

To: Indiana State Board of Education (SBOE)

Date: December 01, 2020

Subject: SY 21/22 Career & Technical Education Program Categorizations and Funding Recommendations

Pursuant to Indiana Code (IC) [20-43-8-7.5](#), the Indiana Department of Workforce Development (DWD), in consultation with the Governor’s Workforce Cabinet (GWC), submits the following report, providing recommendations to the Indiana State Board of Education (SBOE) on Career and Technical Education (CTE) program designations.

Funding Methodology Overview

CTE courses are statutorily funded at the following levels:

Advanced CTE Course Funding Levels – Enrollment Reimbursement Rates Per Credit Hour	
High Value Program – Level 1	\$680
High Value Program – Level 2	\$1,020
Moderate Value Program – Level 1	\$400
Moderate Value Program – Level 2	\$600
Less than Moderate Value Program – Level 1	\$200
Less than Moderate Value Program – Level 2	\$300

Other CTE Course Funding Levels – Enrollment Reimbursement Rates Per Pupil	
Apprenticeship Program	\$500
Work Based Learning Program	\$500
Cooperative Education Program	\$150
Introductory Course	\$300
Planning for College and Careers Course	\$150
*Area Participation Program	\$150

Office of CTE Policies and Information

InTERS, Indiana's CTE student data collection portal, is used to verify the amount of Additional Pupil Count (APC) funds schools receive via state tuition support for CTE program needs. The Office of CTE provides the Indiana Department of Education all data necessary for the calculation of the CTE grant amount found at IC 20-43-8, generally referred to as 30A data for inclusion in state tuition support to schools. These counts are generated by reported student enrollments for the current school year in state approved CTE courses.

Beginning with the 2020-2021 school year, the Office of CTE enacted business rules within InTERS to match course requirements detailed in Office of CTE policies. Course requirements include, but are not limited to, the required semesters for the course and the required prerequisites detailed in the bulleted items found in the state approved 2021-2022 Course Titles and Descriptions and delivery model requirements related to virtual and blended courses that were detailed in a July Office of CTE [memo](#). Enrollments in the InTERS system that do not match the course requirements will be flagged; flagged enrollments will not qualify for APC funding. During this transition period, concurrent enrollments in required prerequisites will continue to be allowed to meet course requirements. Language in the state approved 2021-2022 Course Titles and Descriptions and current Office of CTE policy guidance memos will take precedent over language in any other CTE course documentation, including course standards and frameworks. A school may submit a CTE Nonstandard Course Waiver to request that course requirements be waived. If approved, enrollments in courses where the requirements have been waived would be eligible for funding.

CIP-SOC Crosswalk

In 2017, representatives from the private sector, DOE, DWD, secondary/postsecondary education, and other interest groups developed a crosswalk of CTE courses (CIP) to relevant occupations (SOC). The standards of each course were evaluated to determine what skills would be gained by the students from the CTE instruction that most directly aligned to skills necessary to enter and be prepared for certain occupations. The occupations associated with each course in the crosswalk were then scored per the occupational ranking methodology (referenced below) to determine a value for the course and its subsequent funding level.

The same CIP-SOC crosswalk was used for SY 20/21 CTE course recommendations as was utilized and adopted by the SBOE for SY 18/19 courses unless standards for a course changed or a new CTE course was adopted by SBOE.¹

Occupational Ranking Methodology

DWD used the IN Demand Ranking methodology to evaluate demand and wage for occupations associated with CTE courses per IC 20-43-8. Each occupation was evaluated on a decile scoring system across five variables, which was then summarized

to equate to an overall value of between 1 and 5.² This was the same methodology that was used and adopted by the SBOE for SY18/19 CTE course designations.

Scoring Mechanism

IN Demand Ranking scores of each occupation were summed and averaged to equate to an overall CTE course score. Less than moderate value CTE courses scored within a 0.00-2.99 threshold. Moderate value CTE courses scored within a 3.00-3.49 threshold, and high value CTE courses scored between 3.5 and 5.00.

Flame Funding Levels with Flames Threshold		
Course Designation	Flame Threshold	Reimbursement Rate (per Credit, Max of 3)
Less than Moderate Value	0.00-2.99	\$200
Moderate Value	3.00-3.49	\$400
High Value	3.50-5.00	\$680

¹ 2017 CTE Course Recommendations [Memo](#) provides more information on the process used to develop the CIP-SOC crosswalk. ²

[IN Demand Ranking Methodology](#): Each occupation in Indiana is designated a 1-10 score in 5 categories: Total Openings (X2), Growth Openings for both short term and long term outlook, Percentage Change, Real Time Labor Market Information, and Wages using 2016-2018 Short Term Projections and 2014-2024 Long Term Projections and Bureau of Labor Statistics Occupational Employment Statistics wage estimates. The scoring method is determined by deciles or, in other words, a percentile system ranging from the 90th percentile down to the 10th percentile and under. The averaged total for each occupation is then divided by two to produce an Indiana Demand Ranking in both outlooks. Lastly, both the short term and long term outlook Indiana Demand Ranking scores for each occupation are averaged to calculate the occupation’s final rating. Because occupational demand drives the ranking of occupations, median wage levels can vary within each scoring threshold, however wage rules are in place to prevent low wage, high demand occupations from scoring highly. Any occupation scoring 3 or 4 (out of 10) in the wage category cannot score higher than 3 flames, and any occupation scoring 1 or 2 (out of 10) in the wage category cannot score higher than 2 flames.

