

Dr. Jennifer McCormick
Superintendent of Public Instruction

DEPARTMENT OF EDUCATION

Working Together for Student Success

TO: Indiana State Board of Education
FROM: Dr. Charity Flores, Director of Student Assessment
RE: 2020-2021 Formative Assessment Grant: Corporation and School Distributions
DATE: September 2, 2020

The State of Indiana provides \$11,711,344.00 as appropriated in [HEA 1001 \(2019\)](#) for “grants to public and accredited nonpublic schools through the department of education” to provide “formative tests to identify students who require remediation”. In spring 2020, the Indiana State Budget Agency reduced this allocation for school year 2020-2021 to \$9,954,642.40 (a 15% reduction) in response to statewide budget concerns stemming from the COVID-19 pandemic.

The Indiana Department of Education (IDOE) applied funding algorithms previously approved by the Indiana State Board of Education to submitted 2020-2021 Formative Assessment Grant applications to participate. The results of the distribution calculations for 2020-2021 are defined in Table 1. IDOE recommends these distributions to the Indiana State Board of Education for approval.

Table 1: 2020-2021 Formative Assessment Grant Funding Distributions

	Distribution Algorithm (Previously Approved)	Results of Algorithm Applied to 2020-2021 Applications
Allocation per Assessment	\$9,954,642.40 divided by <i>Total Number of Assessments</i>	\$6.12
Allocation per Student	<i>Allocation per Assessment x Number of Assessments</i>	1 Content Area: \$6.12
		2 Content Areas: \$12.24
Allocation per Corporation	<i>Sum of All Student Allocations</i>	See attached spreadsheet

Students may participate in either (or both) Mathematics and English/Language Arts assessments. Table 2 shows participant data and associated allocated funds for school year 2020-2021.

Table 2: 2020-2021 Statewide Grand Totals

	Students Participating	Funds Allocated
English/Language Arts	816,860	\$4,999,183.20
Mathematics	808,100	\$4,945,572.00
Total	819,822 (unique students)	\$9,944,755.20

In comparison to previous years, school year 2020-2021 data shows an overall increase in corporation-level and student-level participation, particularly in Mathematics. The increase in participation demonstrates the value that Indiana schools and corporations place on understanding what their students know and indicates that Formative Assessment Grant funds support local assessment and remediation systems. Distribution amounts are significantly lower than last year due to the 15% state-level fund reduction and the increased program participation. Individual corporations may experience up to 17% reduced distributions when compared to school year 2019-2020 distributions. Table 3 shows comparison data over years.

Table 3: Comparison Data for School Years 2019-2020 and 2020-2021

	2019-2020	2020-2021	Change Indicator for 2020-2021
English/Language Arts Students Participating	813,385	816,860	+3,475
Mathematics Students Participating	797,438	808,100	+10,662
Total Unique Students Participating	815,049	819,822	+4,773
Total Corporations Participating	525	567	+42
Per Test Allocation	\$7.27	\$6.12	-\$1.15

Accessibility and Accommodations Training

Office of Student Assessment
School Year 2020-2021

 @EducateIN

Working Together for Student Success

Welcome

- The 2020-2021 Accessibility and Accommodations Training is for Corporation Test Coordinators (CTCs), School Test Coordinators (STCs) and Test Administrators (TAs).
- The purpose of this training is to support the management of testing accommodations and to minimize the use of inappropriate test settings during test administration.
- TAs must be familiar with student testing accommodations before test administration.

Indiana Department of Education

Welcome to the Accessibility and Accommodations Training for Corporation Test Coordinators, School Test Coordinators and Test Administrators. This training is intended to support the management of testing accommodations and to minimize the use of inappropriate test settings during test administration. For successful management of accommodations, TAs must be familiar with the students they serve for the test administration.

Accommodations and Accessibility Features Available on Indiana's Standardized Assessments

To access the *2020-2021 Accessibility and Accommodations Guidance*, please visit the Indiana Department of Education (IDOE)'s website:

<https://www.doe.in.gov/sites/default/files/assessment/2020-2021-accessibility-and-accommodations-guidance.pdf>

Indiana Department of Education

IDOE released the 2020-2021 Accessibility and Accommodations Guidance to provide direction regarding accessibility features and accommodations that can be provided to different populations of students. Please reference this document at the link provided to fully understand the supports that can be provided for students. It is expected that TAs are thoroughly familiar with accommodations and guidance prior to administering an assessment.

Types of Accessibility Resources

Universal Features

Universal features are available to **all** students as they access instructional or assessment content.

Designated Features

Designated features are those tools that are available for use by any student for whom the need has been indicated by an educator or team of educators who are familiar with the student's characteristics and needs.

Accommodations

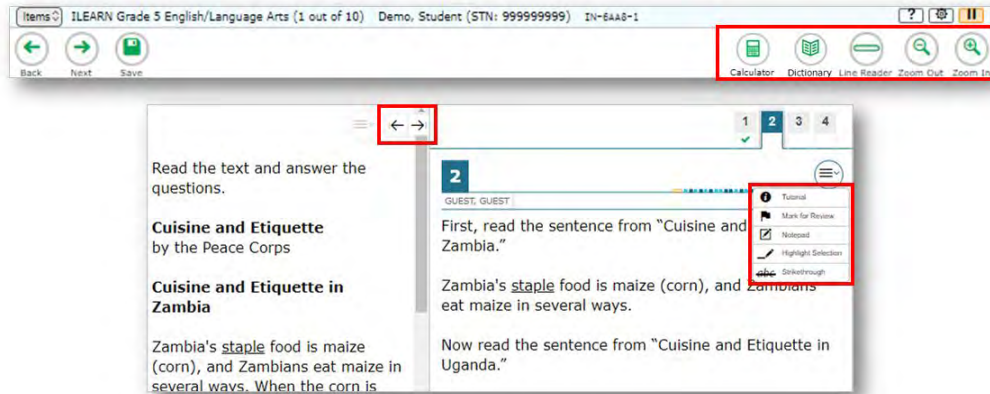

An accommodation is a change in the standardized testing materials or procedures that enables students with a disability or with limited English proficiency to participate in an assessment in a way that measures abilities. Accommodations are provided via Individualized Education Programs (IEPs), Individual Learning Plans (ILPs), Service Plans, Choice Special Education Plans (CSEPs), or Section 504 Plans.

