

Indiana High School Diploma Proposal Guiding Questions and Themes

Implementation Needs and Concerns:

- **Flexibility:** Provide students and schools as much flexibility as possible.
- **Capacity:** Help schools build capacity for increased math requirements.
- **Guidance:** Develop and provide guidance on capstone and math requirements.
- **Technology:** Help schools build capacity to access and use technology.
- **Student Support:** Consider student supports to reduce remediation.

Coursework and Graduation Requirement Concerns and focus of Taskforce meetings:

- | | |
|--|---------|
| • Math | 1/27/16 |
| • Special Education | 2/17/16 |
| • World Languages | 2/17/16 |
| • Character Education & Success Skills | 2/24/16 |
| • Fine Arts and Music | 2/24/16 |

Other Concerns:

- Change nothing and keep existing diplomas
- Terminology: "Pathway" vs. "Sequence" vs. "Focus" another term?
- Keep the General Diploma as a fourth option
- Mandate that all schools offer the General Diploma to students
- Don't require three years of math for the Workforce Diploma
- Will the Workforce Diploma be less valuable?
- Do these diploma options give special education students the skills and credentials they'll need for employment?
