Analysis of Graduation Pathways Usage for 2018 Graduates
(December 21, 2018)

Students in Indiana have until September 30[1] of their expected graduation year to complete graduation requirements. Schools report graduates to the Department on the Graduate Collection (DOE-GR). The 2018 DOE-GR deadline was October 5, 2018. Additionally, schools that fail to submit their graduates by the deadline will have the opportunity to submit a voluntary audit prior to November 7, 2018.

The current total graduate count reported is 74,078. Of the 504 schools reporting graduates, 22.2% or 112 schools reported one or more graduates using Graduation Pathways (See Appendix A for the full list of schools). It is important to note that some schools reported students as Graduation Pathways graduates even when the students could have graduated using avenues available prior to the implementation of Graduation Pathways. The following tables breakdown the total number of Graduation Pathways graduates reported (Table 1) by Public Schools only (Table 2) and by Non-Public Schools (Table 3).

Table 1: Statewide Reporting of Graduation Pathways

	Total Graduate Count	Percent of Graduates Reported
Graduation Qualifying Exam	73,008	98.6%
Graduation Pathways	1,070[2]	1.4%