Indiana Department of Education

IDOE recognizes that the validity of assessment results depends on each and every student having appropriate universal features, designated features, and accommodations when needed, based on the constructs being measured by the assessment. The following slides will cover universal features, designated features, and accommodations allowed on state assessments.

Universal Features Display

Indiana Department of Education

Universal Features are available for all students, including those receiving designated features and/or accommodations. These features, available for the Indiana Assessments, are described in detail in the *Accessibility and Accommodations Guidance*. This training will focus on the types of designated features and accommodations that are available to students.

Overview of Designated Features

- **Designated features** for Indiana assessments are those **features** that are available for use by **any student** for whom the need has been indicated by an educator or team of educators, parent/guardian or the student (if appropriate) who is familiar with the student's characteristics and needs.
- Assigning a designated feature does not require documentation of need in an IEP, Service Plan, CSEP, ILP or Section 504 Plan.
- Designated features need to be identified and assigned in the Test Information and Distribution Engine (TIDE) *prior to* assessment administration. The TA can assign them in the TA interface prior to approving the student to test.
- Students should be familiar with using the designated features assigned to them.

Indiana Department of Education

Designated features for the Indiana Assessments are those resources that are available for use by any student for whom the need has been indicated by an educator (or team of educators with parent/guardian and student). Assigning a designated feature does not require documentation of need in an IEP, Service Plan, CSEP, ILP or Section 504 Plan.

Designated features, along with accommodations, are set for students in TIDE by a nightly upload from IDOE. Test Coordinators or TAs should verify students have the correct designated features in TIDE prior to assessment administration. If students have incorrect designated features in TIDE, CTC, STC, and TA user roles have the ability to make direct changes in TIDE. Additionally, please note that TAs are able to change designated features in the TA Interface, prior to providing approval for a student to begin a test. Students should be familiar with using the designated features assigned to them.

Overview of Accommodations

- **Accommodations** are changes in procedures or materials that increase equitable access during Indiana assessments. Assessment accommodations generate **valid** assessment results for students who need them; they allow these students to show what they know and can do.
- IDOE has identified **accommodations** for students with a need documented in their formal plan (IEP, Service Plan, CSEP, Section 504 Plan, or ILP).

Additionally, accommodations may be provided to a student with a temporary condition such as a broken arm or concussion through an Emergency/Temporary Accommodation Plan. A Non-Standard Assessment Accommodation Request must be submitted to IDOE for prior approval.

Indiana Department of Education

Accommodations are changes in procedures or materials that increase equitable access during the Indiana assessments. Assessment accommodations generate valid assessment results for students who need them; they allow these students to show what they know and can do.

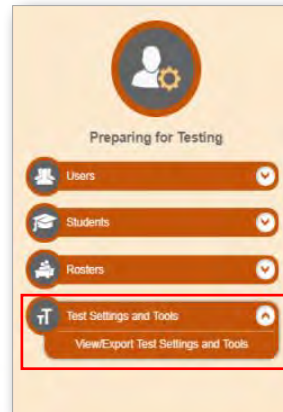

IDOE has identified accommodations for students for whom there is a documented need for the accommodation(s) on an IEP, Service Plan, CSEP or Section 504 Plan accommodation or special circumstance, such as the example of a student with a broken arm.

Just like with designated features, Test Coordinators or TAs should verify students have the correct accommodations set in TIDE prior to assessment administration. Unlike designated features, there are no user roles in TIDE that have the ability to make changes to a student's assigned accommodations. If a student's accommodations are incorrect, they must be updated in Indiana IEP or via a new DOE-TA or DOE-TL submission. The student will be able to test the following day. Also unlike designated features, accommodations may not be changed in the TA Interface. Additionally, accommodations may be provided to a student with a temporary condition such as a broken arm or concussion through an Emergency/Temporary

Accommodation Plan. A Non-Standard Assessment Accommodation Request must be submitted to IDOE for prior approval.

Assigning Designated Features in TIDE

- TAs must review each student's information prior to testing day to ensure that each student has the correct designated feature(s) and/or accommodation(s) set in TIDE.
- Student information including enrollment and accommodations are pulled from the IDOE databases. Indiana IEP (IIEP) system and the DOE-TA collections provide accommodations data flowing into TIDE.
- The student should not test until the Designated Features and Accommodations settings are correct in TIDE.
- If students test with incorrect accommodations, test scores may be invalidated.
- Contact your Test Coordinator if settings in TIDE are incorrect.

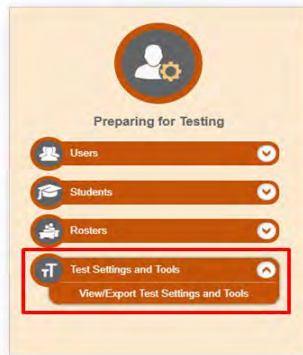

Indiana Department of Education

CTCs and TAs must review each student's accommodations prior to testing to ensure the correct accommodations from the student's plans are now available to the student in the testing platform. Accommodations are pulled into the TIDE during the nightly feed from IIEP, IILP, and the DOE-TA/TL. TIDE only pulls accommodations from finalized IEPs and through the TA/TL upload for all other plans. In order to be prepared in advance for testing, the test administrator needs to obtain a list of student accommodations. Test Coordinator's can usually get this from your special education director, your testing coordinator, or the student's special education teacher of record. Second, check to make sure those accommodations are correctly displayed in TIDE. Your testing coordinator may do this for you, but it is ultimately the Test Administrator's responsibility to ensure correct accommodations are provided at the time of testing. If you find that a student's test settings are incorrect, contact your testing coordinator for assistance. Do not allow the student to test until accommodations are correctly assigned. If students test with incorrect accommodations, test scores may be invalidated. If you find that a student's test settings are incorrect, contact your testing coordinator for assistance. Do not allow the student to test until accommodations are correctly assigned. If students test with incorrect accommodations, test scores may be invalidated. After the accommodations and designated features have been set in TIDE, the TA will need to verify and approve settings once each student has logged in to begin testing.

