the Value of Purchase Orders Outstanding by the amount liquidated. Place a check mark (√) in the proper column to indicate liquidation of that purchase order. Post the amount of the check in the Disbursements column and reduce the amount of the Appropriation or Allotment Balance by the amount of the check.

To post a check written in payment of a claim for which no purchase order was encumbered, enter the amount of the check in the disbursements column and reduce the amount of the allotment balance, on the proper Expenditure Account record.

At the end of each posting run the total value of the purchase orders liquidated for each program must be posted to the liquidation column of that program account and the value of purchase orders outstanding reduced accordingly. The total of the amounts of all checks issued against each program must be posted to the disbursements column of that program account and, with the totals for all other programs of the same fund, also posted to the disbursements column of that fund account in the Fund Ledger. In the same manner, the total disbursements for all funds must be posted to the disbursements column of the All Funds-Control account.

To record payrolls on the accounting records, post the gross amount of the payroll claim to the disbursements column of the applicable Expenditure Accounts and Program Accounts in total only. From the distribution section of the payroll claim, determine the gross amount to be disbursed from each fund and post it to the disbursements column of those Fund accounts in the Fund Ledger. Post the net amount of the payroll (after deductions) to the disbursements column of the All Funds-Control account and the total of each of the various deductions to the receipts column of the applicable Clearing Accounts in the Clearing Accounts section of the Fund Ledger. The total disbursements (net amounts of checks) must also be entered on the Treasurer's Daily Balance of Cash and Depositories record each day that transactions occur.

PROOF OF POSTING

For proof of accuracy in posting disbursements, follow these steps:

1. Total the disbursements, as shown in the expenditure accounts, by program and prove to the total disbursements of the program account.
2. Total the disbursements, as shown in all of the program accounts for any one fund, and prove to the total disbursements of the fund account.
3. Total the balance in all of the fund accounts with the balances in the payroll deductions clearing accounts and prove this total to the balance of the All Funds-Control account.
4. Prove the balance in the All Funds-Control account to the closing balance of the Treasurer's Daily Balance of Cash and Depositories.

FINANCIAL REPORTING

Not earlier than August 1 or later than August 15 of each year, the secretary of each school board shall publish an annual financial report of the school corporation. Said publication is to be made one time in accordance with IC 5-3-1-3.

If desired for the published report, school treasurers may set up a vendor ledger as a subsidiary ledger for accumulating totals for publication, with the employee earnings records used for payments to individual employees.

Preparation of the Financial Report for the State Department of Education will be relatively easy from currently posted records in the system. Simply refer to the accounts in the Ledger of Receipts (Form 508) or approved computerized equivalent for the receipts required for the report and continue the process for the disbursements section of the report by using the accounts in the Ledger of Appropriations, Allotments, Encumbrances, Disbursements and Balances (Form 512) or approved computerized equivalent. The report must agree with the totals and the balances reflected in the Fund Ledger and All Funds-Control account. Performance reporting would be as required by IC 20-20-8.

ACCOUNTING BY OBJECT

In addition to the accounting procedures discussed previously each expenditure transaction must be identified by Object as described in Part VII so that the amounts for each object may be summarized on an annual basis for a school year or for a budget year as desired or needed. To facilitate this procedure, an additional column has been provided on the Ledger of Appropriations, Allotments, Encumbrances, Disbursements and Balances (School Form No. 512) to record the Object Number. From this identification, the amounts may be summarized daily, monthly, quarterly or semiannually, dependent on the number of transactions occurring and the need for the Object data. All corporations shall maintain a summarizing report for each six month period ending June 30 and December 31.

ACCOUNTING BY BUILDING LEVEL NUMBER

Indiana Code 20-42.5-3-7 requires that the Chart of Accounts provides the ability to determine expenditures made at and for each individual school building. To facilitate this school corporations will be required to add a building identification number to their expenditure coding. The Board of Accounts prescribed method of coding will be as follows:

Fund Number-Expenditure Account Number-Object Code Number-Building Level Number

CLASSIFICATION OF EXPENDITURE ACCOUNTS

For the purposes of this manual and the prescribed accounting system for Indiana's public schools, the Expenditure Accounts are separated into classifications dependent upon the program area and purpose affected. The Expenditure Accounts are identified by numerical designations related as closely as possible to those used by the U.S. Department of Education.

DEFINITION OF EXPENDITURE ACCOUNTS

Expenditure Accounts are defined within each appropriation classification or budget and accounting program by the specific area or purpose which they serve. These accounts are identified by account titles basically comparable to the U.S. Department of Education which also serve to provide definitions of each.

The Master Chart of Expenditure Accounts beginning on the following page provides a detailed outline of the expenditure accounts prescribed for use and indicates by an "X" in the fund column from which fund each may generally be disbursed. The Master Chart of Expenditure Accounts is followed by a detailed description of each account and its use.

In the series of accounts for INSTRUCTION, there is additional detail which may be included that is optional to the local unit. The categories of Instruction-Regular Programs in Elementary as well as Middle/Junior High School, and High School are required to be used for budgeting, accounting and reporting purposes. Subaccounts within each of these are not required but may be included if such detail is within the capabilities of the local unit's system. Additional detail will provide better program cost data. The detail in Vocational Education (11400 and 11500) is required.