2021-2022 State CTE Funding for Approved Course Titles and Descriptions

Summary of Changes:

The following new courses were added to the list of funded courses:

- 7208 Aviation Sheet Metal I – Level I course
- 7209 Aviation Sheet Metal II – Level I course
- 7199 Engineering Essentials – Introductory course
- 7175 Introduction to Cosmetology and Barbering – Introductory course
- 7190 Introduction to Public Safety and First Responders – Introductory course

The following courses were recategorized as Level 1 courses from Introductory Courses:

- 4524 Accounting Fundamentals
- 4802 Introduction to Engineering Design
- 5274 Medical Terminology
- 4728 Robotics Design and Innovation

The following courses were recategorized as Level 2 courses from Level 1 courses:

- 5698 Engineering Design and Development
- 5219 Biomedical Innovations

The following courses were recategorized as Level 1 courses from Level 2 courses:

- 5518 Aerospace Engineering
- 5650 Civil Engineering and Architecture
- 5538 Digital Electronics
- 5217 Medical Interventions
- 5534 Computer Integrated Manufacturing

The following courses have a title change from the previous year:

- 5914 Marketing Fundamentals – title changed from Principles of Marketing
- 4524 Accounting Fundamentals – title changed from Introduction to Accounting

2021-22 State CTE Funding

IDOE Course Code	IDOE Course Name	Cluster/Subject Area	Credits Per Semester	Max Credits Allowed	CTE Funding Threshold	CTE Funding Level
5530	3-D Computer Animation and Visualization	AV	1-3 (2 sems required)	6	Less Than Moderate Value Level 1	\$200

5644	Principles of Engineering	STEM	1 (2 sems required)	2	Moderate Value Level 1	\$400
6154	Public Safety: Special Topics	L&PS	1-3 (1 sem course)	12	Pilot	\$300
5986	Radio and Television I	AV	1-3 (2 sems required)	6	Less Than Moderate Value Level 1	\$200
5992	Radio and Television II	AV	1-3 (2 sems required)	6	Less Than Moderate Value Level 2	\$300
5842	Recreational and Mobile Equipment I	T&L	1-3 (2 sems required)	6	Less Than Moderate Value Level 1	\$200
5844	Recreational and Mobile Equipment II	T & L	1-3 (2 sems required)	6	Less Than Moderate Value Level 2	\$300
4728	Robotics Design and Innovation	ADV MAN	1 (2 sems required)	2	High Value Level 1	\$680

5984	Sports and Entertainment Marketing	BMMF	1	2	Moderate Value Level 1	\$400
5918	Strategic Marketing	BMMF	1-2 (2 sems required)	4	Moderate Value Level 1	\$400
5601	Supply Chain Management and Logistics	T&L	1-3 (2 sems required)	6	High Value Level 1	\$680
5229	Sustainable Energy Alternatives	AG	1 (2 sems required)	2	Less than Moderate Value Level 1	\$200
5622	Tractor/Trailer Operation	T&L	1-3 (1 sem course)	3	High Value Level 1	\$680
6156	Transportation: Special Topics	T&L	1-3 (1 sem course)	12	Pilot	\$300
5211	Veterinary Careers I	AG	1-3 (2 sems required)	6	High Value Level 1	\$680
5212	Veterinary Careers II	AG	1-3 (2 sems required)	6	High Value Level 2	\$1,020
5602	Warehouse Operations and Materials Handling	BMMF	1-3 (2 sems required)	6	Moderate Value Level 1	\$400
5776	Welding Technology I	ADV MAN	1-3 (2 sems required)	6	High Value Level 1	\$680
5778	Welding Technology II	ADV MAN	1-3 (2 sems required)	6	High Value Level 2	\$1,020
5974	Work Based Learning Capstone	CTE WBL	1-3 (1 sem course)	6	Work Based Learning	\$500

- Any course denoted with an **asterisk (*)** is a course that is eligible for Level 2 funding as long as a student has previously completed the recommended prerequisite. The courses denoted with an asterisk no longer have a required prerequisite. As such, a student can enroll in one of these courses without completing the first in the sequence. If that is the case, the school will not receive persistence funding for such an enrollment and will instead be funded at a **Level 1** rate.

- **Area Participation** -number of pupils who travel from the school in which they are currently enrolled to another school to participate in a career and technical education program in which pupils from multiple schools are served at a common location.
- **Appeals Process**

In accordance with IC-20-43-8-10, if a school corporation determines that the categories of career and technical education programs issued by the Department of Workforce Development, in consultation with the GWC, and approved by the state board under section 7.5 of this chapter are not representative of the employment demand in the region surrounding the school corporation, the school corporation may petition the Department of Workforce Development to recategorize for the school corporation the career and technical education programs offered by the school corporation according to the employment demand in the region surrounding the school corporation.

School corporations will be able to appeal the categorization of a CTE course for the 2021-2022 school year effective February 1, 2021 through Gateway. The deadline to submit an appeal is March 15, 2021. Further details will be available on the DWD website, the Governor's Workforce Cabinet website and through the DOE PAMS/SAMS weekly newsletter, as available.