Now, let's take a closer look at how users verify designated features and accommodations in TIDE.

Assigning Designated Features in TIDE

Indiana Department of Education

The View/Export Test Settings and Tools page includes a form for setting selection criteria to retrieve a student's test settings and tools. Required criteria, such as the corporation and school in this example, are marked with asterisks. Other criteria are optional, such as the STN and the student's first or last name. As previously mentioned, TAs do not have access to the Test Settings and Tools task menu. TAs do, however, have access to the Students task menu, and the View/Export Students task will bring TAs to this very same search form, pictured above. Therefore, CTCs, STCs, and TAs will all be able to verify student test settings using the same search form, regardless of which Task menu is used.

You can further refine your criteria by entering additional demographic information or test settings in the Advanced Search panel, if it is available.

The students you can retrieve on this page are limited by your role's scope. For example, if you are a corporation-level user, you can retrieve settings for those students enrolled within your corporation. If you are a school-level user, you can only retrieve settings for those students enrolled within your school.

Click Search to continue. You'll see a message asking whether you would like to view the results of your search, export the list of students to your inbox, or modify your search criteria and try again. If you choose to export the results to your inbox, you will

receive an email when the file is ready for you to download.

Assigning Designated Features in TIDE

View/Export Test Settings and Tools
Use this page to view, edit, or export students and their test settings. [more info](#)

Search Students

Number of students found: 4053
1-50 of 4053 records | Page 1 of 82

Indiana Department of Education

When you click View Results, TIDE will display all the students satisfying the search criteria. If all columns cannot fit on the screen at once, you can click the blue arrow on the right side of the screen to scroll right and display more information.

To make the search form reappear and search for additional students, click the plus sign in the Search Students panel, which appears as a blue bar.

Print or export student information from TIDE by selecting the desired students and clicking the Print or Export buttons above the search results.

To export the results, mark the checkboxes next to the results you wish to export and click the green export button above the search results. A pop-up will appear giving you the option to export to the Inbox in either Excel or CSV format.

You can edit a student's designated features by clicking the green pencil icon.

Indiana Department of Education

A View/Edit Student window will appear. The options available for a test setting are grouped to indicate if an option is a designated feature or an accommodation. The panels display a column for each of the student's tests. You can select different settings for each test using the dropdown lists and toggles, if necessary.

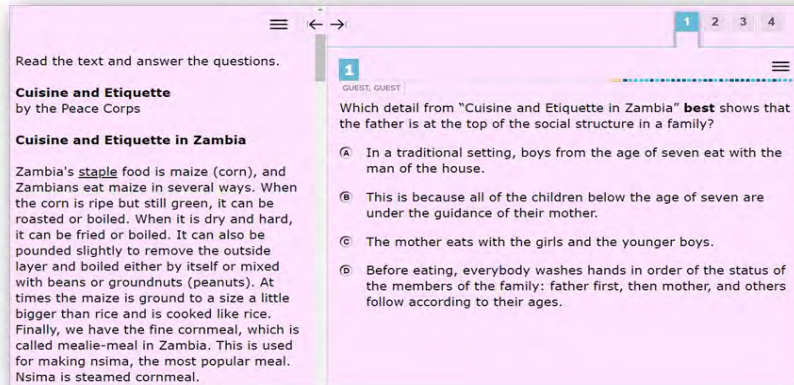

Click the minus sign in the upper-left corner of a panel to collapse it or click the plus sign in a collapsed panel to expand it. Additionally, you can use the floating Go To Section toolbar to expand panels.

Click Save to save any changes to the student's test settings.

For more detailed information on managing student test settings and tools, see the *TIDE User Guide*.

Next, we will discuss Indiana's designated features.

Embedded Designated Feature: Color Contrast

Indiana Department of Education

Color contrast enables students to adjust screen background or font color based on their needs or preferences. This may include reversing the colors for the entire interface or choosing the color of the font and background. Some of the color choices are black on white, black on magenta, yellow on blue, medium gray on light gray, and reverse contrast.

This designated feature might be used for students with attention difficulties when viewing test content. It also may be needed by some students with visual impairment or other print disabilities (including learning disabilities).

The choice of colors should be informed by evidence that color selections meet the student's needs.

Embedded Designated Feature: Glossaries

- Languages available:
 - Arabic
 - Burmese
 - Mandarin
 - Spanish
 - Vietnamese
- ILEARN Content Areas:
 - Mathematics
 - Science and Biology
 - Social Studies

Indiana Department of Education

Glossaries are a designated feature that allows students participating in ILEARN to see and hear words in their native language. Glossaries are available in five languages: Arabic, Burmese, Mandarin, Spanish, and Vietnamese. The English glossary is a Universal Feature available to all students. Note that glossaries are provided for pre-selected construct-irrelevant terms in all content areas. Additionally, students may want to use headphones while using a glossary.

Embedded Designated Feature: Masking

The screenshot displays a digital reading assessment interface. On the left, a text passage titled "What Is a Spacesuit?" by David Hitt is shown. The passage is divided into two sections: "Why Do Astronauts Need Spacesuits?" and a second paragraph. The text explains that spacesuits protect astronauts from extreme temperatures and provide oxygen and water. On the right, a question interface is visible, showing a question number "3" and a "QUEST. QUEST" label. The question text reads: "This question has two parts. First, answer part A. Then, answer part B." Part A asks for the author's most likely intent regarding a quote about spacesuits. Part B asks for the sentence that best illustrates the conclusion from Part A. The interface includes a progress bar at the top with steps 1, 2, 3, and 4, and a navigation menu on the right.

What Is a Spacesuit?
by David Hitt

Why Do Astronauts Need Spacesuits?

Spacesuits help astronauts in several ways. Spacewalking astronauts face a wide variety of temperatures. In Earth's orbit, conditions can be as cold as minus 250 degrees Fahrenheit. In the sunlight, they can be as hot as 250 degrees. A spacesuit protects astronauts from those extreme temperatures.

