**Annual Indiana Advanced
Placement Performance
Report to The State Board
of Education
April 4, 2012**

2011 AP Highlights

- 13.4 percent of all Indiana public school graduates qualified (score of 3 or higher) on an AP exam during high school (College Board Metric is 14 percent)
 - Sixth consecutive year that Indiana’s qualifying rate has improved
- Overall 61 percent of Indiana public high schools *improved* the percent of graduates who qualified on an AP exam from 2010 to 2011
 - 15 schools improved by 10 percentage points or more

2011 AP Highlights

- 25 Indiana public schools met or surpassed the 25 percent benchmark (up from 21 schools in 2010)
- Indiana had the 5th highest one year gain in AP success (score of 3 or higher) in the nation (tied with Florida)
 - States with higher one year gains: Connecticut, Massachusetts, New Hampshire, Virginia (Three are National Math and Science Initiative states)

2011 AP Highlights

- Indiana had the 2nd highest two year gain in AP success in the nation
- The largest gains in participation and success were exhibited by African American students, Hispanic students and American Indian students.

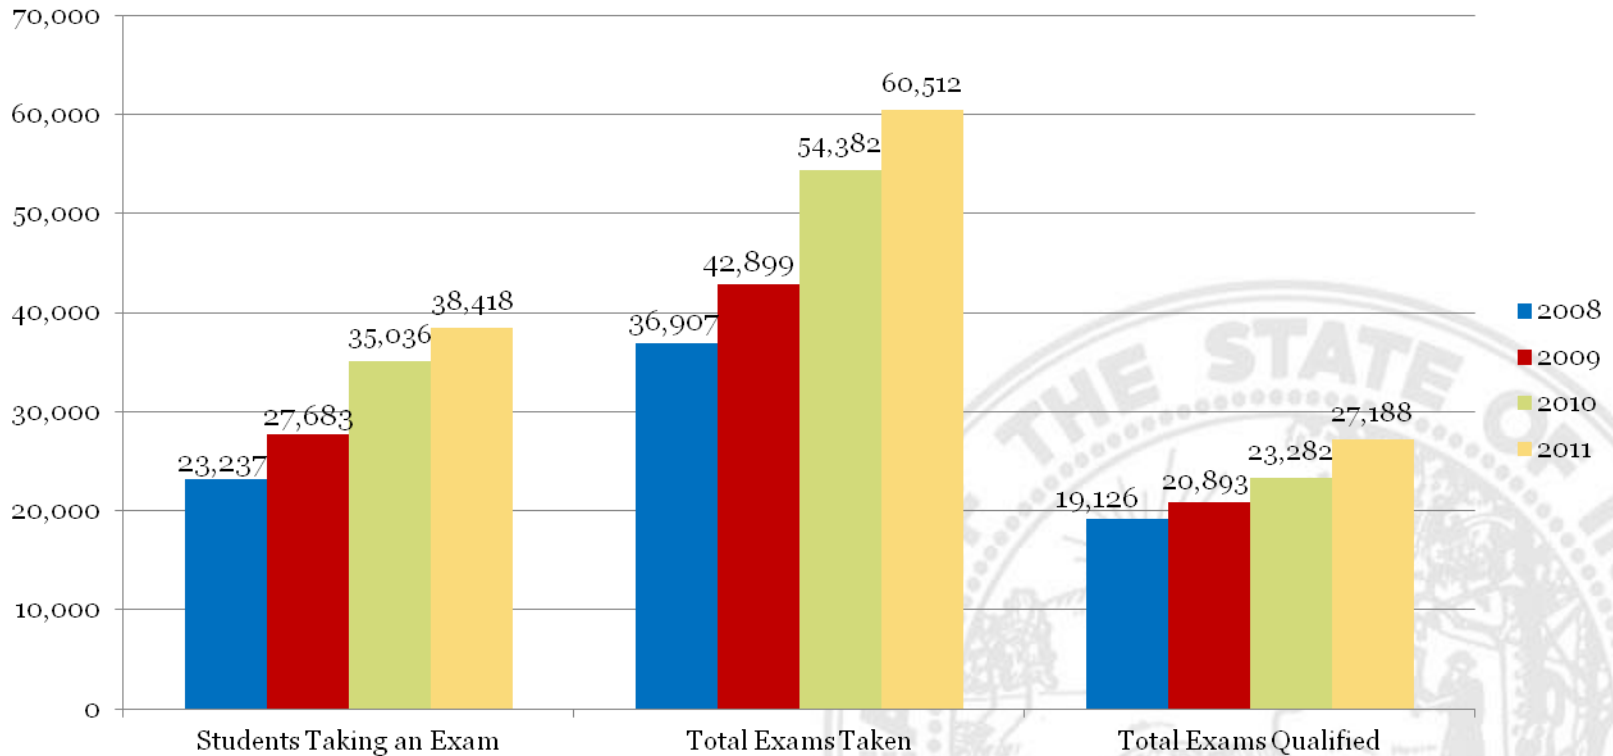

2011 AP Highlights

- **16.8 percent increase** in the number of qualifying exams (27,188 total qualified exams), compared to 7.6 percent increase nationally.
- Indiana's increase in percent participation and qualified exams outpaced the national increase in all defined subgroups (with one exception of Asian students).

