### Study Session

9:00 a.m.

Board members Glenda Ritz, Jo Blacketor, Mike Pettibone, David Shane, Tony Walker, Neil Pickett, B.J. Watts, Jim Edwards, and Dan Elsener were present. Sarah O'Brien and Cari Whicker were absent.

Superintendent Ritz began the study session by reading a letter of apology from CTB/McGraw-Hill to Supt. Ritz, apologizing for the problems taking place with ISTEP+ testing. The board members discussed the impacts on the schools and what can be done by all parties to prevent such occurrences in the future. There was also discussion about reviewing the contract with CTB/McGraw-Hill to determine if the company is contractually obligated to reimburse the department for the failures.

The next item discussed was a status update on the ESEA waiver through the US DOE. Superintendent Ritz shared with board members a document of the waiver principles that included her comments next to each one. Board members wanted assurance that recent legislation (i.e., HB 1427) would not jeopardize any federal funding that Indiana may receive because of its waiver. Superintendent Ritz assured the member that Indiana's waiver is continuously monitored by the US DOE and the state's funding is not in jeopardy. Discussion ensued about the Common Core standards and the implications of House Bill 1427 in terms of the implementation of the standards and effects on the waiver.

Final topics reviewed during the study session included Superintendent's vision for school improvement and her reading plan. Dan Elsener requested documentation about the newly created outreach coordinator positions as well as outcome metrics that will be used to measure their effectiveness, as the individuals who fill those positions will be responsible for implementing the school improvement process on behalf of the IDOE. Superintendent Ritz explained the role of the coordinators in making school improvement plans active and meaningful. During the reading plan portion of the discussion, Superintendent Ritz explained the importance of K-3 reading and the need for teachers to know the reading level and progress of each individual student throughout each school year.

The Superintendent adjourned the Study Session at approximately 10:30 a.m.