Spacesuits also supply astronauts with oxygen to breathe while they are in the vacuum of space. They contain water to drink during spacewalks. They protect

3
QUEST. QUEST

This question has two parts. First, answer part A. Then, answer part B.

Part A

What is **most likely** the author's intent by mentioning "A spacesuit is much more than a set of clothes astronauts wear on spacewalks" at the beginning of the text?

Ⓐ The author wants to inform the reader that astronauts regularly walk in space.

Ⓑ The author wants to describe to the reader the importance of astronauts walking in space.

Ⓒ The author wants to explain to the reader that astronauts wear spacesuits during flights in space.

Ⓓ The author wants to convince the reader that spacesuits are more important to astronauts than most people think.

Part B

Which sentence from the text **best** illustrates the conclusion made in part A?

Ⓐ "The spacesuit protects the astronaut from the dangers of being outside in

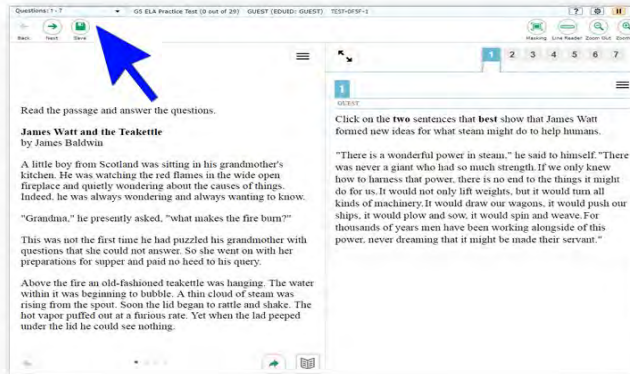

Indiana Department of Education

Next is Masking. Masking involves blocking off content that is not immediately needed or that may be distracting to the student. Students are able to focus their attention on a specific part of a test item by masking.

Students with attention difficulties may need to mask content not immediately needed or that may be distracting during the assessment. This feature also may be needed by students with print disabilities (including learning disabilities) or visual impairments. Masking allows students to hide and reveal individual answer options, as well as all navigational buttons and menus.

Embedded Designated Feature: Mouse Pointer

Indiana Department of Education

Mouse pointer feature allows the mouse to be set to a larger size and for the color to be changed. A TA must set the size and color of the mouse pointer prior to testing.

Students who are visually impaired and need additional enlargement or a mouse in a different color to more readily find their mouse pointer on the screen will benefit from this feature. Students who have visual perception challenges will also find this beneficial.

Embedded Designated Feature: Print Size

- Print size allows changes to the default zoom level.
- Options are one to eight times default magnification, with options five to eight available with streamline mode.

Print size allows changes to the default zoom level. Print size displays the printed text at an increased zoom level for students. Options are one to eight times default magnification, with options five to eight available with streamline mode. Zoom levels above five are available to students as an accommodation for ILEARN, IREAD-3, and I AM tests.

Embedded Designated Feature: Language

Spanish Translation(Stacked)

Mathematics, Science, Social Studies

Spanish Stem

English Stem

Spanish Answer Choice

English Answer Choice

Una directora quiere saber si los estudiantes de cierta escuela secundaria están a favor de un nuevo código de vestimenta en su escuela. La directora no puede preguntar la opinión de cada estudiante de la escuela, así que necesita seleccionar una muestra apropiada de los estudiantes que represente a la escuela secundaria.

Selecciona cuál muestra de estudiantes debe seleccionar la directora.

A principal wants to know if students at a particular high school are in favor of a new dress code at their school. The principal is not able to ask the opinion of every student at the school, so she needs to select an appropriate sample of the students to represent the high school.

Select which sample of students the principal should choose.

- Estudiantes seleccionados aleatoriamente de una lista de todos los estudiantes de la escuela.
Students randomly selected from a list of all students at the school.
- Estudiantes que se sienten en mesas de la biblioteca seleccionadas aleatoriamente.
Students sitting at randomly selected tables in the library.
- Estudiantes que ella seleccione en el pasillo entre las clases.
Students she selects from the hallway between classes.
- Estudiantes seleccionados por los maestros.
Students selected by the teachers.

Indiana Department of Education

Stacked translations are a Spanish language feature available for Mathematics, Science, and Social Studies items in ILEARN and I AM assessments. This designated feature provides the full translation of each item and the item directions above—or “stacked” on top of—the original item in English.

The screen shows an example of a translated item. The stem appears in Spanish at the top. Below is the stem in English. Then, each answer choice is presented in both Spanish and English. Note that the system features (such as the “Next” and “Back” arrows) are also displayed in Spanish.

For students whose primary language is not English and who use dual language features in the classroom, the use of the stacked (dual language) translation may be appropriate. Students participate in the assessment regardless of the language, and this feature will increase reading load and cognitive load.

Please note that this designated feature is not available for IREAD-3 or ISTEP+ and text-to-speech is not available in Spanish.

Non-Embedded Designated Features

- Assistive technology to magnify/enlarge
- Color acetate film for paper assessment
- Sound amplification system
- Special furniture or equipment for viewing test
- Special lighting conditions
- Time of day for testing altered

Indiana Department of Education

There are six different non-embedded designated features approved in the *2020-2021 Accessibility and Accommodations Guidance*:

- Assistive technology to magnify/enlarge the size to a level not provided for by the Zoom Universal Feature;
- Color acetate film for paper assessments;
- Access to sound amplification systems (such as headphones, FM System, noise buffers to increase the volume provided in the Test Delivery System);
- Special furniture or equipment for viewing the test
- Special lighting conditions; and
- Time of day for testing altered (student is tested during a specific time of day based on individual needs [e.g., ELA in the morning; no testing after lunch])

The next slides will discuss new legislation and embedded and non-embedded accommodations.

