FLOYD COUNTY ELECTION BOARD

Witnesseth: that the Floyd County Election Board adopted electronic voting for the County and submitted its plan to the State Election Board after public hearing all as required by law;

Further that the Board has adopted a plan for the counting of all votes cast in early voting that produced a ballot that was then put into an envelope with signature of the voter and initials of the Clerks that was then counted on election day;

Further that those envelopes were then opened by the Board on Election day and scanned by the Board;

That the procedure is cumbersome, and requires many man hours, and does not improve the integrity of the voter nor improve the election process in anyway;

Therefore the Floyd County Election Board RESOLVES as follows:

That henceforth, All Early voting on the OVI machines will be scanned upon the voter completing the process of voting into the Tabulator;

Further: That at the end of each day the counted ballots and the thumb drives will be stored at the County Clerks Election Office under lock and key with two (2) locks, one from each of the two Election Board Representatives. That said Thumb Drives not be opened and recapped until Election Day when counting of all votes in said election commences.

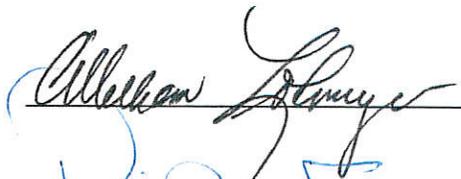

That a copy of this Resolution as adopted by this Board be certified to the Indiana Election Board for keeping in its records.

So Resolved this 6th day of February, 2015.
