MEMORANDUM

To: **Members of the State Board of Education**

From: **Melissa K. Ambre, Director, Office of School Finance**

Date: **December 4, 2019**

Subject: **2020 Summer School Program**

The Indiana Department of Education is seeking approval of the 2020 summer school program. Pursuant to 511 IAC Article 12, the courses must be approved by January 15th of each year by the State Board of Education. The list of eligible programs is reflected below.

The Department shall reimburse eligible school corporations and charter schools for approved summer school program classes. Reimbursement amounts will be calculated by taking 1.05 multiplied by the amount expensed for instructional costs of approved programs and reduced proportionately if the appropriation is insufficient to fund all programs at one hundred percent (100%).   Instructional costs, for purposes of the summer school program, include only teacher salaries, teacher aide wages, and tuition costs paid to online service providers.

Eligible programs include all courses included in the Indiana State Approved Course Titles and Descriptions for the 2019-2020 School Year at the high school level and in the 2019-2020 Indiana Elementary and Middle Level Subjects and Descriptions at the elementary and middle school levels.

*Dual Credit

*X: Any course marked with an X (including those described below) in the Dual Credit column has been approved to count for dual credit reporting for A-F Accountability. The student must be enrolled in a college course and earn transcripted college credits. For the Technical Honors Diploma, dual credits must come from a state-approved Career and Technical Education Pathway.

*X-PCL-LA: As used in this table, courses marked X (PCL/LA) in the Dual Credit column are in the subset of courses found in the Core Transfer Library (CTL) that have been approved by the Indiana Commission for Higher Education (ICHE) to be included on the Priority Course List/Liberal Arts , as of August 2013. If the high school has a formal agreement with a college to award dual credit for these courses, students may earn both high school credits and transcripted college credits as specified in the dual credit agreement. Per Indiana legislation, the college can charge high school students no more than $25 per college credit and the college receives funding as part of the ICHE's Dual Credit biennium budget recommendation.

*X-PCL-CTE: As used in this table, courses marked X (PCL/CTE) are those Career and Technical Education (CTE) courses on the state approved Priority Course List/Career and Technical Education and for which credit applies to undergraduate degree programs. If the high school has a formal agreement with a college to award dual credit for these courses, students may earn both high school credits and transcripted college credits as specified in the dual credit agreement. Per Indiana legislation, the college can charge high school students no more than $25 per college credit and the college receives funding as part of the ICHE's Dual Credit biennium budget recommendation.

Core: Per NCLB, the Core Academic Subjects are defined as the following: English/language arts, reading, mathematics, science, foreigh languages, civics and government, economics, history, geography, and fine arts (musical and visual arts). Teachers of courses or subjects designated as "core" must meet the Highly Qualified Teacher standard. The Highly Qualified Teacher standard is not germane to subjects/courses not listed as Core Academic Subjects. These subjects are designated in the last column. **However, please note that per ESSA, it is no longer a requirement to collect this information. This column has been added back at the request of local schools and districts for their reporting purposes.