Senate Bill 346

Senate Bill 346 legislation was enacted in the Spring 2020. This legislation allows students in grades 6-12 to be assigned the following accommodations as deemed appropriate by the case conference committee:

- Text-to-speech on all items in English/Language Arts (ELA)
- Human reader on all items in ELA
- Online calculator on all items in Mathematics
- Adaptive and/or handheld calculator on all items in Mathematics

Indiana Department of Education

Beginning during the 2020-2021 testing administration students in grades 6-12 will have several new options to have all items read aloud or the use of a calculator on all items. The accommodations must be in the student's IEP, 504 plan, CSEP, or Service Plan to use text-to-speech on all items, Human Reader on all items or the online or adaptive/handheld calculator on all items. The text-to-speech or Human Reader accommodations on all items in ELA may be assigned locally based on case conference decisions which review data and instructional strategies for a student and determine that a student has a lifelong inability to read text without support as indicated by challenges with long-term application of reading skills or additional long-term deficits in the area of reading. Calculator accommodations on all items in Mathematics may be assigned locally based on case conference decisions which review data and instructional strategies for a student and determine that as student has a life-long inability to compute and reason general numerical principles (i.e., number sense) without support as indicated by challenges with long-term application of computational strategies or additional long-term deficits.

Accommodations

Indiana Department of Education

Only students that have an IEP, Section 504 Plan, ILP, CSEP, or Service Plan are allowed accommodations on Indiana Standardized assessments. The following slides feature some of the accommodations that are available. Always refer to the 2020-2021 Accessibility and Accommodations Guidance for a comprehensive list of all the available accommodations on Indiana Standardized Assessments.

Embedded Accommodations: American Sign Language (ASL) Video

The screenshot displays a digital assessment interface. On the left, a video player is titled "The World's Oldest Pottery" and includes the instruction "Listen to the presentation. Then answer the questions." Below the title is a play button and a progress bar. The video shows a woman in a purple shirt signing. On the right, a question box is labeled "21" and contains the text: "The following question has two parts. First, answer part A. Then, answer part B." Below this, "Part A" asks "Which idea from the presentation is unclear?" with four multiple-choice options: "what pottery was used for", "when pottery was invented", "what people did to find food", and "when people started farming". "Part B" asks "Which change should the speaker make to correct the error?" with two options: "include the ages of some ancient pieces of pottery" and "include information about what people cooked in pots".

Indiana Department of Education

ASL videos are available on ILEARN for any ELA item that has a listening stimulus. An ASL human signer and the signed test content will display on the same screen. Please note that this accommodation is only available on ILEARN ELA assessments.

Embedded Accommodations: Accommodated Fixed-Form / Hard-of-Hearing Form

ILEARN Accommodated Fixed Form

- It is an online fixed form assessment with a human reader script.
- It is for students who are deaf or hard-of hearing,
- It is available for all content areas.

IREAD-3 Hard-of-Hearing Form

- Provided for students not receiving phonics instruction due to a documented hearing impairment.
- CTCs and/or STCs must report all students needing the Hard of Hearing Form to IDOE.
- Students with a Hard of Hearing accommodation will receive a test form with the phonics items removed from the test.
- Students must test separately from peers for Segment 1.

Indiana Department of Education

ILEARN provides an online accommodated fixed-form which is offered to students who are deaf or hard of hearing and cannot access ASL via the online platform. This form is accompanied by a human reader script and is available to support the interpreter.

The following information is for IREAD-3. Schools must indicate if students have a hard of hearing accommodation so that they can receive the correct test form that will be missing the phonics items that will be withdrawn from the test to accommodate them. Students with a Hard of Hearing accommodation must not take the incorrect test form so that their score will not be affected.

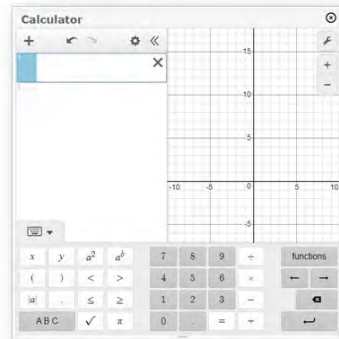

Embedded Accommodations: Online Calculator for All Items

Four-Function Desmos
Calculator

Scientific Desmos
Calculator

Graphing Desmos
Calculator

Indiana Department of Education

The online calculator accommodation for all Mathematics and Science items is a new accommodation for the 2020-2021 school year.

A Desmos four-function (basic) digital calculator will be available as accommodation for all items on ILEARN Mathematics Grade 6 tests, I AM Science Grades 4 and 6 tests, and the I AM Biology test.

A Desmos scientific on-screen digital calculator will be available for all items as an accommodation for ILEARN Mathematics Grades 7 and 8 tests, ILEARN Science Grades 4 and 6 tests, and the ILEARN Biology test.

A Desmos graphing on-screen digital calculator for all items on the ISTEP+ Mathematics test.

Embedded Accommodations: Closed Captioning for Audio Items

The screenshot displays an assessment interface. On the left, there is an audio player titled "Balloon Wranglers" with a play button and a progress bar. The audio player is partially obscured by a large, semi-transparent text box containing the following text:

Listen to the presentation and then answer the questions that follow.

The following question has two parts. First, answer part A. Then, answer part B.

Part A

Which conclusion is supported by the presentation?

- Ⓐ The New York parade is the largest of its kind.
- Ⓑ The huge balloons in a parade are difficult to control.
- Ⓒ Balloon wranglers have a harder job than others in the parade.
- Ⓓ The main reason people like the balloons is because of who they look like.

Part B

Which sentence from the presentation **best** supports your answer in part A?

- Ⓐ Many balloons look like well-known cartoons.
- Ⓑ They have to walk the whole 2.5 miles of the parade.

Indiana Department of Education

Closed captioning for audio items displays printed text on the screen as audio material is presented. Students who are deaf or hard of hearing and who typically access information presented via audio by reading words that appear synchronized with the audio presentation may need this accommodation to access audio content. The closed captioning text will cover some of the items due to space allocated on the platform, but a small degree of transparency has been added for 2020-2021 to enable students to see the content behind the closed captioning text box. Students will also be able to use the arrow button to move the closed captioning text from the bottom of the page, which is the default, to the top of the page and back. Students can also close the closed captioning text box, which will automatically pause the audio, and then click on play to reopen the closed captioning text box. It is important to note, however, that some students who are hard of hearing will be able to listen to information presented orally if provided with appropriate amplification and a setting in which extraneous sounds do not interfere with clear presentation of the audio in a listening test. Please note that this accommodation is available only on ILEARN ELA assessments.