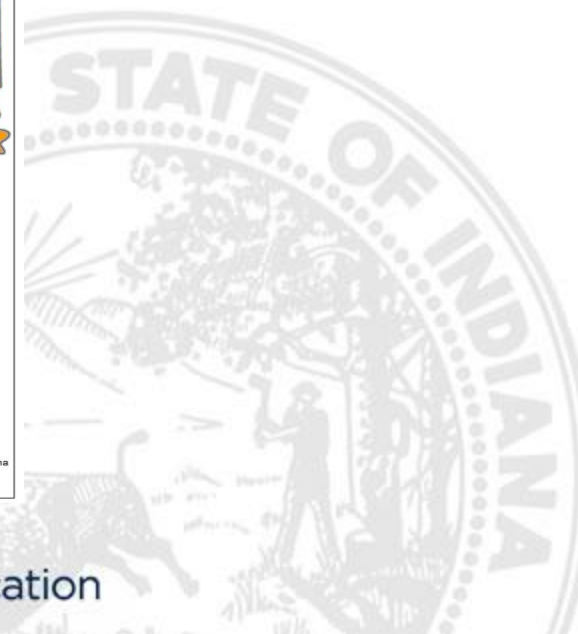

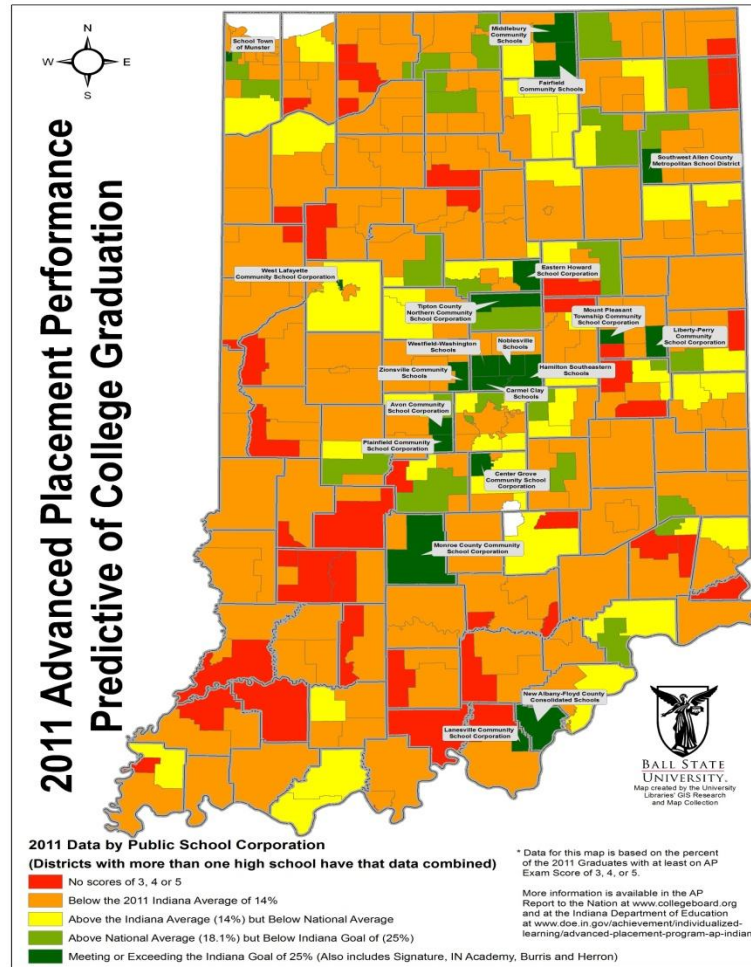

Four Year Indiana AP Growth

2008-2011

2011 AP Performance

2011 AP Growth

AP Action Plan

- Approximately 414 students took AP courses online in 2010-2011.
 - Expand number of courses available and opportunities to access online AP coursework
- Roughly half of Indiana High Schools use the AP Potential™ Tool.
 - Provide Training on AP Potential™ to 100 percent of schools

AP Action Plan

- Continue to recognize top performing and most improved districts

AP Action Plan

- Creation of AP Regional Cohorts
 - Content specific
- Indiana awarded National Math and Science Initiative (NMSI) grant
 - In 2012-2013 Nine (9) Indiana High Schools will participate
 - By 2015 Thirty Three (33) will participate
 - NMSI states have some of the highest AP scores in the nation.