Embedded Accommodation: Refreshable Braille and Braille Embosser

Indiana Department of Education

There are several Braille accommodations available to support students participating in ILEARN.

The Braille embosser provides graphic materials such as graphs and charts in a raised format; paper or Thermoform is available.

Refreshable Braille is available for students taking ILEARN. Students who are blind or have low vision may use refreshable braille to read text output. A **refreshable braille display** is a mechanical device for **displaying braille** characters. Visually impaired students who cannot use a computer monitor can use it to read text output.

Permissive mode must be indicated as an accommodation to use Refreshable Braille. **Please consult the *2020-2021 Assistive Technology Guide* for detailed information on use of refreshable braille and braille embossers. The Assistive Technology Guide is located in the Technology Resources folder on the Indiana Assessment Portal.**

Embedded Accommodations: Permissive Mode

- Permissive mode allows the use of an external device or software for the tests.
- Permissive mode must be enabled for students who require access to approved accessibility software and/or devices to interact with the test.
- Accessibility software and/or devices and external devices include magnifiers, speech-to-text, braille screen readers, and refreshable braille displays.
- Permissive mode requires that the Fidelity Assurance Form is completed ahead of testing. <https://form.jotform.com/91536578151967>
- When permissive mode is disabled, the only application that can be open on the computer is the secure browser.

Indiana Department of Education

Permissive mode allows the use of an external device or software for the tests. Permissive mode should be enabled for students who require access to approved accessibility software and/or devices to interact with the test. Accessibility software and/or devices and external devices include magnifiers, speech-to-text, braille screen readers, and refreshable braille displays. Permissive mode requires that the Fidelity Assurance Form is completed ahead of testing. The form is linked to this slide. When permissive mode is disabled, the only application that can be open on the computer is the secure browser. Please note: Permissive Mode does not apply to IREAD-3 or ISTEP+ assessments.

Embedded Accommodations: Streamline Mode

CEREAL BOXES

A cereal company uses cereal boxes that are rectangular prisms. The boxes have the dimensions shown.

- 12 inches high
- 9 inches wide
- 2 inches deep

The managers of the company want a new size for their cereal boxes. The new boxes have to be rectangular prisms. You will evaluate one box design the company proposed. Then you will create and propose your own design for the company.

Requirements for the new boxes:

- The new boxes have to use less cardboard than the original boxes.
- The new boxes have to hold the same or a greater volume of cereal as the original boxes.

Determine the volume of the current cereal box with the dimensions 12 inches high, 9 inches wide, and 2 inches deep.

Find the volume, V , in cubic inches, of each box.

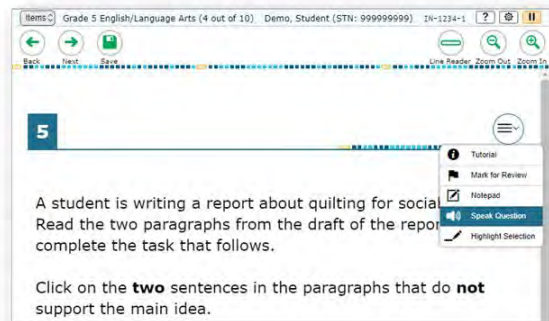

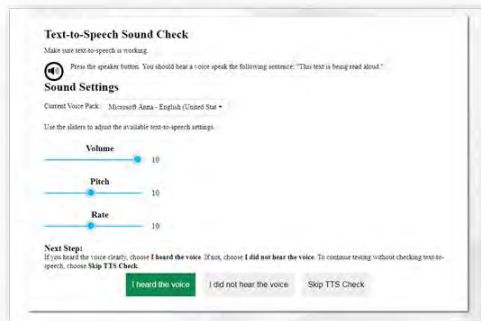

Volume of Original Box: $V = \dots \text{in}^3$

Indiana Department of Education

Streamline mode provides the assessment in an alternate, simplified format in which the items are displayed below the stimuli on the test interface. Streamline mode is highlighted in red here. Two column scrolling or tables used for layouts are not present in the streamline format. Streamline mode does not apply to ISTEP+.

Embedded Accommodations: Text-to-Speech

Indiana Department of Education

The text-to-speech accommodation allows students to set the speed prior to testing as well as to raise or lower the volume of the voice via a volume control during testing.

This accommodation is appropriate for a very small number of students participating in ILEARN, IREAD-3, and ISTEP+. It is estimated to be approximately 1–2% of students with disabilities participating in a general assessment. Students using text-to-speech will need headphones unless testing individually in a separate setting. Students participating in I AM, except for those with an accommodation for a read-aloud script, must use text-to-speech to access the assessment.

Text-to-speech within the student interface is accessed through the context menu.

Assignment of text-to-speech as an accommodation should be made at the individual student level, keeping in mind student need, student experience, and appropriate use of each resource per the guidance.

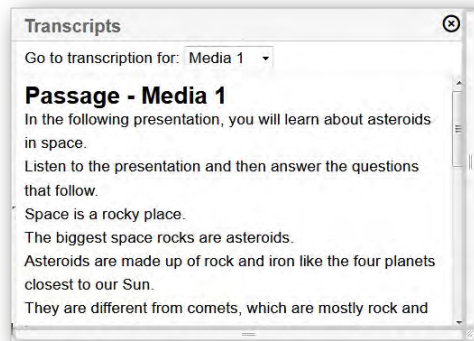

Text-to-speech is supported for all Indiana state assessment programs.

Students that take IREAD-3 and ILEARN grades 3-5 using TTS as an accommodation will not have items that measure reading comprehension read aloud.

Students that participate in ILEARN grades 6-8 and ISTEP+ can have all items and passages including items that measure reading comprehension read aloud via text-to-speech if the case conference committee determines the accommodation is appropriate based on student need.

Please consult the guidance provided in the *2020-2021 Accessibility and Accommodations Guidance* for guidance on assigning text-to-speech accommodation for all English Language Arts items.

Embedded Accommodations: Audio Transcriptions

Indiana Department of Education

Audio Transcriptions allow students participating in ILEARN to view a transcript of the audio content for the current test page. All text in a test item's audio content will display in a separate window. The text in transcripts can be read by screen readers, such as JAWS. This is useful for visually impaired students who are accustomed to accessing information presented via audio in the form of braille.

Please note this is a different accommodation from closed captioning, which is intended to assist hearing-impaired students. Additionally, please note that Audio Transcripts are available only on ILEARN ELA assessments.

Embedded Accommodations: Print-on-Demand

- The printing of items/stimuli is intended for those rare instances for students who cannot interact with items online due to a vision impairment or medical issue (e.g., seizures).
- The use of print-on-demand should be minimal (on ILEARN).
- Print-on-Demand requires:
 - Test security management
 - 1:1 test administration
 - Two devices (one for student, one for TA)
 - A printer in a secure location
 - Additional time

Print-on-demand is intended to be used for a very small population of students. This accommodation allows students to participate in the computer-adaptive assessment while using paper to read and respond to items. However, it requires extended preparation from the TA as well as test security management. The intent is not to print out all items, if that is what is needed for the student, a print test should be requested instead. Students may request one or more test questions to be printed electronically from the online system for students to review on paper. Additional time and a scribe may also be required. Print-on-demand is available on ILEARN grades 3-8, ILEARN Biology, and ILEARN U.S. Government. The next slides will discuss Non-embedded accommodations.

Non-Embedded Accommodations

- Review Guidelines in the 2020-2021 Accessibility and Accommodations Guidance.
- Gather needed materials.
- Provide at the time of testing.
- Document locally that accommodations were provided.

Non-embedded accommodations are provided by the TA, not by the testing platform. Follow the process above to provide non-embedded accommodations with fidelity.

Non-Embedded accommodations are not provided to students via the testing platform, but must be provided by the TA. Before providing non-embedded accommodations, review all applicable guidelines in the Accessibility and Accommodations Guidance document and in the Test Administrator’s Manual. You want to be familiar with what types of supports are allowed and what are not allowed. Then, gather needed materials. For example, be sure assistive technology is available, special seating is arranged, or other supports are on hand and ready for use. Provide the accommodations at the time of testing. Remember, accommodations are intended to mirror what the student is doing in the classroom, so students should not be interacting with accommodations for the first time on a high-stakes assessment. Finally, be sure to document your provision of the required accommodations.

Non-Embedded Accommodations: Alternate Indication of Response

Alternate response accommodations allow students to use accessibility technology—such as adapted keyboards, large keyboards, StickyKeys, MouseKeys, FilterKeys, adapted mouse, touch screen, head wand, and switches—to respond to test items.

Indiana Department of Education

Alternate response accommodations allow students to use accessibility technology—such as adapted keyboards, large keyboards, StickyKeys, MouseKeys, FilterKeys, adapted mouse, touch screen, head wand, and switches—to respond to test items. Students with some physical disabilities, including both fine motor and gross motor skills, may need to use this accommodation. Some alternate response options are external devices that must be plugged in and be compatible with the assessment delivery platform.

Students with some physical disabilities, including both fine motor and gross motor skills, may need to use this accommodation. Some alternate response options are external devices that must be plugged in and be compatible with the assessment-delivery platform.

Non-Embedded Accommodations: Braille Booklet and Braille Transcript for Audio Items

- Graphic material—such as maps, charts, graphs, diagrams, and illustrations—may be presented in a raised format (paper or thermoform).
- A braille transcript is available for closed captioning.

Indiana Department of Education

A braille booklet accommodation provides a raised-dot code for assessments that students read with their fingertips. Graphic material—such as maps, charts, graphs, diagrams, and illustrations—may be presented in a raised format (paper or thermoform). Student answer choices will need to be entered into the online assessment. IDOE provides these assessments in UEB and/or UEB with Nemeth for all grades. For ILEARN, IREAD-3, and ISTEP+, braille transcripts for audio items, a non-embedded accommodation, provide a braille transcript of the closed captioning.

Non-Embedded Accommodations: Additional Breaks

Indiana Department of Education

Some students may need to take additional breaks, such as a “medical” break due to existence or sudden onset of a temporary or long-term medical condition. It can also be due to a child needing a break for behavioral reasons.

Because ILEARN and I AM tests are not timed, TAs need to use their best professional judgment when allowing students extra time. Students should be actively engaged in responding productively to test questions during testing.

Please note, for IREAD-3 and ISTEP+ assessments, time limits are set for the student, and the TA needs to be aware of the time limit prior to testing. Unlimited time is not allowed.

Non-Embedded Accommodations: Hundreds Chart and Multiplication Table

Hundreds Chart

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Multiplication Table

x	1	2	3	4	5	6	7	8	9
1	1	2	3	4	5	6	7	8	9
2	2	4	6	8	10	12	14	16	18
3	3	6	9	12	15	18	21	24	27
4	4	8	12	16	20	24	28	32	36
5	5	10	15	20	25	30	35	40	45
6	6	12	18	24	30	36	42	48	54
7	7	14	21	28	35	42	49	56	63
8	8	16	24	32	40	48	56	64	72
9	9	18	27	36	45	54	63	72	81

Indiana Department of Education

A paper-based hundreds chart may be used for ILEARN Mathematics grades 3–8 and all I AM Mathematics assessments.

For ILEARN, this accommodation is available for ILEARN Math and ILEARN Biology assessments.

A paper-based 9x9 multiplication table may be used in all I AM Mathematics assessments and in ILEARN Mathematics grades 6–8 assessments.

Non-Embedded Accommodations: Interpreter for Sign Language

- The CTC must access the scripts from the appropriate testing vendor.
- The scripts must be used by interpreters and the test administration must be overseen by the TA.
- Interpreters must complete Test Security Training and read and sign the Indiana Testing Security and Integrity Agreement.

Some students may require an interpreter for the sign language accommodation. CTC's must access the scripts from the appropriate testing vendor. Scripts must be used by interpreters and the test administration must be overseen by the TA. Interpreters must complete the Test Security Training and read and sign the Indiana Testing Security and Integrity Agreement prior to test administration which is located in the Program Manual. Please note that parents or guardians are not allowed to serve as an interpreter during state testing.

Non-Embedded Accommodations: Large Print and Print Booklet

- A paper form of the assessment can be provided to a student as long as it is formally documented in the student's educational record that the student cannot participate in online testing.
- If a student doesn't have formal plan but a specific need has been requested for that student on state assessments, a Non-standard Accommodation Request must be submitted for IDOE approval prior to testing.
- Students without a formal plan include:
 - Religious reason
 - Student in a facility without access to computers
 - Student on homebound
 - Students with an Emergency/Temporary Accommodation Plan

Indiana Department of Education

A print booklet form of the assessment can be provided to a student as long as it is formally documented in the student's educational record that the student cannot participate in online testing. If a student needs a print booklet and doesn't have a formal plan but a specific need has been requested for that student on state assessments, then a Non-Standard Accommodation Request must be submitted for IDOE approval prior to testing.

Large print assessment booklets are available to students. Large print booklets are in 18-point font. Please note that the online print size can be changed to 24-point, 31-point, 41-point, and 51-point with higher options available with streamline mode and may be more appropriate than a paper version. Also, fixed-form assessments may not have the same level of reporting as the computer-adaptive assessments. Another accommodation is read aloud script for the paper booklet. Scripts must be used by human readers for paper/pencil testing, and the TA must follow the guidance provided in the *2020-2021 Accessibility and Accommodations Guidance*.

Non-Embedded Accommodations: Read Aloud to Self and Individual Testing

Students may read aloud to self so they can listen to themselves answer the questions. They can use a device such as a whisper phone.

Indiana Department of Education

Students can read the test aloud to themselves during all sections. They can use a whisper phone to do this, however they should have experience using a whisper phone prior to test administration and should be tested individually. Also, some students may need to be tested individually as an accommodation. The location for testing should be planned prior to the administration. Students who are easily distracted in the presence of other students, or who may distract others, may need an alternate location to be able to take the assessment. The separate setting may be in a different room with the TA present that allows them to work individually.

Non-Embedded Accommodations: Scribe

- A human who records verbatim what students dictate.
- A scribe can be used for a student with a recent injury (such as a broken hand or arm) that makes it difficult to produce responses. A Non-Standard Accommodation Request must be filled out in this situation for prior IDOE approval.

A scribe accommodation allows students to dictate their responses to a human who records verbatim what they dictate. Students who have documented significant motor or processing difficulties, or who have had a recent injury (such as a broken hand or arm) that makes it difficult to produce responses, may need to dictate their responses to a human who then records the students' responses verbatim. For many of these students, dictating to a human scribe is the only way to demonstrate their composition skills. It is important that these students be able to develop planning notes via the human scribe and to view what they produce while composing via dictation to the scribe. The scribe must be trained and qualified, and must follow the administration guidance. This accommodation is not available for IREAD-3 or I AM since this is a multiple choice assessment only. Please refer to the *2020-2021 Accessibility and Accommodations Guidance* on the Department of Education's website for the protocol on scribing for students.

Non-Embedded Accommodation: Low Vision Scripts

- Available only for students taking I AM.
- Low Vision Scripts are most appropriate for students who are blind or have low vision.
- Low Vision Scripts include descriptions of all visuals that are intended to be read aloud to students.
- Read aloud scripts are only available for students with a print or Human Reader accommodation.
- CTCs access these scripts through the TIDE secure inbox.

Indiana Department of Education

Low vision scripts are read loud scripts intended for students that are blind or have low vision and can't access standardized assessments visually. They are only available for Indiana's Alternate Measure, or I AM. The difference between low vision scripts and traditional read aloud scripts is that the low vision scripts include a description of all visuals included on the assessment. These descriptions must be read aloud to students. Traditional read aloud scripts do not include visual descriptions and are intended for students who are able to see these visuals independently.

CTCs will receive a copy of both the traditional read aloud script and the low vision script for any alternate tester with a Human Reader or print accommodation. These scripts will be sent via the CTC's TIDE Secure Inbox. The CTC will then create a secure check in and check out process to share these scripts with TAs. It will be a local decision which version of the script to use while administering I AM. Please note that scripts must be read aloud to students, word for word.

I AM Stimulus and Response Materials

- IDOE has provided approved substitutions and alternatives for stimulus and response materials for I AM.
- Suggestions are allowable based on the student's degree of vision, hearing, and/or physical mobility.
- These do not need to be formally documented.

[I AM Stimulus and Response Materials](#)

Indiana Department of Education

I AM Stimulus and Response Materials are substitutions and alternatives for students that take I AM. These suggestions are allowable based on the student's degree of vision, hearing, and/or physical mobility. The stimulus and response materials do not need to be formally documented.

If you have questions about accommodations, be sure to talk to your Test Coordinator prior to testing. Thank you for taking the time to view this training module.

If you have general questions or need additional information on Indiana's Accessibility and Accommodations, please visit the Indiana Assessment Portal, consult the Indiana Assessment Help Desk, consult the **2020-2021 Accessibility and Accommodations Guidance** or contact the Indiana Department of Education.

To: Indiana State Board of Education

From: Dr. Charity Flores, Director of Assessment

Date: September 2, 2020

Subject: 2020-2021 Accessibility and Accommodations Training Module

The Indiana Department of Education (IDOE) is requesting State Board approval of the 2020-2021 Accessibility and Accommodations Training Module. The module for 2020-2021 remains historically consistent with the exception of Text-to-Speech (TTS) and Calculator accommodations as required by recent legislation. The table below outlines the changes in the module.

Slide Number	Description
19	Senate Bill 346 explanation
22	Accommodated Fixed Form and Hard-of-Hearing Form
23	Online Calculator for All items
24	Closed Captioning for Audio items
28	Text-to-Speech
40	Low Vision Scripts
41	I AM Stimulus and Response Materials
